

# ADOPTED **BUDGET** 2014-15

# GLENDALE WATER & POWER

# CITY OF GLENDALE

## GLENDALÉ WATER & POWER

### **MISSION STATEMENT**

Glendale Water & Power (GWP) provides customers with reliable and sustainable water and power services that are cost effective and innovative. This vision is accomplished through the prudent use of resources, technology, innovation, teamwork and planning to ensure sufficient supply for today and the future.

### **DEPARTMENT DESCRIPTION**

GWP consists of four divisions:

- Business Strategy, Power Supply and Support Services
- Administration
- Electric Works
- Water Works

The focus of these divisions is to ensure that the City is served well today, and is poised to meet future challenges. The key components in GWP's operation include:

*Electric Services* - Provide safe, reliable and efficient electric service by maintaining and making continuous improvements in the power delivery system.

*Water Supply* - Provide water services that meet or exceed the regulatory water quality requirements while optimizing the local production of water resources and the efficiency of water use.

*Power Supply* - Ensure reliable power supply under severe legislative regulatory controls and restrictions through a portfolio of resources, including a reconfigured Grayson Power Plant.

*Customer Service* - Achieve high customer satisfaction levels by increasing the value of the programs and services GWP offers.

*Rates* - Achieve water and electric rates that are at the median of comparable utilities in Southern California.

*Infrastructure* - Assure high service reliability by continuously improving and maintaining the GWP physical plant, electric and water facilities.

*Work Force* - Hire, develop, and retain a safe, highly skilled, dedicated, and customer-focused work force.

*Utility Modernization* - Develop new and improve existing programs, systems and technologies to reduce GWP's costs, enhance customer service and increase operational effectiveness.

*Legislation & Regulation* - Influence local, state, and federal legislation and regulations to benefit the customers and GWP's efficient operation.

# CITY OF GLENDALE

## **GLENDALE WATER & POWER**

### **RELATIONSHIP TO STRATEGIC GOALS**

#### ***Exceptional Customer Service***

Glendale Water & Power is committed to providing its residents with extraordinary customer services centered on the principles of speed, quality, and customer satisfaction through the efficient delivery of energy and water services to every customer served. This includes ensuring minimal service disruptions to the extent possible, providing competitive and reliable utility rates, and responding to customer inquiries in a prompt and professional manner.

#### ***Economic Vibrancy***

GWP received rate relief for the Electric System with a Council approved five year rate plan that enabled the Electric System to issue \$60 million in Revenue Bonds to fund capital projects and to provide a platform for establishing a pay-as-you-go model for future capital improvements. The Water System is seeking support for a multi-year rate plan that will continue the current financial plan to replenish cash reserves to Council approved levels, complete the bond funded capital improvement plan and to provide a platform for establishing a pay-as-you-go model for future capital improvements. GWP will also complete a reorganization to reflect the new management philosophy and affect the changes necessitated by the current financial challenges.

#### ***Informed & Engaged Community***

GWP has begun to change the way the utility shares information and engages the community regarding important issues. Recent illustrative examples include efforts regarding a proposed electric rate increase: GWP created a focus group and did extensive public outreach involving community presentations, distribution of flyers and notices, and the use of social media.

#### ***Infrastructure & Mobility***

GWP will strive to continue providing reliable electrical service as measured by:

- Minimizing the total number of preventable outages to 25 per year.
- Developing a long term plan to upgrade aged infrastructure that reflects the current financial and organizational challenges the utility faces.
- Providing safe water that meets or exceeds mandated water quality standards.

Notes:

- \* Indicates number of positions corresponding to the stated Full-Time Equivalence (FTE)
- \*\* Effective in FY 2012-13 and FY 2013-14, Utility Support function moved out of GWP to be included in Finance's budget. The service costs will then be allocated out to GWP through the Citywide Cost Allocation Plan. In FY 2014-15, Utility Support function moved out of Finance to be included in the GWP budget.
