APPLICANT'S PROPOSAL

- 1) Allow a new Private Specialized Education/Training School (Acting School) in an existing office building on a secondary frontage street (Brand Boulevard).

ENVIRONMENTAL DETERMINATION

The project is exempt from environmental review per State CEQA Guidelines Section 15301, Class 1 "Existing Facilities".

REQUIRED/MANDATED FINDINGS

After thorough consideration of the statements contained in the application, the plans submitted therewith, the report by the Community Development Department staff thereon, and the statements made at the public hearing with respect to this application, the Planning Hearing Officer has **GRANTED WITH CONDITIONS** your application based on the following:

A. That the proposed use will be consistent with the various elements and objectives of the general plan.

The applicant is proposing to locate an acting school (HPC) at the Hollywood Production Center campus located at 411 North Brand Boulevard. The school will include a classroom along with a production studio with live audiences and associated facilities, including audio, control, engineering and wardrobe rooms. The production studio (without a live audience) recently received a business registration certificate and will be incorporated into the proposed acting school, with live audiences. The acting school is considered a private specialized education/training school in the city's zoning code. The subject site is located within the Downtown Specific Plan (DSP)-Gateway District. In the DSP, Brand Boulevard adjacent to the subject site is considered a secondary frontage street. Private specialized education/training schools require approval of a conditional use permit on secondary frontage streets in this zone.

The DSP-Gateway District is comprised of a mix of commercial establishments, including retail, service, office, restaurant and entertainment uses. One of the goals of the DSP is to attract a wide range of activities to maintain a dynamic environment. The focus of the Gateway District, in particular, is the continued promotion and location of corporate headquarters, new hotels, mixed-use and residential buildings, complementary/accessory services and retail businesses at the street level. The proposed acting school is consistent with the DSP – Gateway District in that this facility will bring another type of use to the immediate area and operate from 8:00 am until 8:00 pm., seven days a week, re-enforcing the above stated DSP goal. Further, this use will complement the many related entertainment offices currently located in the HPC. The HPC acting school will activate the visible ground floor area along Brand Boulevard by introducing people and movement, which will enhance the pedestrian quality of the street.

The Circulation Element identifies Brand Boulevard adjacent to the site as a major arterial street and Lexington Drive, Orange Street and Milford Street adjacent to the site as urban collector streets. These streets have the capacity to accommodate the incremental increase in traffic generated from the proposed

use. Other General Plan Elements, including the Noise, Housing, Recreation, Safety and Open Space and Conservation Elements should not be impacted as a result of the proposed project.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The Hollywood Production Center is located on the northwest corner of Brand Boulevard and Lexington Drive. The tenant space in which the acting school is proposed is located mid-block on Brand Boulevard. The proposed use will complement the entertainment production uses within the Center. Aside from tenant improvements to the interior of the tenant space, neither the existing building nor site will be altered as a result of the proposed project. The operation of the acting school (8:00 am. – 8:00 pm. seven days a week) would not infringe upon or negatively impact the general welfare or environment.

C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

The proposed acting school is complementary to the entertainment production offices in the HPC campus. There are no churches, public or private schools, day care facilities, public parks, libraries, hospitals or residential uses within the surrounding area. Regardless, the proposed use, given it will take place within an enclosed building, should not conflict with adjacent uses. The surrounding area is already developed and; therefore, the acting school would not impede the normal development of surrounding properties. The proposal is not anticipated to cause any negative impacts with any future redevelopment of the area, given the Gateway District is targeted for a wide range of uses. Section 30.64.020 of the Glendale Municipal Code provides for continuing jurisdiction over the use to ensure no adverse impacts will result.

D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.

The site is fully developed. With the exception of tenant improvements, no changes to the site or HPC campus are proposed. In conjunction with the conditional use permit application, the applicant was granted a parking use permit (Case No. PPUP1510037) to provide the required parking spaces off-site in a parking structure across the alley and to the west of the site. Therefore, adequate parking will be provided for patrons, students and employees. The surrounding street network consists of a major arterial street (Brand Boulevard) and urban collector streets (Lexington Drive, Orange Street and Milford Street) and has excess capacity to accommodate the incremental

increase in traffic generated from the proposed uses. Associated utilities exist and neither the Public Works Department nor Glendale Water and Power cited concerns related to this proposed project.
