**RE: DENSITY BONUS & INCLUSIONARY HOUSING PLAN
CASE NO. PDBP 2011751
3450 NORTH VERDUGO ROAD**

Dear Applicant:

Pursuant to the provisions of the Glendale Municipal Code, Title 30, Chapter 30.36 and California Government Code Sections 65915, et seq. ("Density Bonus Law"), the Community Development Department has processed your application for a Density Bonus and Inclusionary Housing Plan to construct a new 3-story, 25,141 square-foot mixed-use project containing new office and retail uses (total of 3,031 square feet) with 18 parking spaces at the first floor; and 22 residential units at the second and third floor, featuring four (4) affordable units restricted to very-low income households. The project provides a total of 61 parking spaces, of which 43 parking spaces will be located within a new one-level subterranean parking garage, designated for the residential units. The existing two, one-story commercial buildings totaling 10,500 square feet with office, vehicle repair, and storage use (built in 1923/1979) will be removed. The project site is 21,000 square feet and located at 3450 North Verdugo Road, in the C3-I Zone (Commercial Service - Height District I) and described as Lots 11 through 17 of Sparr Heights Tract as per Map recorded in Book 77, Pages 2-4 of Maps, in the City of Glendale, County of Los Angeles (APN: 5613-007-011 and 5613-007-012).

ENVIRONMENTAL DETERMINATION The project is exempt from further CEQA review under a Class 32 "In-fill Development Project" exemption pursuant to State CEQA Guidelines Section 15332, because after review and consideration of all required technical reports and/or studies, staff determined the project meets all the conditions for an infill development project, as follows:

- a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and

- regulations;
- b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban areas;
 - c) The project site has no value as a habitat for endangered, rare or threatened species;
 - d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and
 - e) The site can be adequately served by all required utilities and public services.

DENSITY BONUS REQUEST

The applicant is seeking approval of a Density Bonus and Inclusionary Housing Plan with a request for a density bonus, as well as three concessions, pursuant to California Government Code Sections 65915, et seq. ("Density Bonus Law"), that allows developers that seek and agree to provide at least 15 percent of the units in a housing development to very-low income households, a mandatory 50 percent density bonus, as well as three concessions. The Density Bonus and Inclusionary Housing Plan meets the requirements of the Density Bonus Law and Glendale Municipal Code (GMC) Section 30.36.050 because the project is providing 15 percent of the total base density units of the housing development as affordable units which will be restricted to very-low income households, as defined in Section 50105 of the Health and Safety Code.

The project involves the demolition of two, one-story commercial buildings totaling 10,500 square feet with office, vehicle repair, and storage use (built in 1923/1979). The project site is a corner lot (Verdugo Road to the west and Chiquita Place to the South) with 21,000 square feet in area. The project is a three-story, 25,141 square-foot mixed-use building containing office and retail uses (total of 3,031 square feet) with 18 parking spaces at the first floor; and 22 residential units at the second and third floor with four (4) affordable units being reserved for very-low income households. The project contains a one-level subterranean parking garage, to include 43 parking spaces designated for the residential units. The project provides a total of 61 parking spaces. The project site is located in the C3-I (Commercial Service - Height District I) zone. Multiple residential dwellings on C3 zoned properties with the ground floor level occupied with permitted commercial uses are permitted in this zone and subject to the provisions of the R-1250 zone. In accordance with GMC 30.12.020, the maximum density allowed on a lot where the width is greater than 90 feet is one dwelling unit for every 1,000 square feet of lot area. The project's site is 21,000 square feet in size, with a lot width of approximately 120 feet. By right, the maximum density allowed on this lot is 21 units. In this case and in accordance with Density Bonus Law, the applicant is requesting a 4.7 percent density bonus (one additional unit) – less than the maximum density bonus of 50 percent allowed under current Density Bonus Law (which would entitle the applicant to build an additional 11 units above the 21 for a total of 32 units).

