

The following types of projects require GWP-Electric and GWP-Water approvals:

- Accessory Dwelling Units (ADU)
 - Detached new construction or Additions
 - Garage/Accessory Conversions
- Pool/Spa, Patio Cover/Trellis, Fence/Wall/Retaining Wall, BBQ & other outside features
- Additions - residential and non-residential
- All new structures

It is the owner and their consultants' responsibility to ensure projects can be approved during plan check submittal process. Please contact GWP prior to formal plan check submittal.

GWP-Electric Requirements

Please use the following link to access the GWP website for information regarding GWP-Electric easements and clearance to power line information: [Electric Service Requirements Manual](#)

For additional information:

Email: GWPElectricEngineeringInfo@Glendaleca.gov or call: (818) 548-3921

So GWP staff can best assist you, provide the appropriate application and preliminary plan and include a dimensioned site plan, floor plan and elevations. Show on the site plan the locations of all structures, power poles and power lines.

GWP-Water Requirements

To obtain approval for your projects, contact GWP-Water at:

Email: WaterEngineeringInfo@Glendaleca.gov or call: (818) 548-2062
