**RE: 205 NORTH CENTRAL AVENUE
ADMINISTRATIVE USE PERMIT CASE NO. PAUP 1614201
(Little Palace)**

Dear Mr. Li:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.49, the Community Development Department has processed your application for an administrative use permit to allow the sales, service, and on-site consumption of beer and wine at an existing full-service restaurant in the "DSP/TD" – Downtown Specific Plan- Transitional District, located at **205 North Central Avenue**, described as Portions of Lot 10, 11, and 12, Block 9, Glendale Boulevard Tract, in the City of Glendale, County of Los Angeles.

CODE REQUIRES

(1) The sales, service and on-site consumption of beer and wine requires an Administrative Use Permit in the DSP/TD – Downtown Specific Plan-Transitional District.

APPLICANT'S PROPOSAL

(1) To allow the on-site sales, service, and consumption of beer and wine (Type 41) at an existing full-service restaurant.

ENVIRONMENTAL RECOMMENDATION

The project is exempt from CEQA review as a Class 1 "Existing Facilities" exemption, pursuant to State CEQA Guidelines Section 15301.

After considering the evidence presented with respect to this application, the Director of Community Development has **APPROVED WITH CONDITIONS** your request based on the following findings:

REQUIRED/MANDATED FINDINGS

After thorough consideration of the statements contained in the application, the plans submitted therewith, the above analysis by Community Development Department staff,

and any comments received from the public with respect to this application, this Administrative Use Permit application is approved based on the following:

A. That the proposed use will be consistent with the various elements and objectives of the general plan.

The subject site is located in the DSP/TD (Transitional District) Zone and the General Plan Land Use Element designation is Downtown Specific Plan/Transitional District. Goods and services offered in this zone generally attract clientele from the adjoining residential neighborhoods as well as the surrounding community. The sales, service and consumption of beer and wine within an existing restaurant at this location is appropriate in an area of the city zoned for commercial uses and will continue to provide an option for the dining public to enjoy beer and wine with their meals.

The on-site sales, service and consumption of beer and wine at the restaurant will be consistent with the elements and objectives of the General Plan. The land use designation of the site is Downtown Specific Plan/Transitional District where retail services along a major arterial, such as North Central Avenue, are desired. The project site is already developed and the applicant's request is to allow the on-site sales, service and consumption of beer and wine at the existing full-service restaurant. The existing restaurant is surrounded by other complementary businesses, including retail and service uses. Residential neighborhoods are located nearby, but do not abut the project site. Nearby residential zoning and uses are located across the alley to the west. The Land Use Element is the most directly related to the approval of this use. All other elements of the General Plan, including Open Space, Recreation, Housing, and Noise Elements, will not be impacted as a result of the applicant's request. The project site is fully developed and has not been slated for open space or recreation, or for new housing. The proposal to add beer and wine for on-site consumption at the existing restaurant will be ancillary to the existing operation as a full service restaurant, and as such is not anticipated to increase the existing noise levels above and beyond the current conditions. This application does not include any added floor area or modifications to the existing building; therefore, there will be no increase in required parking for the use. Adequate utilities, landscaping, and traffic circulation measures are already provided.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The on-site sales, service, and consumption of beer and wine at the existing full-service restaurant will not be detrimental to the health, safety and public welfare of the neighborhood in general. According to the Glendale Police Department, the subject property is located in Census Tract 3018.02 where the suggested limit for on-sale alcohol establishments is three. Currently, there are 20 on-sale establishments located in this tract and "Little Palace" will be the 21st license in this Tract. Based on Part 1 crime statistics for this Census Tract, there were 185 crimes in 2015, four percent above the citywide average of 178. Within the last calendar year, there were no calls for police service at this location. The Police Department

have suggested conditions of approval to ensure that there are no negative impacts to the public health, safety, general welfare, or the environment.

C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

It is not anticipated that the on-site sales, service and consumption of beer and wine at the existing full-service restaurant will be detrimental to the community or adversely conflict with the community's normal development. Since 2013, "Little Palace" has operated without any major incident. Their request to allow the addition of on-site sales, service and consumption of beer and wine with meals is not anticipated to adversely conflict with surrounding properties as it will be ancillary to the primary use, a full-service restaurant. The subject property is surrounded by other complementary businesses, including retail and service uses with residential neighborhoods located in the vicinity.

There are two churches located within the immediate area of the subject site: Zoe Ministerios Internacional located at 334 North Pacific Avenue (0.4 miles to the northwest), and First Baptist Church located at 209 North Louise Street (0.3 miles to the east). In addition, Columbus Elementary School is located 0.5 miles northwest, and Doran Mini Park is located 0.4 miles northwest of the project site. While these facilities and uses are within close proximity, given their orientation in relation to the subject property and the nature of consumption of beer and wine with meal service, it is not anticipated that the applicant's request will impede their existing operations.

The Circulation Element identifies North Central Avenue as a major arterial. It is fully developed and can adequately handle the existing traffic circulation around the site. The project site is surrounded by commercially zoned properties, and residential uses to the west on Wilson Avenue. The applicant's request to serve beer and wine with meals is not anticipated to create any negative traffic-related impacts on North Central Avenue and other businesses over and above the existing conditions.

D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.

The applicant's request to allow the service of beer and wine at the full-service restaurant will not result in inadequate public or private facilities. The project site is already developed and associated facilities are existing. The existing full-service restaurant, "Little Palace", has been operating at this location since 2013. The existing on-site parking has proven to meet the parking demand of the restaurant, and the shopping center tenants and patrons, and has not resulted in conflicts with nearby businesses or residential development. North Central Avenue, as identified in the Circulation Element, is a fully developed major arterial and can adequately handle the existing traffic circulation adjacent to the site.

REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION:

That all the criteria set forth in Section 30.49.030 (E) to be considered in making the findings in subsection a. through d. above have all been met and thoroughly considered:

- 1) That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or that where an existing or proposed off-site use is located in a census tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control, such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over concentration based on the comments submitted by the City of Glendale Police Department. The sale of beer and wine for on-site consumption that is incidental to food service at the existing restaurant site does not, or will not, tend to encourage or intensify crime within this reporting district as noted in Finding B above.
- 2) That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part 1 crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district because conditions have been included in the approval of this application to ensure that any potential negative impacts will be appropriately mitigated. As noted in Finding B above, the crime rate in Census Tract 3018.02 is at four percent above the city average for Part 1 crimes. In addition, no evidence has been presented that would indicate that the on-site sales, service and consumption of beer and wine at the subject site would encourage or intensify crime within the district.
- 3) That the existing or proposed use does not or will not adversely impact any other uses within the surrounding area (church, public or private school or college, day care facility, public park, library, hospital or residential use). As noted in Finding C above, there are two churches, a public elementary school and a park within the immediate area of the subject site. While these facilities and uses are within close proximity, given the location of these uses in relation to the subject property, it is not anticipated that the applicant's request will impede their existing operations.
- 4) That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use. As noted in Findings C and D above, the applicant's request is not anticipated to increase the need for public or private facilities. The ancillary service of beer and wine at the existing full-service restaurant, "Little Palace" is not anticipated to intensify traffic circulation or parking demand. The site is fully developed and adequate parking and loading facilities are currently provided.

- 5) That, notwithstanding consideration of the criteria in subsections 1 through 4 above, alcoholic beverage sales, service and on-site consumption does serve a public convenience for the area. The applicant's request to allow the on-site sales, service and consumption of beer and wine at an existing full service restaurant does serve a public convenience because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.