The 4.7 percent density bonus will allow the applicant to build a total of 22 units (4.7% of 21 base density units equals 0.987 which is rounded up to one (1)). The applicant will be required to restrict four (4) of the rental units for very-low income households (15 percent of the base density of 21 equals 3.15 which is required to be rounded up to 4). Because the applicant will restrict 15 percent of the base density units to very low income households, the applicant is entitled to three (3) concessions, which are requested pursuant to the Density Bonus Law and GMC Chapter 30.36. (not to provide additional open space, increase in lot coverage, reduce the required common outdoor open space area.)

In accordance with California Government Code Section 65915(p) and GMC Section 30.36.090, the project qualifies for a mandatory parking concession resulting in a reduced parking requirement, inclusive of guest and handicapped spaces, and tandem parking. The project is providing a total of sixty-one (61) parking spaces at the first floor and in a one-level subterranean parking garage. In compliance with the parking concession standards under Density Bonus Law (California Government Code Section 65915(p)), forty-three (43) out of the sixty-one (61) parking spaces within the proposed subterranean parking garage are designated for the residential units. The unit mix includes four (4) one-bedroom units, ten (10) two-bedroom units, eight (8) three-bedroom units.

The Developer will be required to enter into a Density Bonus Housing Agreement ("DB Agreement") in which the Developer will covenant that at least 15 percent of the 21 base density units (four units) will be restricted to rental to very-low income households. The DB Agreement with the City will be a recorded restriction on the property on which the affordable units and density bonus are constructed. In addition, the DB Agreement will run with the land and bind all future owner and successors in interest for a period of 55 years.

Additionally, pursuant to GMC Chapter 30.35, the project is subject to the Inclusionary Zoning Ordinance (IZO), which requires a housing development (a rental development project of eight or more dwelling units proposed to be constructed in the City) to provide 15 percent of the units as affordable to low-income households. The project is subject to IZO and is required to provide four (4) affordable units to low-income households (15 percent of 21 base density units (3.15 rounded up to 4)). Therefore, the project meets the IZO requirement because the developer will be providing four (4) affordable units to very-low income households. No additional affordable units are required under the IZO.

The applicant is seeking approval of three concessions pursuant to Government Code Section 65915, *et seq.* and GMC Chapter 30.36 (Density Bonus Incentives). The three requested concessions are as follows:

1. Additional Open Space: In accordance with GMC Section 30.31.020 (A)(7), on a lot with a minimum width of ninety (90) feet and with a density exceeding the maximum density permitted by code for lots with less than ninety (90) feet in width, an additional nine hundred (900) square foot open space area shall be provided contiguous to a street front/side setback area. For each additional foot of lot width thereafter, or minor fraction area thereof, an additional twenty (20) square feet of such open space area shall be provided. The applicant is requesting not to provide the required 1,499 square-foot additional open space.
2. Lot Coverage: In accordance with GMC Section 30.11.020 Table 30.11-B, the maximum allowable lot coverage for multi-family projects in the R-1250 zone is 50 percent (maximum 10,500 square feet for the subject project). The applicant is requesting to exceed the maximum allowable lot coverage. As proposed, the project features a lot coverage of 65.8 percent (13,818 square feet), exceeding the maximum allowable lot coverage by 15.8 percent (3,318 square feet).
3. Common outdoor Space: In accordance with GMC Section 30.11.050.C, the project is required to provide a minimum common outdoor space of two hundred (200) square feet per dwelling unit (4,400 square feet). The applicant is requesting to reduce the required common outdoor space by 1,865 square feet. As proposed, the project provides 2,535 square feet of common open space.

In addition to these concessions, the project qualifies for the mandatory parking concessions in accordance with GMC 30.36.090 and California Government Code Section 65915(p), which provides that upon the request of an owner/applicant, the City must allow the following vehicular parking ratios, inclusive of handicapped and guest parking, of a development providing at least fifteen (15) percent of the base unit count to very-low income households:

- One (1) on-site parking space per unit for zero to one-bedroom units.
- One and one-half (1.5) on-site parking spaces per unit for two- to three-bedroom units.
- On-site parking for a housing development may be provided through tandem parking ("Parking Concession").

