Gardens of the 21st Century must evolve to become, in the words of Mary Reynolds, “The Guardians” of our native lands, sanctuaries for the plants, birds, insects and animal species that our exotic landscapes have driven out. Learn how your garden can help to preserve and protect our remaining natural resources.

David Newsom, founder of “The Wild Yards Project”, and a self-taught naturalist will be our speaker for the evening. This event is FREE!!! But space is limited. You must call us at (818) 548-3795 to reserve your place.
