CITY OF GLENDALE DEVELOPMENT SERVICES Performance Measures

CHARACTERISTIC 1: NEIGHBORHOODS AND COMMERCIAL DISTRICTS ARE WELL MAINTAINED AND FREE OF BLIGHT

Measure 1.1 Identify and alleviate blighted conditions as defined by California Redevelopment Law in both project areas. Blighting conditions defined as follows:

- Defective design and character of physical construction (buildings & structures).
- Faulty interior arrangement and exterior spacing (buildings & structures).
- High density of population and overcrowding (building & structures).
- Inadequate provisions for ventilation, light, sanitation, open spaces and recreation facilities (buildings & structure).
- Age, obsolescence, deterioration, dilapidation, mixed character, or shifting of uses (building & structures).
- The subdividing and sale of lots of irregular form and shape and inadequate size for proper usefulness and development.
- The laying out of lots in disregard of the contours and other topography or physical characteristics of the ground and surrounding conditions.
- The existence of inadequate public improvements, public facilities, open spaces and utilities, which cannot be remedied by private or governmental action without redevelopment.
- · A prevalence of depreciated values, impaired investments and social and economic maladjustment.
- Buildings in which it is unsafe or unhealthy for persons to live or work. Serious building code violations, dilapidation and deterioration, defective design or physical construction, faulty or inadequate utilities, or other similar factors can cause these conditions.
- Factors that prevent or substantially hinder the economically viable use or capacity of lots. This
 condition can be caused by substandard design, inadequate size given the present standards and
 market conditions, lack of parking or other similar factors.
- Adjacent or nearby uses that are incompatible with each other and which prevent the economic development of those parcels or other portions of the project area.
- The existence of subdivided lots of irregular form and shape and inadequate size for proper usefulness and development that are in multiple ownership.
- Depreciated or stagnant property values or impaired investments, including, but not limited to, those
 properties containing hazardous wastes that require the use of agency authority as specified in
 Article 12.5 (commencing with Section 33459).
- Abnormally high business vacancies, abnormally low lease rates, high turnover rates, abandoned buildings, or excessive vacant lots with an area developed for urban use and served by utilities.
- Residential overcrowding or an excess of bars, liquor stores, or other businesses that cater
 exclusively to adults, which had led to problems of public safety and welfare.
- A high crime rate that constitutes a serious threat to the public safety and welfare.
- The existence of inadequate public improvements, parking facilities or utilities.