The unit mix includes four (4) one-bedroom units, ten (10) two-bedroom units, eight (8) three-bedroom units. Based on the number of units and bedrooms provided, the Parking Concession requires the project to provide a minimum of 31 parking spaces for the residential component. The project is providing a total of 43 parking spaces (12 spaces more than required under the Parking Concession) within a one-level subterranean parking garage including two handicap accessible parking spaces. The commercial component of the project meets parking requirements per GMC Section 30.32.050 and provides 18 parking spaces at the first floor to serve the proposed commercial uses

(office and retail uses). Accordingly, the project meets and exceeds the parking requirements under the Density Bonus Law mandatory parking concession.

CONCESSIONS/INCENTIVES FINDINGS

After considering the evidence presented with respect to this application, the Director of Community Development was unable to make the necessary findings to deny any of the requested concessions for approval of the Density Bonus and Inclusionary Housing Plan. The requested concessions are required in this case to allow the density bonus of up to 50 percent, while reducing costs to the developer. The additional density and the resulting savings that the developer realizes will be significant and will allow the affordable housing costs and rents to be reduced. The City's General Plan Housing Element encourages the production of affordable housing and provides for flexibility in creating such units. As a result, the Director of Community Development has **GRANTED** the requested concessions pursuant to California Government Code Sections 65915, et seq. ("Density Bonus Law") and Glendale Municipal Code (GMC) Section 30.36.050 because the project is providing 15 percent of the total base density units of the housing development as affordable units, which will be restricted to very-low income households, as defined in Section 50105 of the Health and Safety Code. Pursuant to GMC Section 30.36.080(A), the Director of Community Development shall grant the requested incentives or concessions, unless he or she makes written findings, based upon substantial evidence, of any one (1) or more of the following:

- 1. The concessions (incentives) must be granted *unless* the Director finds, based on substantial evidence, that the concessions do not result in identifiable and actual cost reductions to provide for affordable housing costs or to provide affordable rents.**

The Density Bonus Housing Plan meets the requirements of Government Code Section 65915, et seq. because at least 15% of the total units of the housing development will be restricted to very low income households, as defined in Section 50105 of the Health and Safety Code. The project is located in the C3-I (Commercial Service-Height District I) zone that permits multiple residential dwellings subject to the provisions of sites zoned R-1250, with the ground floor level occupied with permitted commercial uses. In accordance with GMC 30.12.020, the maximum density allowed on a lot where the width is greater than 90 feet is one dwelling unit for every 1,000 square-feet of lot area. The project's site is 21,000 square feet in size, with a lot width of approximately 120 feet. A total of 21 units are permitted by right on the subject site of 21,000 square feet. By providing the 15 percent very-low affordable units, the project applicant is allowed a maximum 50% density bonus in addition to the code-allowed 21 units (maximum 32 units, or eleven (11) additional units). The project applicant, however, is only requesting a 4.7% density bonus, for a total of 22 units. Four (4) of the total 22 units will be affordable to very-low income households as provided in the Density Bonus and Inclusionary Housing Plan, which was reviewed and found acceptable by the Community Development Department,

Housing Division. The Density Bonus and Inclusionary Housing Plan meets the requirements of GMC Section 30.36.050. The project applicant will be required to execute a Density Bonus Housing Agreement, which provides for long-term affordability, subject to review and approval by the City Attorney.

The applicant is seeking approval of three concessions pursuant to Government Code Section 65915, *et seq.* and GMC Chapter 30.36 (Density Bonus Incentives) for not providing the required additional 1,499 square-feet of open space as required by GMC Section 30.31.020 A.7, for increasing the maximum allowable lot coverage to 65.8 percent (13,818 square feet), where 50 percent (10,500 square feet) is allowed, and for reducing the required common outdoor space by 1,865 square feet, where 4,400 square feet of common open space is required per GMC Section 30.11.050.C.

