COMMENTS FROM OTHER CITY DEPARTMENTS: No major concerns were received from the various city divisions/departments for the full-service restaurant to continue the sale of alcoholic beverages for on-site consumption.

PROJECT ANALYSIS

The applicant is requesting approval of an Administrative Use Permit (AUP) to allow the continued on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant. The subject facility has been operating as a restaurant at this location since 1962. "El Sol Restaurant" has been operating in this location since 1982. The first Conditional Use Permit (CUP) was granted with conditions to allow the on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant in 2003. The CUP was renewed in 2009 and expired this year (2016).

The subject site is located within the C1 (Neighborhood Commercial) Zone. In comparison to other commercial zones in the city, the C1 zone is intended to offer limited services and goods for the surrounding residential neighborhoods. This zone has a limited list of permitted land uses, which are more restrictive than the uses in the C2 (Community Commercial) and C3 (Commercial Service) zones. The sale of alcoholic beverages for on-site consumption at this location is appropriate in an area of the city zoned for Neighborhood Commercial uses and the use will continue to provide an option for the community to purchase alcoholic beverages for on-site consumption with their meals in this restaurant.

The continued on-site sales, service, and consumption of alcoholic beverages at the existing

full-service restaurant will be consistent with the elements and objectives of the General Plan. The General Plan Land Use designation of the site is "Commercial-Neighborhood". These areas are generally located along the city's minor arterials, like Honolulu Avenue. Other elements of the General Plan, including Open Space, Recreation, Housing, and Noise Elements, will not be impacted as a result of the applicant's request. The project site is already developed and the applicant's request is only to continue the sale of alcoholic beverages for on-site consumption at the existing full-service restaurant. The subject use is surrounded by commercial uses including retail and service type uses on the east and west side of the subject tenant and across Honolulu Avenue. Residential uses (single-family) are located on the north side of the commercially-zoned area across an alley. No residential uses are immediately abutting the subject site. Currently, there are 99 parking spaces for the seven tenants in the building. This application does not include additions or modifications to the existing tenant space or the building; therefore, there will be no increase in the requirement for parking. The applicant's request to allow the continued on-site sales, service, and consumption of alcoholic beverages at an existing full-service restaurant is not anticipated to create any negative traffic-related impacts on Honolulu Avenue.

The on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant will not be detrimental to the safety and public welfare of the neighborhood. According to the Glendale Police Department, the subject property is located in Census Tract 3006 which allows for seven (7) On-Sale establishments. There are currently 31 On-Sale licenses in this tract. El Sol Mexican Restaurant is one of the existing 31. Based on arrests and Part 1 crime statistics for Census Tract 3006 in 2015, there were 215 crimes-above the city wide average of 178. Within the last calendar year, there were no calls for police service at the location. The Glendale Police Department did not cite any major concerns related to the continued on-site sales, service and consumption of alcoholic beverages at the existing restaurant.

The approval of the AUP to continue the on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant is not anticipated to be detrimental to the community or adversely conflict with the community's normal development or conflict with the adjacent land uses. There is a preschool and a church within the immediate area of the subject site. "Robbin's Nest Preschool" is located on Honolulu Avenue across the street from the subject property and "Church of the Living Hope" is located approximately 0.2 miles away along Honolulu Avenue from the subject site. The existing full-service restaurant has served the local clientele for almost 34 years. The restaurant had served alcoholic beverages with meals for almost 13 years and the on-site sales, service, and consumption of alcoholic beverages have not proven to impact surrounding or abovementioned uses. Therefore, it is not anticipated that the approval of the AUP to allow the continued on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant will negatively impact residential uses (located on the north side of the subject site, across an alley) or these public facilities or impede their existing operations.

Overall, the application to allow on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant is supportable based on the facts surrounding this application and the findings.

DRAFT FINDINGS

A. That the proposed use will be consistent with the various elements and objectives of the general plan.

The subject site is located in the C1 (Neighborhood Commercial) Zone and the General Plan Land Use Element designation is Neighborhood Commercial. The Circulation Element designates Honolulu Avenue as a Minor Arterial street. This street is fully improved serving a multitude of businesses and residential developments. It can adequately handle the existing traffic circulation around the site. The existing full-service restaurant is located in a commercial building alongside other commercial/service type businesses. The project site is surrounded by commercially zoned properties and residential uses to the north of the subject property across an alley. The applicant's request to continue to serve alcoholic beverages with meals is not anticipated to create any negative traffic-related impacts on Honolulu Avenue and surrounding uses over and above the existing conditions. The continued on-site sales, service and consumption of alcoholic beverages at this location is appropriate in an area of the city zoned for both residential and commercial uses and will provide an option for the dining public to enjoy alcoholic beverages with their meals.

