**RE: 1840 CALAFIA STREET
ADMINISTRATIVE EXCEPTION CASE NO. PAE1603077**

Dear Mr. and Mrs. Hua

Pursuant to the provisions of the Glendale Municipal Code, Chapter 30.44.020 (E) for a maximum twenty 20 percent deviation from one or more numeric standards in this Title, the Community Development Department has processed your application for an Administrative Exception to allow an existing 4-foot, 8-inch interior setback to be maintained where a minimum 5-foot interior setback is required (approximately 7% percent deviation) by Chapter 30.32 of the Glendale Municipal Code in conjunction with a new 1,249 second-story addition (height to be increased from 18-feet, 3-inches to 26-feet, 7-inches), and a 205 square foot first-floor addition to an existing 1,848 single story house. The subject property is located at **1840 Calafia Street**, in the "R1R" – (Restricted Residential) Zone, Floor Area Ratio District II and described as PM 25-39 SW 60 FT of NW 140 FT of Lot A, in the City of Glendale, County of Los Angeles.

ENVIRONMENTAL RECOMMENDATION

This project is exempt from environmental review as a Class 1 "Existing Facility" exemption per Section 15301 of the State CEQA Guidelines.

REQUIRED/MANDATED FINDINGS

After considering the evidence presented with respect to this application, the plans submitted therewith, the Planning Hearing Officer has **GRANTED WITH CONDITIONS** your application based on the following findings:

A. The granting of the exception will result in design improvements, or there are space restrictions on the site that preclude full compliance with the Code requirements without hardship.

The subject property is an 8,400 square foot lot developed in 1955 with an existing 1,351 square foot, one-story single family residence and a detached 400 square foot garage. The house was constructed with a 15-foot street front setback and 4-foot, 8-inch interior setback on the west side of the property. The house consists of three bedrooms, two bathrooms, living room, dining room and kitchen. The interior space of the first floor will be reconfigured to provide an "open" floor plan, a new stairway, and 205 square feet added to the rear. Three bedrooms and two bathrooms will be located on the new second floor. The proposed addition will functionally enhance the interior living space. The majority of exterior building walls are proposed to remain, keeping the architectural integrity of the residence. The

symmetry of the front facing projection on the west side of the house will be maintained.. This will provide consistency with other similar homes in the neighborhood. The addition will match the existing exterior architectural style and materials. Additionally, the large tree canopy in the rear yard will not be disrupted.

B. The granting of the exception will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or neighborhood in which the property is located.

The purpose of the addition is to make the house more functional by providing an "open" floor plan on the first floor and moving the bedrooms upstairs. The new second story is toward the middle of the house away from adjacent neighbors. The existing garage will continue to provide two enclosed parking spaces for the sole purpose of parking vehicles. As such, the project will not be detrimental to the public welfare, injurious to the property, or improvements in the zone. The addition will maintain the existing architectural style of the house, and provide for adequate open space, light, and ventilation for the subject residence as well as adjacent residences.

C. The granting of the exception will not be contrary to the objectives of the applicable regulations.

The proposed addition meets all other Zoning Code requirements of the R1R Zone, such as lot coverage, floor area ratio, and landscaping. The purpose of the administrative exception procedure is to provide a simplified means for considering applications for minor deviations from Code standards. These standards have been developed to allow reasonable use of properties in order to promote the public health, safety, and general welfare. Keeping the existing first story building footprint with the addition of a new second story addition will allow reasonable development of the site and that will continue to serve the single family residence. Therefore, granting the minor exception for a seven percent reduction of the minimum interior setback will not be contrary to the objectives of the applicable regulations.

CONDITIONS OF APPROVAL

APPROVAL of this Administrative Exception shall be subject to the following conditions:

1. That the development shall be in substantial accord with the plans submitted with the application except for any modifications as may be required to meet specific Code standards or other conditions stipulated herein to the satisfaction of the Hearing Officer.