This denial finding cannot be made, as there is no evidence that the concessions will not result in actual cost reductions to provide for affordable rents. To the contrary, there is substantial evidence that the concessions *will* result in identifiable and actual cost reductions to provide affordable rents. The requested concessions, taken as a whole, are required to allow for the additional density requested and a greater number of units to be constructed on the same amount of lot area. The concessions, together, will reduce costs to the applicant for providing affordable units by creating construction efficiencies and inherent reductions in costs by allowing the construction of a greater number of units. The additional unit will result in actual and identifiable cost reductions because the additional unit will take advantage of construction efficiencies when being built, and will generate rental income to offset the cost of providing the units at an affordable rent. If the project had the required additional open space and met the lot coverage and common open space requirements, the footprint of the new building would be significantly impacted, and would subsequently affect the viability of the project and the proposed development build-out. With the requested concessions, the owner/applicant will realize cost reductions that will allow it to provide the four (4) housing units at an affordable rent.

- 2. The concessions (incentives) must be granted unless the Director finds, based on substantial evidence, that they will have a “specific adverse impact upon public health and safety,” as defined in paragraph (2) of subdivision (d) of California Government Code Section 65589.5, or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact without rendering the housing development unaffordable to low-income and moderate-income households. Specific, adverse impact is defined as “a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.” (Government Code section 65589.5(d)(2).)**
Inconsistency with the zoning ordinance or the land use designation in the

General Plan shall not constitute a specific, adverse impact upon public health or safety.

The applicant is seeking approval of three concessions pursuant to Government Code Section 65915, *et seq.* and GMC Chapter 30.36 (Density Bonus Incentives), discussed in detail above, in exchange for providing four (4) affordable units for very-low income households. This denial finding cannot be made, as there is no evidence that the concessions will have any adverse impacts. No specific adverse impact upon public health or safety or on the physical environment or on any real property that is listed in the California Register of Historical Resources would occur by granting the requested concessions for increased lot coverage, reduced common open space, and for not providing the additional open space. The existing one-story commercial and service type buildings on the project site which are proposed to be demolished, are not historically or culturally significant. Therefore, demolition of the existing buildings would not be considered a significant impact. Moreover, the proposed project is exempt from further CEQA review based on the fact that it meets the requirements to qualify for a Class 32 "In-fill Development Project" and thus, does not exceed thresholds for noise, traffic, air quality and water and will not result in significant cumulative impacts.

The project complies with all other Zoning Code development standards in the C3-I Zone (Commercial Service-Height District I), including land uses, setbacks, landscaping, and overall height and stories, etc. The requested concessions to exceed the lot coverage, reduce the required common open space, and not to provide additional open space, do not include waivers of any Building and Safety, Fire Department, Engineering or other requirements pertaining to health or safety. Furthermore, the provided setbacks are in compliance with the zoning code in order to provide light, air, and ventilation for adjacent buildings which consist of commercial buildings to the north and a community park to the east.

Furthermore, the concessions allow for additional buildable area on the site, which will then accommodate additional dwelling units. The additional density will, in fact, promote the City's health and safety in that there will be greater housing opportunities for low income family households. Moreover, the project will advance the goals and policies of the General Plan, Housing Element (2014-2021), including, but not limited to, Chapter 2, 2.1.6 Goal 1 ("A City with a Wide Range of Housing Types to Meet the Needs of Current and Future Residents), Chapter 2, 2.1.9 Goal 4 ("A City with Housing Services that Address Groups with Special Housing Needs) and Policies 4.1 and 4.2 ("Encourage both the private and public sectors to produce or assist in the production of housing for special needs groups such as: the handicapped, the elderly, large families, single parent households, and formerly homeless.") and ("Promote the development of extremely low, very low, low and moderate income housing by allowing developers density bonuses or other financial

incentives for providing units for low and moderate income residents. The unit mix and location of affordable housing units in density bonus projects must be approved by the City and included in an affordable housing agreement.”).

