

Statistical Section (UNAUDITED)

The statistical section provides mostly trend data and nonfinancial information useful in assessing the City's financial condition. Because of the special character of the data presented in the statistical section (i.e., data of prior years, nonfinancial data), the section does not fall within the scope of the independent audit.

- Financial Trends – These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.
- Revenue Capacity – These schedules contain information to help the reader assess the City's two most significant local revenue sources, the electric revenue and the property tax.
- Debt Capacity – These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.
- Demographic and Economic Information – These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.
- Operation Information – These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Notes:

- (1) Effective FY2016, wholesale and sales to other utilities have been combined into one account.
- (2) Reductions in the purchases and sales of MWHs correlates to the decrease in sales to other utilities. The decrease in sales to other utilities was mainly due to lower volumes as a result of changing market demand and price volatility.
- (3) In FY2018, there was an increase in customers due to recently completed residential developments. Even though megawatt-hour sales decreased, due to weather, conservation and solar installations, revenue has increased due to a 2% rate increase effective July 1, 2017.

Notes:

- (1) In FY2009, fluctuations in wholesale sales volume and revenue were due to changing market demand and price volatility.
- (2) In FY2013, reductions in the purchases and sales of MWHs correlates to the decrease in wholesale revenue and sales to other utility revenue.

- On August 13, 2013, the City Council approved an 8% system average rate increase effective September 13, 2013. The City Council also approved electric rates to become effective July 1 of each of the 4 successive years in the amounts of 7%, 5%, 2%, and 2%. The rate plan puts the Electric Utility on the path to restore financial health by generating positive annual net income by fiscal year ending June 30, 2016, supporting a bond issue of \$60 million.

In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1%, based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum of 2%). With few exceptions, property is only reassessed as a result of new construction activity or at the time it is sold to a new owner. At that point, the property is reassessed based upon the added value of the construction or at the purchase price (market value) or economic value of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

Notes:

- (1) "Assessed" values are reflected.
- (2) Both the Homeowners' Exemption and Exempt Use Code categories are reflected.
- (3) Total Direct Rate is the weighted average of all individual direct rates applied by the government preparing the statistical section information.
- (4) In FY2011, as a result of moving all data to a different database/system, HdL's revenue calculations were revised and refined, resulting in changes to prior year total direct rates. Nevertheless, HdL encourages users of its data to leave prior year data unchanged on their schedules.

- In 1978, California voters passed Proposition 13 which set the property tax rate at a 1% fixed amount. This 1% is shared by all taxing agencies for which the subject property resides within. In addition to the 1% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of any voter approved bonds.
- Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all city property owners.
- City's Share of 1% Levy is based on the City's share of the general fund tax rate area with the largest net taxable value within the city. ERAF general fund tax shifts may not be included in tax ratio figures.
- Redevelopment rate is based on the largest RDA tax rate area (TRA) and includes only rate(s) from indebtedness adopted prior to 1989 per California State statute. RDA direct and overlapping rates are applied only to the incremental property values.

Notes:

- (1) Total Direct Rate is the weighted average of all individual direct rates applied by the government preparing the statistical section information.
- (2) Effective FY2013, due to the dissolution of the Glendale Redevelopment Agency (GRA) on February 1, 2012, the redevelopment rate is not applicable going forward.

- (1) Education Revenue Augmentation Fund (ERAF) III payment to State, ERAF in lieu of Vehicle License Fee, SB211 Proposition Share for Central Project, supplemental property tax, and property tax penalty are excluded from property tax collections when compared to property tax levied in this schedule.
- (2) The amount collected during this fiscal year exceeded the Levy amount, which was mainly due to property tax (tax increment) collection timing for a few huge parcels in the Central Project Area.
- (3) The negative collection is due to refunds to property owners for overpayment in prior years, which mainly resulted from lower property values.
- (4) Revised since FY2017 CAFR release, due to updated numbers.
- (5) Delinquent taxes should be reported by levy year rather than by collection year. [GASB-S44: 21c; 2005 GAAFR, page 307].
- (6) This amount only includes Property Tax Increment collections from July 2011 through January 2012 due to ABx1 26 - Redevelopment Agencies Dissolution effective February 1, 2012.
- (7) Effective February 1, 2012, the Property Tax receipts from the County of LA to pay the former Redevelopment Agency's obligations are recorded in the Glendale Successor Agency Private Purpose Trust Fiduciary Fund.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city.

