**RE: 238 SOUTH BRAND BOULEVARD  
ADMINISTRATIVE EXCEPTION CASE NO. PAE 1524969**

(SEE: PPPEX 1520674 - DIRECTOR OF COMMUNITY DEVELOPMENT REVIEW)  
(MASONIC TEMPLE)

Dear Mr. Krenzien:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.44.070, the Planning Hearing Officer has processed your application for an Administrative Exception to allow a 20% deviation from parking dimension standards for certain parking spaces as required by Chapter 30.32.180 Chart III of the Glendale Municipal Code. The proposed project is located at **238 South Brand Boulevard**, being a portion of Lot 12 and Lots 13 -17, Tract No. 2461 in the City of Glendale, County of Los Angeles.

**ENVIRONMENTAL RECOMMENDATION**

The project is exempt from CEQA review as a Class 3 "New Conversion of Construction of Small Structures" exemption pursuant to Section 15303 of the State CEQA Guidelines.

**REQUIRED/MANDATED FINDINGS**

After considering the evidence presented with respect to this application, the plans submitted therewith, the Planning Hearing Officer has **GRANTED WITH CONDITIONS**, your application based on the following findings:

**A. The granting of the exception will result in design improvements, or there are space restrictions on the site that preclude full compliance with the Code requirements without hardship.**

The applicant recently received approval to construct a one-story 9,737 square-foot commercial building on a 17,930 square-foot site located on the northeast corner of Brand Boulevard and Colorado Street. The four western-most parking spaces are the standard size of 8 feet wide and 18 feet deep. However, the five eastern-most parking spaces are 8 feet wide but 32 feet deep. The applicant is proposing to create 16-foot deep tandem spaces within the eastern parking spaces. Provisions in the City's Zoning Code allow maximum 20% deviations from numeric development standards with approval of an administrative exception. The proposed 16-foot deep parking stalls are a deviation of approximately 11% from the minimum 18-foot depth required under the City's Zoning Code and, therefore, the applicant is requesting approval of an administrative exception.

There are space restrictions on the site that preclude the applicant from providing full-depth tandem parking spaces. The subject site is 126.5 feet wide. At the eastern portion of the property, this includes a 5-foot wide landscape buffer, an 18-foot deep standard parking space, a 24-foot wide drive aisle and mechanical equipment rooms. The remainder of the space currently includes 32-foot deep parking stalls. The four feet of additional depth needed to make the tandem stalls conforming cannot be provided without reducing the width of the landscape buffer, western parking spaces and driveway aisle (all at the minimum width). The mechanical equipment rooms, including transformer enclosures, emergency generator enclosure, trash enclosure and grease interceptor (and the necessary access areas around these enclosures), also cannot be reduced in size.

**B. The granting of the exception will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or neighborhood in which the property is located.**

The granting of the exception to allow a reduced length for parking spaces located at 238 South Brand Boulevard will not be materially detrimental to the public welfare or injurious to the property and improvements in the area. Providing valet services will be a condition of approval for this project. Valets working at the site can most effectively park cars in spaces of reduced length and retrieve cars blocked in tandem parking situations. Further, the tandem parking arrangement would slightly increase the number of parking spaces in the surrounding area, which would be a public benefit as it will incrementally reduce demand for on-street parking in the surrounding area.

**C. The granting of the exception will not be contrary to the objectives of the applicable regulations.**

The purpose of the administrative exception procedure is to provide a simplified means for considering applications for minor deviations from the code standards. These standards were developed to allow reasonable use of properties in order to promote the public health, safety and general welfare. Granting an administrative exception to allow 16-foot deep tandem parking spaces instead of 18 feet spaces will allow reasonable development of the site that meets other zoning regulations. Providing valet services, as conditioned with this approval, will assist in ensuring that the proposed tandem spaces are usable, an objective of the parking standards contained in the Zoning Code. Further, the slightly reduced dimensions will allow additional on-site parking, which will incrementally reduce demand for on-street public parking in the surrounding area.

**CONDITIONS OF APPROVAL**

**APPROVAL** of this Administrative Exception shall be subject to the following conditions:

- 1) That the development shall be in substantial accord with the plans presented in conjunction with the application for the Administrative Exception, except any modifications as may be required to meet specific Code standards or other conditions stipulated herein to the satisfaction of the Planning Hearing Officer.
- 2) That all necessary permits shall be obtained from the Building and Safety Section and all construction shall be in compliance with the Glendale Building Code and all other applicable regulations.
- 3) That separate permits are required for all work in the public right-of-way. The applicant shall bear all fees for the necessary permits and construction inspections for work within the public right-of-way.
- 4) That the applicant shall provide valet services for the development at 238 South Brand Boulevard. A valet parking plan shall be submitted to the Public Works Department for their review and approval.
- 5) That if any buildings, sidewalks, curb or gutter, fencing or landscape areas, etc., adjacent to the site are damaged during the course of construction on public or private property, the damage shall be repaired to the satisfaction of the Planning Hearing Officer for private property and the Director of Public Works for public property.

**APPEAL PERIOD, TIME LIMITS, LAPSE OF PRIVILEGES, TIME EXTENSIONS**