3. The concessions (incentives) must be granted unless the Director finds, based on substantial evidence, that the concessions will be contrary to state or federal law.

The requested concessions will not be contrary to state or federal law and do not require any other discretionary entitlement other than Design Review Board review and approval. The project is designed to comply with Building and Safety codes and the proposed 22-unit affordable housing residential project with commercial component is consistent with the General Plan. The project meets the goals and policies in the Housing Element to provide affordable housing. There is no evidence of state or federal laws being violated.

In addition to the three requested concessions, the applicant is requesting to use the parking concessions in accordance with State Density Bonus Law. Per California Government Code Section 65915(p), the project qualifies for reduced parking inclusive of guest and handicapped spaces, and tandem parking, and is required to provide 31 parking spaces for the residential units; the project is providing in excess of the requirement – a total of 43 parking spaces within a one-level subterranean parking garage for the residential component of the project.

CONDITIONS OF APPROVAL

APPROVAL of this Density Bonus Housing Plan shall be subject to the following conditions:

1. That the development shall be in substantial accord with the plans submitted with the application except for any modifications as may be required to meet specific Code standards or other conditions stipulated herein as approved by the Director of Community Development.
2. That all necessary permits shall be obtained from the Permit Services Center and all construction shall be in compliance with the Glendale Building Code and all other applicable regulations.
3. That the premises be maintained in a clean and orderly condition, free of weeds, trash, and graffiti.
4. That any expansion or modification of the structure or use shall require a new Density Bonus application. The phrase “modification of the structure or use” includes, but is not limited to, proposing a different percentage of the units as

affordable or altering the affordability of the units (i.e., proposing the affordable units be restricted to low or moderate income households when the approval is originally for very-low income households). Expansion shall constitute adding of new floor area, reduction of parking and open spaces, or any physical changes as determined by the Director of Community Development.

5. That the applicant shall work with the Community Development Department and the City Attorney's Office to make any permissible or required additions, deletions and/or amendments to the Density Bonus Housing Plan and to execute and record a Density Bonus Housing Agreement pursuant to GMC Section 30.36.140, to the satisfaction of the Director of Community Development or his designee and subject to approval as to form and content by the City Attorney. Such Density Bonus Housing Agreement shall restrict the rentals of the required percentage of dwelling units in the housing development to persons or families of very-low income households, as specifically identified in this approval. The applicant shall be required to execute and record such Density Bonus Housing Agreement prior to issuance of any and all required building permits.
6. That all affordable units shall be reasonably dispersed throughout the project site (e.g., throughout the different floors) and shall be comparable with the other dwelling units in the project in terms of appearance, finished quality and materials. Subject to requested changes necessary to comply with health and safety standards approved by the Director of Community Development or his designee, the unit type, size and location of the affordable units shall be to the satisfaction of the City's Housing Division.
7. That the affordability term shall not start until the date of recordation of the Housing Notice of Completion. The applicant shall notify the Housing Division at least six months prior to the anticipated date of the Certificate of Occupancy so that affordable units may be marketed in a timely manner.
8. That the premises shall be made available to any authorized City personnel (Fire, Police, Neighborhood Services, etc.) for inspection to ascertain that all conditions of approval of this Density Bonus application are complied with.
9. That approval of the Design Review Board shall be obtained prior to applying for or obtaining building permits.
10. That the developer shall comply with the City's Inclusionary Zoning Ordinance (IZO), as regulated by GMC Chapter 30.35.

APPEAL PERIOD, TIME LIMITS, LAPSE OF PRIVILEGES, TIME EXTENSIONS

The applicant's attention is called to the fact that this grant is not a permit or license and that any permits and licenses required by law must be obtained from the proper City and public agency.

