**RE: ADMINISTRATIVE EXCEPTION CASE NO. PAE 1423887  
315-317 WEST LEXINGTON DRIVE**  
(Off-site parking for Phoenicia Restaurant 343 North  
Central Avenue)

SEE: Parking Use Permit Case No. PPUP 1419225  
(315-317 West Lexington Drive)

Dear Mr. Kalfayan:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.44.070, the Planning Hearing Officer has processed your application for an Administrative Exception to allow the use of a 48-space parking lot to fulfill the parking requirement for the existing full-service restaurant at 343 N. Central Avenue. The off-site parking lot is non-conforming in regards to landscaping standards in the "R-1250/PS" – High Density Residential/Parking Structure Overlay Zone, at **315 & 317 W. Lexington Drive**, being Lots 19 and 20, Tract No. 253 in the City of Glendale, County of Los Angeles.

ENVIRONMENTAL RECOMMENDATION: Exempt per State CEQA Guidelines, Section 15303, Class 3 "New Construction".

#### **REQUIRED/MANDATED FINDINGS**

After considering the evidence presented with respect to this application, the plans submitted therewith, the Planning Hearing Officer has **GRANTED WITH CONDITIONS**, your application based on the following findings:

- A. The granting of the exception will result in design improvements, or there are space restrictions on the site that preclude full compliance with the Code requirements without hardship.**

The subject site is currently vacant. It consists of two lots totaling approximately 16,647 square feet. The applicant is proposing to improve the site with a new 48

space parking lot (including five tandem spaces) with landscaped areas along the entire street front setback and adjacent to the ingress and egress to the parking lot. Access to the lot will be from the existing alley to the east. Approximately 15 percent of the lot area will be landscaped. However, the landscaping proposed does not meet current interior landscaping or screening requirements. The project will comply with the minimum 20-foot landscaped setback along Lexington Drive.

There is not enough space in the proposed parking area to disperse planters and shade trees throughout the parking lot without compromising the number of parking spaces and vehicular circulation within the parking lot. Meeting the landscaping and screening requirements as required by the Zoning Code would be impractical and would result in exacerbating the parking and traffic challenges that exist in the neighborhood. With the construction of the 48-space parking lot, the restaurant's parking requirements would be met and the neighborhood residents would benefit in that it would provide some relief to the existing on-street parking problems.

**B. The granting of the exception will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or neighborhood in which the property is located.**

The proposed development and operation of surface parking lot at 315-317 West Lexington Drive without providing the required five percent interior landscaping and screening will not constitute a nuisance to persons in the neighborhood or be detrimental to the public welfare. The site is zoned with a parking structure overlay, which permits parking lots. Similar zoned parcels and uses exist throughout the neighborhood, particularly west of Central Avenue between Broadway and the 134 Freeway with similar non-conforming landscaping conditions. None these lots have proven to be materially detrimental to the public or injurious to the area. Further, the parking lot will be for the exclusively use of Phoenicia Restaurant patrons.

Presently, the subject site is vacant. The applicant is proposing to improve the property by providing new paving, introducing 48 striped parking spaces (including five tandem spaces) with landscaping along the entire street front setback. Access to the site is adequate to accommodate the off-site parking. The new off-site parking lot is located across the street, northwest of the restaurant. No excess traffic will be generated as a result of the parking lot since it will support the existing restaurant use and no expansion of the restaurant is proposed. Access, including ingress and egress to and from the parking lot will be from the adjacent alley located to the east. Traffic Engineering Section staff reviewed the proposed project and did not cite any issues or concern.

**C. The granting of the exception will not be contrary to the objectives of the applicable regulations.**

The purpose of the administrative exception procedure is to provide a simplified means for considering applications for minor deviations from the code standards, such as the landscaping standards for the proposed parking lot at 315-317 West Lexington Drive. The code requires a total of five percent of the interior of parking lots to be landscaped. As proposed, the amount of landscaping exceeds five percent; however, is only located along the street front property line and at the access points along the alley. Since the amount of landscaped exceeds what is required by code, is not contrary to the objectives of the zoning regulations that parking lots be landscaped.

**CONDITIONS OF APPROVAL**
