**RE: 1446 BELLEAU ROAD
ADMINISTRATIVE DESIGN REVIEW CASE NO. PDR 1624342**

Dear Ms. Minasian:

On November 29, 2016, the Director of Community Development, pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.47, **APPROVED** your design review application for the construction of an approximately 1,029 square-foot, one-story addition to the sides and rear of an existing one-story 1,953 square-foot single-family residence on a 15,550 square-foot lot, zoned R1R, Floor Area Ratio District II located at **1446 Belleau Road**. The addition will match the existing house in terms of architectural style and materials.

CONDITIONS OF APPROVAL: NONE

SUMMARY OF THE DIRECTOR OF COMMUNITY DEVELOPMENT'S DECISION

Site Planning – The proposed site planning is appropriate, as modified by any conditions, to the site and its surroundings for the following reasons:

- The proposed additions at the sides (east and west) and at the rear of the existing single-story residence will not alter the site planning of the lot.
- The 833 square-foot addition infills the existing recessed portion at the northeast corner of the residence and maintains the existing interior setback at the east side.
- The 196 square-foot addition at the west side of the house infills a notch behind the garage and retains the existing interior setback on the west side.

Mass and Scale – The proposed massing and scale are appropriate, as modified by any conditions, to the site and its surroundings for the following reasons:

- The overall 1,029 square-foot addition's roof (cross-gabled roof), building mass, and proportion are consistent with the existing volume of the house and surrounding neighborhood.
- The new roofs are consistent with the existing roof form.
- There is no change to the overall 14'-4" building height.

Building Design and Detailing – The proposed design and detailing are appropriate, as modified by any conditions, to the site and its surroundings for the following reasons:

- The proposed architectural style and details including wood fascia, rafter tails, overhang eaves, stone veneer wainscot, and proposed stucco finish on the walls are consistent with the existing residence.
- The new asphalt shingles will match the existing shingles.
- New vinyl windows will be sliders to match the existing window type and operation.

This approval is for the project design only. Administrative Design Review approval of a project does not constitute compliance with the Zoning Code and/or Building Code requirements. Please refer to the end of this letter for information regarding plan check submittal.
