**RE: 1134-1136 NORTH PACIFIC AVENUE
ADMINISTRATIVE USE PERMIT CASE NO. PAUP 1605464
(Capri Lounge)**

Dear Ms. Williams:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.49, the Director of Community Development **APPROVED WITH CONDITIONS** your application for an Administrative Use Permit to allow the continued on-site sales, service, and consumption of alcoholic beverages at an existing tavern (Capri Lounge) located at **1134-1136 North Pacific Avenue**, in the "C1" – Neighborhood Commercial Zone, described as Portion of Lot 34, Tract No. 726, in the City of Glendale, County of Los Angeles.

CODE REQUIRES

(1) The on-site sales, service, and consumption of alcoholic beverages require an Administrative Use Permit in the "C1" – Neighborhood Commercial Zone.

APPLICANT'S PROPOSAL

(1) Application for an Administrative Use Permit (AUP) to allow the continued on-site sales, service, and consumption of alcoholic beverages at an existing tavern (Capri Lounge).

ENVIRONMENTAL DETERMINATION

The project is exempt from CEQA review as a Class 1 "Existing Facilities" exemption, pursuant to State CEQA Guidelines Section 15301.

REQUIRED/MANDATED FINDINGS

After thorough consideration of the statements contained in the application, the plans submitted therewith, the above analysis by Community Development Department staff, and any comments received from the public with respect to this application, this Administrative Use Permit application is **APPROVED WITH CONDITIONS**, based on the following:

A. That the proposed use will be consistent with the various elements and objectives of the General Plan.

The subject site is located in the C1 (Neighborhood Commercial) Zone and the General Plan Land Use Element designation is Neighborhood Commercial. The Circulation Element designates North Pacific Avenue as a Minor Arterial. This street is a fully improved street serving a multitude of businesses and residential developments. The existing tavern is located in a commercial building alongside other commercial/service type businesses. The sale of alcoholic beverages for on-site consumption at this location is appropriate in an area of the city zoned for both residential and commercial uses and will continue to provide an option for the community to purchase alcoholic beverages for on-site consumption.

The on-site sales, service, and consumption of alcoholic beverages in the C1 (Neighborhood Commercial) zone is subject to approval of an Administrative Use Permit. However, the existing tavern is a permitted use in this zone subject to approval of a Conditional Use Permit. The continued on-site sales, service and consumption of alcoholic beverages at an existing tavern is consistent with the various elements of General Plan for the area. The project site is already developed and the applicant's request is only to continue the on-site sales, service, and consumption of alcoholic beverages at the existing tavern. This application does not include any added floor area or modifications to the existing building; therefore, there will be no increase in the requirement for parking.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The on-site sales, service, and consumption of alcoholic beverages at an existing tavern will not be detrimental to the health, safety and public welfare of the neighborhood in general. According to the Glendale Police Department, the subject property is located in Census Tract 3012.04 where the suggested limit for on-sale alcohol establishments is four. Currently, there are eight on-sale establishments located in this tract and Capri Lounge is one of the existing eight licenses. Based on Part 1 crime statistics for this Census Tract 3012.04 in 2015, there were 85 crimes, which is below the citywide average of 178 in 2015. Within the last calendar year, there were 38 calls for police service at the location; however, none of the calls were related to the sales and consumption of alcoholic beverages, public drunkenness, or other alcohol-related crimes. Most of the calls were regarding loud noise coming from the location. Conditions have been added to minimize potential noise impacts from the subject facility upon neighboring residential uses

C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

The existing tavern is located within a commercial district and surrounded by complementary uses. It is not anticipated that the on-site sales, service, and consumption of alcoholic beverages at the existing facility will be detrimental to the

community or adversely conflict with the community's normal development. Since 1963, the existing tavern has operated without any major reported incident. Their request to allow the on-site sales, service, and consumption of alcoholic beverages has not proven to adversely conflict with surrounding properties.

The subject property is surrounded by other businesses, including retail and service uses with multi-family residential neighborhoods surrounding the commercial uses adjacent to the eastern portion and at the western portion of the property across Pacific Avenue. The on-site sales of alcoholic beverages at the existing tavern will not conflict with the adjacent land uses. Two rear service doors, adjacent to commercial uses will not be used for patron access as conditioned in this AUP approval.

D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.

The applicant's request to allow the sale of alcoholic beverages for on-site consumption at an existing tavern will not result in inadequate public or private facilities. The project site is located in a one-story commercial building. The building was built in 1958 in compliance with the zoning code that was in place during that time. The property is fully improved with all necessary utilities. Pacific Avenue identified in the Circulation Element is a fully improved Minor Arterial and can serve a multitude of businesses and residential developments. It can adequately handle the existing traffic circulation adjacent to the site. The on-site sales, service, and consumption of alcoholic beverages at an existing tavern is not anticipated to generate additional traffic. The property is legal nonconforming in terms of use, parking, and landscape. The tavern has been operating at this location since 1963. Currently, there is no on-site parking designated for the subject facility. The existing off-site parking has proven to meet the parking needs of the existing tavern and has not resulted in conflicts with nearby businesses or residential developments. In addition, no expansion of the existing facility is proposed, therefore no additional parking is required.

REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION

That all the criteria set forth in Section 30.49.030 (E) to be considered in making the findings in subsection A. through D. above have all been met and thoroughly considered:

1. That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or that where an existing or proposed off-site use is located in a census tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control, such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over-concentration based on the comments submitted by the City of Glendale Police Department.

The on-site sales, service, and consumption of alcoholic beverages at the existing tavern does not, or will not, tend to encourage or intensify crime within this reporting district as noted in Finding B above.

2. That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part 1 crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district. The crime rating within Census Tract 3012.04 does not exceed 20% of citywide average and in fact, is about 50% of this average.
3. That the existing or proposed use does not or will not adversely impact any other uses within the surrounding area (church, public or private school or college, day care facility, public park, library, hospital or residential use). There are a temple, four schools, and three churches within the immediate area of the subject site. While these facilities and uses are within close proximity, the on-site sales, service, and consumption of alcoholic beverages at the existing tavern has not proven to impact surrounding or abovementioned uses since 1963. The existing tavern has served the local clientele for almost 53 years (with various CUPs for the on-site sales, service, and consumption of alcoholic beverages) without adversely affecting or conflicting with adjacent uses.
4. That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use. As noted in Findings C and D above, the applicant's request is not anticipated to increase the need for public or private facilities. The on-site sales, service, and consumption of alcoholic beverages at the existing tavern is not anticipated to intensify traffic circulation or parking demand. No changes to the operation of the tavern suggest that an increase of parking is needed. The site is fully developed and the existing use satisfies its transportation or parking needs through off-site parking and delivery spaces.
5. That, notwithstanding consideration of the criteria in subsections 1 through 4 above, alcoholic beverage sales, service and on-site consumption does serve a public convenience for the area. The applicant's request to allow the on-site sales, service and consumption of alcoholic beverages at an existing tavern does serve a public convenience because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses
