**RE: 302 NORTH CENTRAL AVENUE  
ADMINISTRATIVE USE PERMIT NO. PAUP 1503179**

Dear Mr. Soni:

On May 18, 2015, pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30, the Interim Director of Community Development **APPROVED** your application for an administrative use permit to allow the sales, service, and on-site consumption of alcoholic beverages at a proposed full service restaurant in the "DSP/OC" - Downtown Specific Plan/Orange Central District Zone, located at **302 North Central Avenue**, described as a portion of Lot 12, Glendalia Park Tract, in the City of Glendale, County of Los Angeles.

CODE REQUIRES

(1) The sales, service and on-site consumption of alcoholic beverages requires an Administrative Use Permit in the DSP/OC – Downtown Specific Plan/Orange Central District.

APPLICANT'S PROPOSAL

(1) To allow the on-site sales, service, and consumption of alcoholic beverages at a full service restaurant.

ENVIRONMENTAL RECOMMENDATION

The project is exempt from CEQA review as a Class 1 "Existing Facilities" exemption, pursuant to State CEQA Guidelines Section 15301.

**REQUIRED/MANDATED FINDINGS**

After thorough consideration of the statements contained in the application, the plans submitted therewith, the above analysis by Community Development Department staff, and any comments received from the public with respect to this application, this Administrative Use Permit application is **APPROVED** based on the following:

**A. That the proposed use will be consistent with the various elements and objectives of the general plan.**

The sales, service and consumption of alcoholic beverages at the restaurant will be consistent with the elements and objectives of the General Plan. The land use designation of the subject site is Downtown Specific Plan (DSP)-Orange Central District, which encourages wide-ranging activities to maintain a dynamic environment. This District includes mostly low density retail. Currently; however, several large mixed use (commercial and residential) developments are under construction or have recently opened. The proposed restaurant helps facilitate an exciting, lively area, as desired by the DSP. Serving alcoholic beverages in conjunction with bona fide food service is a common ancillary use for restaurants and will further assist in making downtown Glendale a dynamic destination. Since the administrative use permit application only requests the sales, service and consumption of alcoholic beverages at a restaurant, other elements of the General Plan, including the Open Space, Recreation, Housing and Noise Elements, will not be impacted as a result of the project.

**B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.**

The proposed on-site consumption of alcoholic beverages at the restaurant will not be detrimental to the safety and public welfare of the neighborhood in general. While the area contains more on-sale establishments than is suggested for the census tract, the project's downtown Glendale location encourages a concentration of restaurants. Customarily, restaurants serve alcoholic beverages as part of their food service and this request is a reasonable extension of the primary use. The Glendale Police Department and Neighborhood Services Division did not cite concerns related to this administrative use permit application.

The restaurant will be located within a new mixed use building in downtown Glendale. There are no known churches, private or public schools or colleges, day care facilities or hospitals near the proposed restaurant. It is not anticipated that alcohol service at the future restaurant will be detrimental to the Chess Park, a nearby public open space given the relative distance it is from this amenity and the fact that similar uses are located near it.

The future restaurant is located in census tract 3018.02, which recommends three on-sale establishments. The Glendale Police Department reports that there are currently 17 on-sale establishments in this tract. While there are significantly more on-sale establishments in this area than is suggested, downtown Glendale is targeted to have a concentration of entertainment and dining destinations.

Based on Part 1 crime statistics for this census tract, there were 173 crimes, the city wide average. The Glendale Police Department did not cite concerns regarding this proposal.

**C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.**

The proposed on-site consumption of alcoholic beverages at the restaurant will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property. Downtown Glendale is a retail, entertainment and dining destination. The consumption of alcoholic beverages at the restaurant does not conflict with the adjacent and surrounding land uses. The project will not impede normal development within the surrounding area, since it is already fully developed and should not impede in any redevelopment, given the proposed administrative use permit only request alcohol service at a restaurant.

Chess Park is located east of the subject site. Given the commercial nature of the area, the number of existing restaurants in this area and the fact that the administrative use permit only requests to allow alcohol service at an existing restaurant, the request for on-site alcohol service should not adversely impact this park.

The recommended conditions will ensure that the restaurant with alcohol service will not conflict with any nearby uses. Section 30.64.020 of the Glendale Municipal Code provides for continuing jurisdiction over the use so that any adverse effects will not be allowed. The incidental serving of alcoholic beverages is not anticipated to cause any conflicts with surrounding development in the future.

**D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.**

The applicant's request to serve alcoholic beverages at the proposed restaurant will not result in inadequate public or private facilities. The project site is under construction with a mixed use building and associated facilities are existing. The serving of alcohol at an existing restaurant should not result in a significant increase in utility use. Major streets in the area including Brand Boulevard, Broadway, Central Avenue and California Street can adequately handle the existing traffic circulation adjacent to the site.

**REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION:**

**That all the criteria set forth in Section 30 to be considered in making the findings in subsection a. through d. above have all been met and thoroughly considered:**

- 1) That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or that where an existing or proposed off-site use is located in a census tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control, such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over concentration based on the comments submitted by the City of Glendale Police Department and as noted in Finding B.
- 2) That where the existing use is located in a crime reporting district with a crime rate which exceeds 20% of the city average for Part 1 crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district. The proposed restaurant is not located in a district which exceeds 20% of the city average for Part 1 crimes as documented in Finding B.
- 3) That the existing or proposed use does not or will not adversely impact any church, public or private school or college, day care facility, public park, library, hospital or residential use within the surrounding area as documented in Finding C.
- 4) That adequate parking and loading facilities are or will be provided for the existing use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use as documented in Findings C and D.
- 5) That, notwithstanding consideration of the criteria in subsections 1 through 4 above, alcoholic beverage sales, service and on-site consumption serves a public convenience for the area. The applicant's request for the on-site sales, service and consumption of alcoholic beverages at a full service restaurant serves a public convenience because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.
