**RE: 343 NORTH CENTRAL AVENUE  
ADMINISTRATIVE USE PERMIT NO. PAUP 1520733  
(Phoenicia Restaurant)**

Dear Mr. Kalfayan:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.49, the Community Development Department processed your application for Administrative Use Permit No. PAUP1520733 to allow the continued sales, service and on-site consumption of alcoholic beverages at an existing full-service restaurant in the "DSP/TD" - Downtown Specific Plan/Transitional District and "R-1250 PS" - High Density Residential Parking Structure Overlay located at **343 North Central Avenue**, described as Portions of Lots 9 and 10, Glendale Home Tract, Lots 11, 11A and a Portion of a Vacated Alley, Glendale Home Tract, in the City of Glendale, in the County of Los Angeles.

CODE REQUIRES

Administrative Use Permit

- 1) Sales, service and on-site consumption of alcoholic beverages requires an administrative use permit in the DSP/TD (Downtown Specific Plan/Transitional District).

APPLICANT'S PROPOSAL

Administrative Use Permit

- 1) An administrative use permit to allow the continued on-site site sales, service and consumption of alcoholic beverages at an existing full-service restaurant.

ENVIRONMENTAL DETERMINATION

The project is categorically exempt from CEQA review as a Class 1 Existing Facilities exemption pursuant to State CEQA Guidelines Section 15301.

**REQUIRED/MANDATED FINDINGS**

After thorough consideration of the statements contained in the application, the plans submitted therewith, the above analysis by Community Development Department staff, and any comments received from the public with respect to this application, the Director of Community Development has **APPROVED WITH CONDITIONS** your Administrative Use Permit application based on the following:

**A. That the proposed use will be consistent with the various elements and objectives of the general plan.**

The subject site is located in the DSP/TD (Transitional District) and the General Plan Land Use Element designation is Downtown Specific Plan. Goods and services offered in this zone generally attract clientele from the adjoining residential neighborhoods as well as the surrounding community. The continued sales, service and consumption of alcoholic beverages at the existing restaurant along North Central Avenue is located in an area of the city zoned for commercial uses. Phoenicia Restaurant will continue to provide an option for the dining public to enjoy. The existing full-service restaurant would continue to enhance the environment desired in the DSP. Serving alcoholic beverages in conjunction with bona fide food service is a common ancillary use for restaurants and will further assist in making downtown Glendale a dynamic destination. Given that the project site is already developed and the administrative use permit application only requests the continued sales, service and on-site consumption of all types of alcoholic beverages at an existing restaurant, other elements of the general plan, including the Open Space, Recreation, Housing, Circulation and Noise Elements, will not be impacted as a result of the project. Adequate utilities, landscaping, and traffic circulation measures are already provided.

The Circulation Element identifies North Central Avenue as a major arterial. It is fully developed and can adequately handle the existing traffic circulation around the site. The project site is surrounded by commercially zoned properties, and residential uses to the west on Wilson Avenue. The applicant's request to continue serving alcoholic beverages with meals is not anticipated to create any negative traffic-related impacts on Central Avenue and other businesses over and above the existing conditions.

The project site is already developed and the applicant's request is to allow the continued on-site sales, service and consumption of alcoholic beverages at the existing full-service restaurant. The project site is surrounded by other complementary businesses, including retail and service type uses. Residential neighborhoods are located to the west along Lexington Drive and mixed use development south of the subject site along Central Avenue. This application does not include any added floor area or modifications to the existing building; therefore, there will be no increase in required parking for this use. The continued on-site sales, service and consumption of alcoholic beverages as an ancillary use will not impact the existing parking and landscaping conditions. There are two parking lots serving restaurant patrons and employees. One parking lot is located directly west of the restaurant site and another is located across the street on Lexington Drive. Both parking lots were approved by the Planning Hearing Officer via a Parking Use Permit. The applicant's request to continue serving alcoholic beverages at the existing restaurant with meals is not anticipated to create any negative parking issues over and above the existing conditions.

**B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.**

The continued on-site sales, service, and consumption of alcoholic beverages at the existing full-service restaurant will not be detrimental to the health, safety and public welfare of the neighborhood in general. According to the Glendale Police Department, Phoenicia Restaurant is located in census tract 3018.02, which allows for three on-sale

establishments. There are currently 19 on-sale establishments in this tract. While there are significantly more on-sale establishments in this area than would otherwise be allowed, Phoenicia Restaurant is already one of the 19 establishments. There will be no increase in the number of on-sale establishments. Based on Part 1 crime statistics for this census tract, there were 185 crimes, four percent above the city wide average of 178. Within the last calendar the Glendale Police Department received five calls for service at this location. Most of the calls were related to loud noise/music coming from the location with no report taken on any of the calls. None of the calls received were related to alcohol.

