Conditions:

1. Revise landscape plan to include a number of sizable oak trees and other native vegetation at the graded but unpaved portion of the driveway to help restore this illegally graded area and prevent its future vehicular use.
2. Reduce the square footage or mass of the house to be more in keeping with other properties in the area.
3. Revise the site plan to accomplish the goals of Conditions 1 and 2, including the possible repositioning of the house and/or garage.
4. If still required after implementing Conditions 2 and 3, clarify or correct the drawings of the roofs at the first and second levels above the porch to the right side of the entry and revise the design to improve the appearance of this area.