The percentage of overlapping debt applicable is estimated by using taxable assessed values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

Notes:

- (1) As a result of ABx1 26, the Net Assessed Value calculation does not include the assessed valuations for the former Glendale Redevelopment Agency's project areas (Central District: \$3,815,568; San Fernando Corridor District: \$2,407,990). Accordingly, the debt associated with the Glendale Redevelopment Agency became obligations of the Successor Agency, which is a separate legal entity. As such, this debt will no longer be included in the Legal Debt Margin calculation.
- (2) Under City Charter, the total bonded debt of the city shall at no time exceed a total of 15 percent of the assessed valuation of all property taxable for city purposes.

Notes:

- (1) In FY2018, increased downtown, special, and scofflaw parking enforcements, in particular enforcements of night time parking around Glendale Community College, have generated more citations.
- (2) In FY2018, low staffing combined with reprioritizations to assist school enforcement and to address more citizen complaints have led to a decrease in citations of traffic violations.
- (3) In FY2018, there was an increase in mobile property fires and passenger vehicle fires, some of which are suspicious in nature and are part of arson investigations.
- (4) As Glendale's population continues to grow, the total waste generated increases as well.
- (5) In FY2018, foreign markets made the recyclable processing market more strict by only accepting materials that meet strict grade and cleanliness standards. As a result, more of Glendale's recyclables have been thrown away causing a decrease in diversion.
- (6) Effective FY2014, each department contracted out to private haulers to dispose of citywide inert wastes after the official closing of the Brand Park Landfill.
- (7) In FY2018, the Public Works Department is taking inert waste to the same location that processes bulky item debris. As a result, Public Works' inert material recycling is more difficult to track separately.
- (8) In FY2017, the Public Works department focused its efforts on varying street rehabilitation projects, including sustainable infrastructure components, as well as street improvements such as the installation of ADA compliant curb ramps, street realignments, and upsized sewer lines.
- (9) In FY2018, the Public Works Department continued to focus its efforts on street rehabilitation and other capital improvements rather than street resurfacing and reconstructing.
- (10) In FY2017, law enforcement was provided electronic citation books, which made the process of entering citations in the system more efficient.
- (11) In FY2017, the increase in suspicious fires was due to three arsonists who were later arrested.
- (12) Revised figures, due to redefined definitions.
- (13) In FY2017, maintenance service crews concentrated their efforts on repairing potholes as an effective measure of maintaining the city street's infrastructure and responding to greater community need for well-maintained streets. The "square feet of potholes repaired" is contingent upon various factors, including level of staffing, weather, and other citywide street improvement projects, such as paving, curb, and gutter maintenance.
- (14) In FY2016, the reduction in average daily sewage treatment from previous years was due to water conservation efforts.

Total volumes borrowed	1,067,667	921,163	1,000,355	1,310,873 (4)	1,069,695

Notes:

- (1) Route miles vary every year depending on the day of the week holiday service operates.
- (2) In March 2015, Community Services and Parks upgraded the permitting and registration system. Permits issued prior to March 2015 may contain multiple field reservations on one permit. Beginning March 2015, individual permits were issued for each field reservation, which resulted in a significant increase in the number of permits issued between FY2015 and FY2018.
- (3) In FY2015, the increase in community center admissions may be attributed to a system upgrade that required scanning of activity cards for admission. As a result, all patrons were required to obtain new scannable activity cards. The new system allowed for improved tracking of activity card sales and renewals, in addition to increasing controls over community center admissions.
- (4) Estimates were used for unavailable data from May 18, 2015 to June 30, 2015. In FY2015, reshelves, which are books that were removed from the shelf by the patron, and then found elsewhere in the library, were counted in the total volumes borrowed. In prior years, reshelves were not included in the count.
- (5) In FY2018, the total number of pass members has decreased. Although there was a decrease in the number of pass members, the overall number of visits by all pass members is only slightly less than last year.
- (6) Revised number, based on updated information from Glendale Water and Power.
- (7) Decreased ridership is due to increased car ownership and usage of alternative transportation methods.

Notes:

- (1) In FY2012, the reduction in tonnage of refuse collected was due to a regional economic slowdown and free recycling programs offered to residential and commercial customers.
- (2) Some departments diverted inert wastes to an outside recycling company instead of using the Brand Park Landfill.
- (3) Between FY2010 and FY2013, more street resurfacing was done in an effort to take advantage of the low street resurfacing costs due to the economic downturn.