**C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.**

The continued on-site consumption of alcoholic beverages at the existing restaurant will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property. The project site is located on the southwest corner of Central Avenue and Lexington Drive. This street is already a densely developed commercial area, containing restaurants, mixed use, office and retail uses surrounding the project site. The consumption of alcoholic beverages at the existing restaurant has not and will not conflict with the adjacent and surrounding land uses and, in fact, this type of use is encouraged in this area. Further, the project will not impede the normal development along this street, since it is already fully developed and should not impede any redevelopment of this street, given the administrative use permit request is for the continued on-site sales, service and consumption of alcohol service at the restaurant.

No library, hospital or day care facility is known to be located within the vicinity of the project site. Given the commercial nature of the area and the fact that the administrative use permit is only for the continued on-site sales, service and consumption of alcohol service at the existing restaurant, the proposed project should not adversely impact public facilities. The consumption of alcoholic beverages with food at the existing full-service restaurant will not conflict with the adjacent land uses and will be ancillary to the primary use. There are two churches located within the immediate area of the subject site. One church is located approximately 0.3 miles to the west on the northeast corner of Myrtle Street and North Pacific Avenue and another on the northwest corner of North Louise and East Wilson Avenue, approximately 0.3 miles east of the subject site. In addition, Columbus Elementary School is located approximately 0.5 miles northwest of the site and Doran Mini Park is located approximately 0.4 miles northwest of the site. While these facilities and uses are within close proximity, given the orientation of both churches in relation to the subject property, to the east and west, the ancillary services of alcoholic beverages at the existing full-service restaurant has not proven to negatively impact these uses or impede their existing operations.

**D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.**

The applicant's request to continue serving alcoholic beverages at the existing restaurant has and will not result in inadequate public or private facilities. Adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are

provided for the use and are existing. North Central Avenue, as identified in the Circulation Element, is a fully developed major arterial and can adequately handle the existing traffic circulation adjacent to the site. There are two approved Parking Use Permits on file, to serve the use. Phoenicia Restaurant has secured off-site parking via the parking use permits, at 310 W. Lexington Drive and 315-317 W. Lexington Drive. Both locations are and will continue to provide accessible parking for restaurant patrons and employees. No additional parking is required as a result of the continued on-site sales, service and consumption of alcoholic beverages at the restaurant. Overall, the applicant's request to allow the continued on-site sales, service and consumption of all types of alcoholic beverages at the existing full-service restaurant, is supportable based on the facts surrounding this application and the findings.

**REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION:**

That all the criteria set forth in Section 30.49.030 (E) to be considered in making the findings in subsection a. through d. above have all been met and thoroughly considered:

- 1) That where an existing or proposed continued use is located in a census tract with more than the recommended maximum concentration of on-site uses or that where an existing or proposed off-site use is located in a census tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control, such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over concentration based on the comments submitted by the City of Glendale Police Department. The continued on-site sales, service and consumption of all types of alcoholic beverages incidental to food service at the existing restaurant site has not, or will not, tend to encourage or intensify crime within this reporting district as noted in Finding B above.
- 2) That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part 1 crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district because conditions have been included in the approval of this application to ensure that any potential negative impacts will be appropriately mitigated. As noted in Finding B above, the crime rate in Census Tract 3018.02 is at four percent above the city average for Part 1 crimes. In addition, no evidence has been presented that would indicate that the continued on-site sales, service and consumption of alcoholic beverages at the subject site would encourage or intensify crime within the district.
- 3) That the existing or proposed use does not or will not adversely impact any other uses within the surrounding area (church, public or private school or college, day care facility, public park, library, hospital or residential use). As noted in Finding C above, there are two churches, a public elementary school and a park within the surrounding area of the subject site. While these facilities and uses are within close proximity, given the location of these uses in relation to the subject property, northwest and northeast of the subject site, the applicant's request to continue the sales, service and on-site consumption of

alcoholic beverages will not impede their existing operations. While residential uses do exist in the area, the multi-family residential uses located west of the project site along Lexington Avenue and mixed use developments along Central Avenue would not be impacted as a result of the applicant's request to continue serving alcoholic beverages with meals at the existing restaurant.

- 4) That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use. As noted in Findings C and D above, the applicant's request is not anticipated to increase the need for public or private facilities. The continued ancillary service of alcoholic beverages at the existing full-service restaurant, "Phoenicia Restaurant" has proven not to intensify traffic circulation or parking demand. The site is fully developed and adequate parking and loading facilities are currently provided.
- 5) That, notwithstanding consideration of the criteria in subsections 1 through 4 above, alcoholic beverage sales, service and on-site consumption does serve a public convenience for the area. The applicant's request to allow the continued on-site sales, service and consumption of alcoholic beverages at an existing full service restaurant does serve a public convenience because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.