The continued on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant is a permitted use in the C1 (Neighborhood Commercial) zone subject to approval of an Administrative Use Permit. The continued on-site sales, service and consumption of alcoholic beverages at the existing full-service restaurant is consistent with the various elements of General Plan for the area. The project site is already developed and the applicant's request is only to continue the on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant. The existing restaurant is surrounded by other complementary businesses, including retail and service uses. Residential uses are located across an alley on the north side, which is zoned for single-family development. The recommended conditions of approval will serve to mitigate any potential impacts on surrounding properties and their uses. No additions to the business are being proposed; therefore, other elements of the General Plan, including Open Space, Recreation, Housing, and Noise Elements, will not be impacted as a result of the applicant's request. This application does not include any added floor area or modifications to the existing building; therefore, there will be no increase in the requirement for parking.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The continued on-site sales, service, and consumption of alcoholic beverages at an existing full-service restaurant will not be detrimental to the health, safety and public welfare of the neighborhood. According to the Glendale Police Department, the subject property is located in Census Tract 3006 where the suggested limit for on-sale alcohol establishments is seven. Currently, there are 31 on-sale licenses in this tract and El Sol Mexican Restaurant is one of the existing 31 licenses. Based on Part 1 crime statistics for this Census Tract 3006 in 2015, there were 215 crimes, 20% above the citywide average of 178 in 2015. Within the last calendar year, there were no calls for police service at the location. The Glendale Police Department did not cite any major concerns related to the continued on-site sales, service, and consumption of alcoholic beverages at the existing restaurant. Conditions are proposed to ensure that the restaurant use will not be detrimental to the public health or safety, or the environment.

C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

The existing full-service restaurant is located within a commercial district and surrounded by complementary uses, including retail and service uses. As noted above, there are no residential uses immediately adjacent to the subject site. Residential uses (single-family) are located on the north side of the subject site across an alley. It is not anticipated that the continued on-site sales, service, and consumption of alcoholic beverages with meals at the existing full-service restaurant will be detrimental to the community or adversely conflict with the community's normal development. The restaurant, "El Sol Restaurant" has operated at this location since 1982, and has had a Conditional Use Permit to serve alcohol for on-site consumption since 2003. The applicant's request to allow the continued on-site sales, service and consumption of alcoholic beverages with meals is not anticipated to adversely conflict with surrounding properties as it will be ancillary to the primary use. Similar uses exist in the area and within the community, which have not proven to adversely affect or conflict with adjacent uses. There is a preschool and a church within the immediate area of the subject site. While these facilities and uses are within close proximity, the on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant has not proven to impact surrounding or abovementioned uses. The recommended conditions of approval will serve to mitigate any potential impacts on the surrounding properties.

D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.

The applicant's request to allow the continued on-site sales, service, and consumption of alcoholic beverages at the full-service restaurant will not result in inadequate public or private facilities. The project site is already developed and associated facilities are existing. The project site is located in a one-story commercial building. The building was built in 1962 in compliance with the zoning code that was in place during that time. The property is fully improved with all necessary utilities. Honolulu Avenue is identified in the Circulation Element as a fully improved Minor Arterial street and can serve a multitude of businesses and residential developments. It can adequately handle the existing traffic circulation adjacent to the site. The on-site sales, service, and consumption of alcoholic beverages at an existing full-service restaurant is not anticipated to generate additional traffic. Currently, there are 99 parking spaces for the seven-tenant building. The existing on-site parking has proven to meet the parking needs of the existing full-service restaurant and has not resulted in conflicts with nearby businesses or residential developments. In addition, no expansion of the existing facility is proposed, therefore no additional parking is required.

REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION:

That all the criteria set forth in Section 30.49.030 (E) to be considered in making the findings in subsection A. through D. above have all been met and thoroughly considered:

- 1) That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or that where an existing or proposed off-site use is located in a census tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control, such use does not or will not

tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over-concentration based on the comments submitted by the City of Glendale Police Department. The continued on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant does not, or will not, tend to encourage or intensify crime within this reporting district as noted in Finding B above.

