Basis of Accounting

The timing of recognition, that is, when the effects of transactions or events are recognized, for financial reporting or budgeting purposes. The three basis of accounting for governmental agencies are: (1) Cash Basis – when cash is received or paid; (2) Accrual Basis – when the underlying transaction or event takes place; (3) Modified Accrual Basis – revenues and expenditures are recognized in the accounting period in which they become available and expenditures are recognized in the accounting period in which the fund liability occurred. Glendale uses the Modified Accrual Basis for Governmental Funds and Accrual Basis for Proprietary Funds.

Basis of Budgeting

Refers to the method used for recognizing revenues and expenditures in the budget. Glendale's basis of budgeting is the same as their basis of accounting.

Based on the U.S. Department of Housing and Urban Development (HUD), the CDBG program is one of the longest continuously run programs at HUD since it began in 1974. The CDBG program provides annual grants on a formula basis to over 1,200 general units of local governments and States.
