**RE: 1701 VICTORY BOULEVARD  
ADMINISTRATIVE USE PERMIT NO. PAUP 1807913  
(Mambos)**

Dear Mr. Gonzalez:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.49, the Community Development Department has processed your application for continued sale of beer and wine for on-site consumption at an existing full service restaurant in the "C3" - Commercial Service Zone, Height District I, located at **1701 Victory Boulevard**, City of Glendale, County of Los Angeles.

CODE REQUIRES

(1) Alcoholic beverage sales require an Administrative Use Permit in the Commercial Service Zone.

APPLICANT'S PROPOSAL

(1) To allow the continued sale of beer and wine for on-site consumption at an existing full-service restaurant.

ENVIRONMENTAL DETERMINATION

The project is exempt from CEQA review pursuant to State CEQA Guidelines Section 15301, Class 1 - Existing Facilities, because the discretionary permit request is to allow the sale of beer and wine for an existing full-service restaurant use within an existing building.

After thorough consideration of the statements contained in the application, the plans submitted therewith, and the analysis by Community Development Department staff, this Administrative Use Permit application is **APPROVED WITH CONDITIONS** based on the following:

**REQUIRED/MANDATED FINDINGS**

**A. That the proposed use will be consistent with the various elements and objectives of the general plan.**

The proposed use will be consistent with the General Plan. The project site is located within the Commercial Service (C3) Zone, which is intended to offer a full range of goods and services to the community located along commercial thoroughfares within the City. A full service restaurant serving beer and wine is appropriate in this zone because it provides a dining and drinking amenity to those encouraged uses. In terms of the Housing Element, the project does not include any housing units. The project is consistent with the Circulation Element because it is located on Western Avenue and Victory Boulevard, which are

designated as Major and Minor Arterials (respectively). The predominant use character of frontage on these streets is community commercial, medium and medium-high density residential, and regional commercial centers, which are compatible with the existing full service restaurant. The subject site does not contain any historic resources and is not designated for open space or recreational use. The proposed use is compatible with the recommended maximum noise level according to the Noise Element. The site is not within a hazard zone and the conditions placed on the proposed use will ensure the project does not contribute to local crime. The proposed use (on-sale beer and wine) is not a source of or contributor to air pollution.

**B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.**

The continued sale of beer and wine for on-site consumption, in compliance with the conditions of approval in this report, is not anticipated to be detrimental to the public health, safety, general welfare, or environment. The subject restaurant has been selling beer and wine at this location since 1998, and the continued use is not anticipated to result in detrimental impacts. The Police Department reports that within the past year there have been no calls for police service at the location.

The proposed AUP has been reviewed by the Neighborhood Services and Building & Safety Divisions, and Police Department to identify potential negative impacts of the project on the public health, safety, general welfare or environment. The Neighborhood Services and Building & Safety Divisions had no comments regarding the proposed project. The Police Department reviewed the project and reported it is located in census tract 3016.02, where the suggested limit by ABC for on-sale (sale of beer and wine for on-site consumption) establishments is three. Currently, there are three on-sale establishment licenses located in this tract, including the applicant's license. Based on arrests and Part 1 (violent and property) crime statistics in year 2017 for this census tract, there were 147 crimes, which is 18% below the citywide average of 180. The Police Department has recommended standard conditions of approval to prevent any negative impacts to the community from the sale of beer and wine, which have been included in the conditions of approval.

Given these facts, the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

**C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.**

The continued sale of beer and wine for on-site consumption will not conflict with the adjacent land uses. The building is located along a major commercial boulevard that is already developed with similar uses; thus it is compatible with existing development. Further, the sale of beer and wine is incidental to the primary restaurant use, and any potential negative impacts to the neighborhood will be mitigated or prevented by the conditions of approval. The sale of beer and wine will not impede the normal development of surrounding property because it is a complementary use to surrounding development. The project site is located within the Commercial Service (C3) Zone, which is intended to offer a full range of goods and services to the community along commercial thoroughfares. A full-service restaurant providing beer and wine for on-site consumption is appropriate, as it provides an amenity to commercial and residential tenants in the area; therefore, it is consistent with the desired land use for this district.

Within walking distance (1/4 mile) to the site, there is one school (Benjamin Franklin Elementary School), four churches (Armenian Evangelical Brethren Church, True Jesus Church, Lake Street Church of the Nazarene, and John 3:16 Christian Store and Worship Center), and single- and multi-family development. While these facilities and uses are within close proximity to the project site, there is no evidence that the existing restaurant operation and sale of beer and wine have been in conflict with these neighboring uses (there are no records from Police Department or Neighborhood Services Division of neighborhood complaints of the project within the past year); furthermore, the conditions placed on this application for approval will mitigate or prevent negative impacts to the neighborhood from the use. The suggested conditions of approval made by the Police Department have been incorporated into the staff recommendation to ensure any potential negative impacts will be appropriately mitigated. Therefore, the continued sale of beer and wine is not anticipated to be detrimental to the community or adversely conflict with the community's normal development.

**D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.**

Adequate public and private facilities such as utilities, landscaping and traffic circulation measures are provided for the use and are existing with no changes proposed. The subject site will continue to provide twenty parking spaces in the shared parking lot for all uses on the site.

**REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION:**

That the following criteria set forth in Glendale Municipal Code Section 30.49.030 (E) be considered in making the findings in subsection A through D above.

- 1) **That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or that where an existing or proposed off-site use is located in a census tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control, such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over concentration.** As noted in Finding B above, the on-sale uses in the census tract do not exceed the recommended maximum concentration.
- 2) **That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part 1 crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district.** As noted in Finding B above, the crime rate in the subject census tract is 18% *below* the city average.
- 3) **That the existing or proposed use does not or will not adversely impact any church, public or private school or college, day care facility, public park, library, hospital or residential use within the surrounding area.** As more fully detailed in Finding C above, church, school, and residential uses are within walking distance (1/4 mile) to the site. While these facilities and uses are within close proximity to the project

site, the suggested conditions of approval made by the Police Department and other conditions relevant to the project have been incorporated into the conditions of approval to ensure any potential negative impacts will be appropriately mitigated.

- 4) **That adequate parking and loading facilities are or will be provided for the existing or proposed use, or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use.** The subject site will continue to provide twenty parking spaces for shared use by the buildings on site. The site is also located at a major public transit intersection (Victory Boulevard/Western Avenue) with three bus stops.
- 5) **That, notwithstanding consideration of the criteria in subsections 1 through 4 above, the existing or proposed use does or will serve a public necessity or public convenience purpose for the area.** The applicant's request to allow the continued sale of beer and wine for on-site consumption at a full-service restaurant does serve a public convenience because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure it will not adversely impact nearby businesses and residential uses.

#### **PUBLIC COMMENTS RECEIVED**