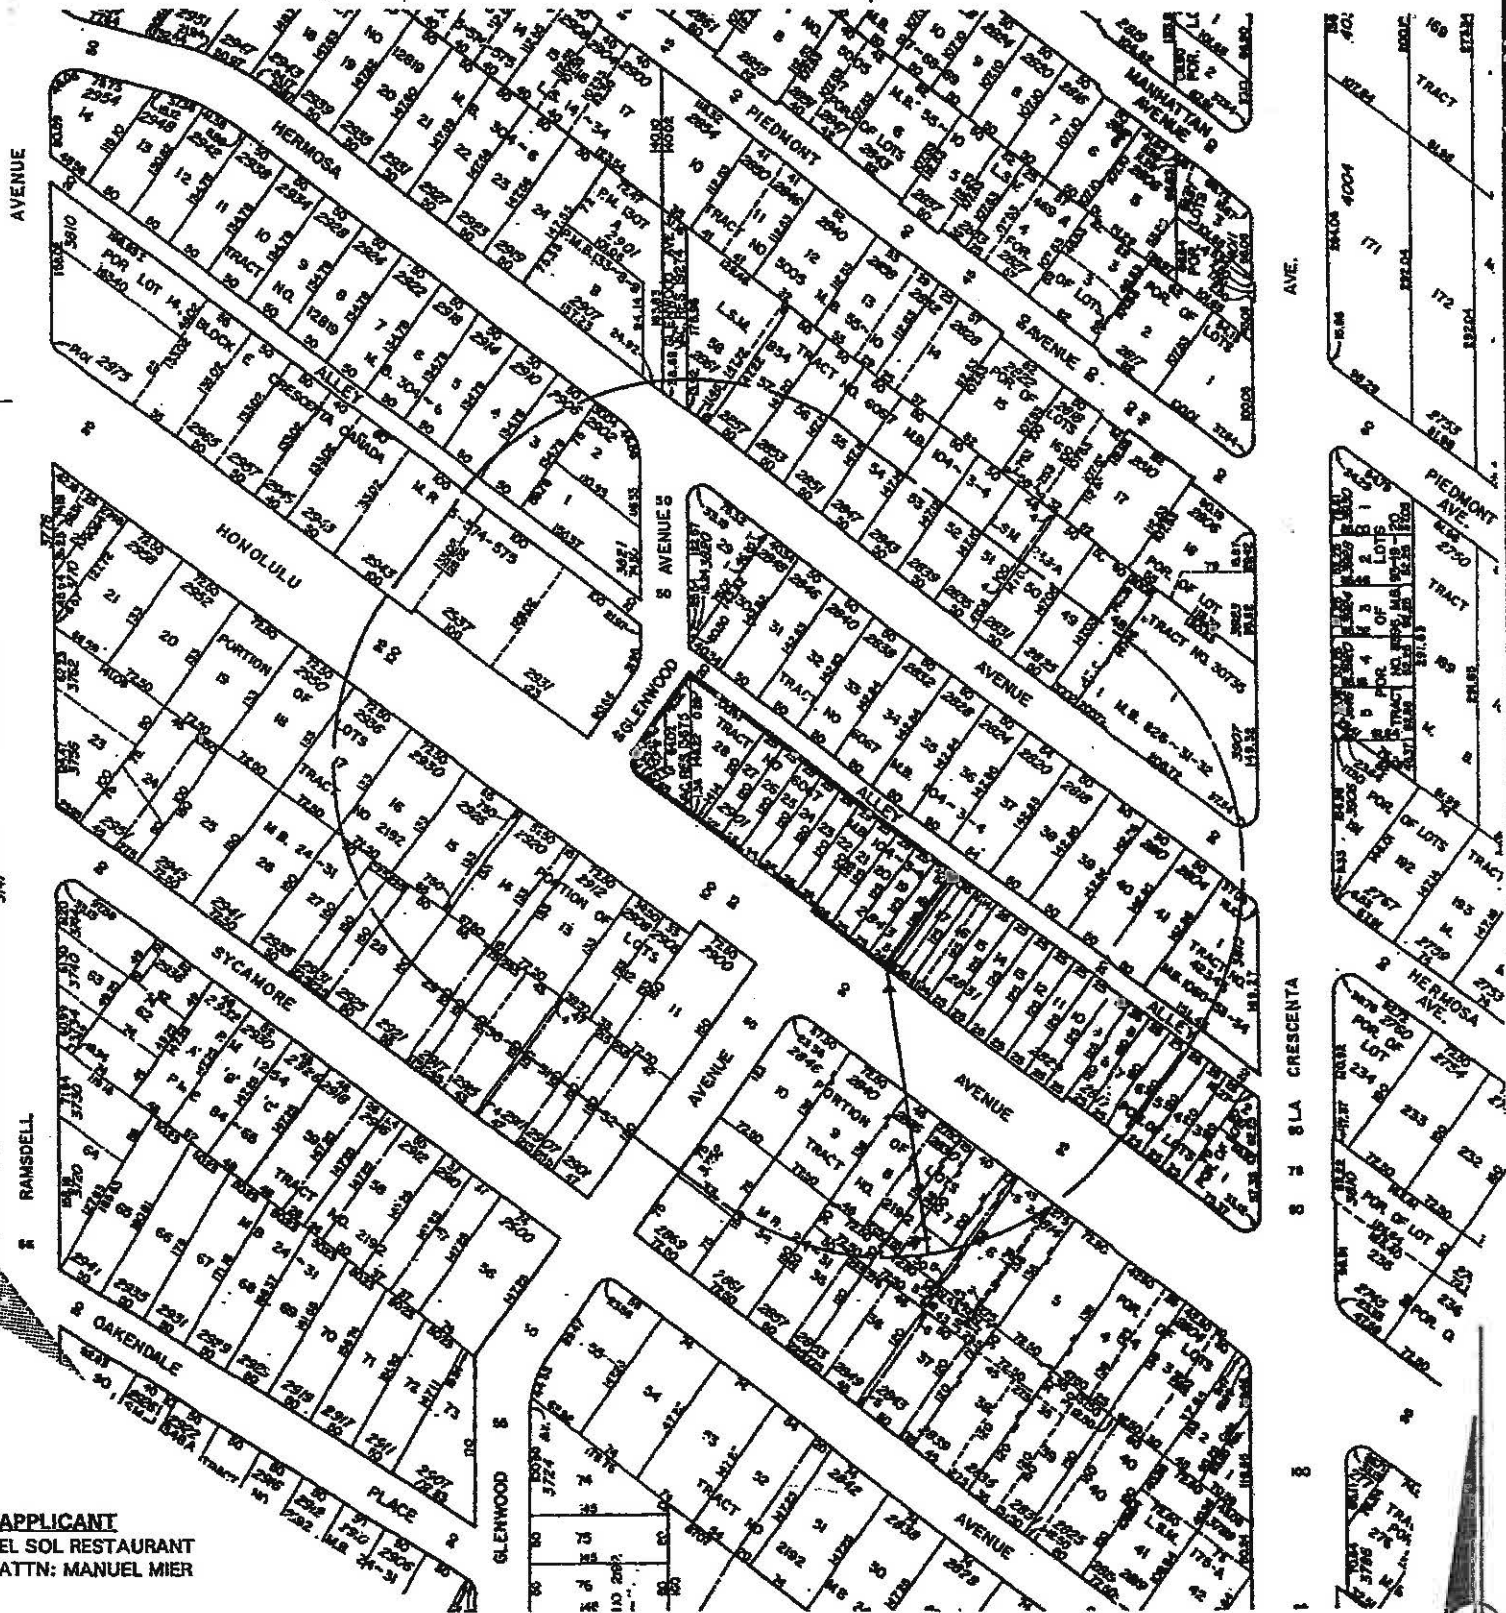

- 2) That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part 1 crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district. As noted in Finding B above, the crime rate in Census Tract 3006 is 20% above the citywide average for Part 1 crimes and the use will not tend to encourage or intensify crime within the district.
- 3) That the existing or proposed use does not or will not adversely impact any other uses within the surrounding area (church, public or private school or college, day care facility, public park, library, hospital or residential use). As noted in Finding C above, there are a church and a preschool facility within the immediate area of the subject site. As noted in Finding A, no residential uses abut the subject property or site. The residential uses (zoned single-family) located on the north side of the subject property along an alley separating the residential uses from the subject site. Recommended conditions of approval will serve to mitigate any potential negative impacts on these surrounding residential uses, or the existing church and preschool.
- 4) That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use. As noted in Findings C and D above, the applicant's request is not anticipated to increase the need for public or private facilities. The continued on-site sale, service, and consumption of alcoholic beverages at the existing full-service restaurant is not anticipated to intensify traffic circulation or parking demand. No changes to the operation of the full-service restaurant or building suggest that an increase of parking is needed. The site is fully developed and adequate parking are currently provided.
- 5) That, notwithstanding consideration of the criteria in subsections 1 through 4 above, alcoholic beverage sales, service and on-site consumption does serve a public convenience for the area. The applicant's request to allow the continued on-site sales, service and consumption of alcoholic beverages at an existing full-service restaurant does serve a public convenience because it serves local residents, businesses, and the surrounding community. Proposed conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.
