**RE: 900 NORTH CENTRAL AVENUE
ADMINISTRATIVE USE PERMIT CASE NO. PAUP 1403542
(Casbah Restaurant)**

Dear Mr. Khodayeki:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.49, the Community Development Department has processed your application for an administrative use permit to allow the sales, service, and on-site consumption of alcoholic beverages at a full-service restaurant in the "DSP/GAT" – Downtown Specific Plan – Gateway District, located at **900 North Central Avenue**, described as Portions of Lots 14, 15 and 16, Glendale Mountain View Tract, in the City of Glendale, County of Los Angeles.

CODE REQUIRES

(1) The sales, service and on-site consumption of alcoholic beverages requires an Administrative Use Permit in the DSP/GAT – Downtown Specific Plan/ Gateway District Zone.

APPLICANT'S PROPOSAL

(1) To allow the on-site sales, service, and consumption of all types of alcoholic beverages (Type 47) at a full-service restaurant.

ENVIRONMENTAL RECOMMENDATION

The project is exempt from CEQA review as a Class 1 "Existing Facilities" exemption, pursuant to State CEQA Guidelines Section 15301.

After thorough consideration of the statements contained in the application, the plans submitted therewith, the above analysis by Community Development Department staff, and any comments received from the public with respect to this application, this Administrative Use Permit application is **APPROVED WITH CONDITIONS** based on the following:

REQUIRED/MANDATED FINDINGS

A. That the proposed use will be consistent with the various elements and objectives of the general plan.

The subject site is located within the Downtown Specific Plan – Gateway District (DSP/GAT) Zone. The focus of this area is the continued promotion and location of corporate headquarters, offices, new hotels, mixed-use and residential buildings, complementary/accessory service and retail businesses at the street level, as well as entertainment uses. The service of alcoholic beverages at this location is appropriate in an area of the city zoned for commercial uses where restaurant uses are desired. Serving alcoholic beverages in conjunction with bona fide food service is a common ancillary use for restaurants and will further assist in making downtown Glendale a dynamic destination.

The sales, service and consumption of alcoholic beverages at the full service restaurant will be consistent with the elements and objectives of the General Plan. The land use designation of the site is Downtown Specific Plan (DSP). One of the purposes of this designation is to encourage the location of a wide range of activities to maintain a dynamic environment. The full-service restaurant will help to promote an exciting and lively atmosphere along with other entertainment/restaurant uses and a wide variety of retail uses that creates and enhances the environment desired in the DSP. The project site is already developed and the applicant's request is only for the on-site sales, service and consumption of alcoholic beverages at the existing restaurant site; other elements of the General Plan, including the Open Space, Recreation, Housing and Noise Elements, will not be impacted as a result of the applicant's request. The restaurant is surrounded by other complementary businesses, including retail and service type uses. Residential neighborhoods are located nearby, but do not adjoin the project site.

The Circulation Element identifies North Central Avenue as a major arterial and Arden Street as an urban collector. Both streets are fully developed and adequately handle the existing traffic circulation around the site. The site is surrounded by commercially zoned properties and the applicant's request to serve alcoholic beverages with meals is not anticipated to create any negative traffic-related impacts on these streets and other businesses over and above the existing conditions.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The on-site sales, service and consumption of alcoholic beverages at the full-service restaurant will not be detrimental to the safety and public welfare of the neighborhood in general. According to the Glendale Police Department the subject

property is located in Census Tract 3018.01, where three is the recommended limit for on-sale establishments. Currently there are 12 on-sale liquor licenses located in this tract and the applicant's request will add to the existing number of on-sale licenses. The project site is located in downtown Glendale, where a concentration of restaurants is encouraged. Restaurant uses frequently serve alcoholic beverages as part of their food service. This ancillary service is not typically associated with public drunkenness or other alcohol-related crimes.

Based on Part 1 crime statistics for this Census Tract, there were 97 crimes, 83% above the citywide average of 53. While this area has more crime than in many other areas of the city, it has a high concentration of entertainment and retail uses, which may partially explain the higher crime rate, in contrast to low density residential areas that typify Glendale. Within the last calendar year there were two calls for police service at this location related to patrons refusing to leave; neither of these two instances resulted in a report being taken and occurred while under the previous restaurant owner.

C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

It is not anticipated that the on-site sales, service and consumption of alcoholic beverages at the existing restaurant site, proposed as "Casbah", will be detrimental to the community or adversely conflict the community's normal development. The restaurant site is a stand alone building located at the northern portion of downtown Glendale. A total of 76 parking spaces are provided on-site and in the adjacent parking lot. The surrounding area is developed with a concentration of high rise, high intensity regional office uses. The consumption of alcoholic beverages at the full-service restaurant will not conflict with the adjacent and surrounding land uses; this type of use is encouraged in the downtown area. Further, the project will not impede the normal development within the surrounding area, since it is already fully developed and adequate utilities, landscaping, and traffic circulation are already provided for.

There are three public facilities within the immediate area of the subject site: Church of the Incarnation at 1001 North Brand Boulevard (0.1 miles to the north), Incarnation Preschool and Kindergarten located at 214 West Fairview Avenue (0.1 miles to the north) and Church for the Nations located at 1015 North Central Avenue (0.1 miles to the north). It is important to note that the Verdugo Wash and West Glenoaks Boulevard, a Major Arterial, serve as a buffer between the subject site and these facilities. While these facilities and uses are within close proximity, the applicant's request will not impede the operation of such uses since they are not directly adjacent to the restaurant.

D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.

The applicant's request to serve alcoholic beverages at the restaurant will not result in inadequate public or private facilities. The project site is already developed and associated facilities are existing. There has been a full-service restaurant operating at this location since the site was developed in 1975 without any major incident. As noted above, North Central Avenue and Arden Street as identified in the city's Circulation Element are fully developed and can adequately handle the existing traffic circulation adjacent to the site.

REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION:

That all the criteria set forth in Section 30.49.030 to be considered in making the findings in subsection A. through D. above have all been met and thoroughly considered:

- 1) No overconcentration of on-site or off-site use of alcoholic beverage sales exists. The sale of alcoholic beverages is incidental to food service at the existing restaurant site does not, or will not, tend to encourage or intensify crime within this reporting district as noted in Finding B. above.
- 2) Such use will not tend to encourage or intensify crime within the district. As noted above in Finding B. no evidence has been presented that would indicate that the on-site sales, service and consumption of alcoholic beverages at the subject site would encourage or intensify crime within the district.
- 3) Such use will not adversely impact any other uses within the surrounding area (church, public or private school or college, day care facility, public park, library, hospital or residential use). As noted in Finding C. above, there are three public facilities within the immediate area of the subject site. While these facilities and uses are within close proximity, the applicant's request will not impede the operation of such uses since they are not directly adjacent to the restaurant.
- 4) The proposed use satisfies its transportation or parking needs as described above because adequate access, parking and delivery spaces are available to serve this use. As noted in Findings C. and D. above the applicant's request is not anticipated to increase the need for public or private facilities. The ancillary service of alcoholic beverages at the "Casbah" restaurant is not anticipated to intensify traffic circulation or parking demand. The site is fully developed and adequate parking and loading facilities are currently provided.
- 5) The proposed use will serve a public necessity or public convenience purpose for the area as evidenced by the demand for restaurants with alcoholic beverages in the Downtown Specific Plan. The applicant's request for the on-site sales,

service and consumption of alcoholic beverages at a full-service restaurant does serve a public convenience because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.