Under the provisions of the Glendale Municipal Code, Title 30, Chapter 30.62, any person affected by the above decision has the right to appeal said decision to the Planning Commission if it is believed that the decision is in error or that procedural errors have occurred, or if there is substantial new evidence which could not have been reasonably presented. It is strongly advised that appeals be filed early during the appeal period so that imperfections/incompleteness may be corrected before the appeal period expires.

Any appeal must be filed on the prescribed forms within fifteen (15) days following the actual date of the decision. Information regarding appeals, appeal forms and fees will be provided by the Community Development Department (CDD) staff upon request by calling 818-548-2140.

The completed appeal form must be filed with the prescribed fee prior to expiration of the 15-day period, on or before **October 8, 2021**.

Due to the current COVID-19 social distancing and work from home orders issued by federal, state and local governmental agencies, in order for any appeal to be considered timely, **the appeal must be postmarked by the October 8, 2021 deadline (mailed to Community Development Department – Planning Division, Attention Aileen Babakhani, 633 East Broadway, Room 103, Glendale, CA 91206) OR emailed to the case planner Aileen Babakhani at ababakhani@glendaleca.gov prior to the close of said business day.** The prescribed fee must be included along with the appeal application and may be submitted either in the form of a check or credit card payment. For credit card payment, please contact the case planner to make arrangements with the cashier. Note: The standard 2.5% fee for credit card payment applies.

APPEAL FORMS available on-line <http://www.glendaleca.gov/appeals>

To save you time and a trip - please note that some of our FORMS are available on line and may be downloaded. AGENDAS and other NOTICES are also posted on our website. Visit us: <https://www.glendaleca.gov>

TRANSFERABILITY

This authorization runs with the land or the use for which it was intended for and approved. In the event the property is to be leased, rented or occupied by any person or corporation other than yourself, it is incumbent that you advise them regarding the conditions and/or limitations of this grant.

VIOLATIONS OF THESE CONDITIONS

Violations of conditions required by this determination may constitute a misdemeanor or infraction under Section 1.20.010 of the Glendale Municipal Code (GMC) and/or a

violation of other local, State or Federal laws or regulations. Unless a specific penalty is provided, any person convicted of a misdemeanor shall be punished by a fine not to exceed one thousand dollars (\$1,000.00), or imprisonment for a term not to exceed six (6) months, or by both fine and imprisonment. Infractions are punishable by a fine not exceeding the sum of five hundred dollars (\$500.00) for each violation.

Violations of conditions required by this determination may be grounds for a revocation. of conditions required by this determination may be grounds for a revocation.

TERMINATION AND EXTENSION

GMC CHAPTER 30.41 PROVIDES FOR

TERMINATION: Every right or privilege authorized by a Density Bonus Housing Plan shall terminate two (2) years after the granting of such, unless the exercise of such right or privilege has commenced in good faith prior to such time, except as otherwise provided for.

EXTENSION: An extension of the Density Bonus Housing Plan may be requested one time and extended for up to a maximum of one (1) additional year upon receipt of a written request from the applicant and demonstration that a reasonable effort to act on such right and privilege has commenced within the two (2) years of the approval date. In granting such extension the applicable review authority shall make a written finding that neighborhood conditions have not substantially changed since the granting of the Density Bonus Housing Plan.

NOTICE – subsequent contacts with this office

The applicant is further advised that all subsequent contacts with this office regarding this determination must be with the case planner, Aileen Babakhani, who acted on this case. This would include clarification, verification of condition compliance and plans or building permit applications, etc., and shall be accomplished **BY APPOINTMENT ONLY**, in order to assure that you receive service with a minimum amount of waiting. You should advise any consultant representing you of this requirement as well.

You may contact the case planner, Aileen Babakhani, during normal business hours at (818) 937-8331 or via e-mail at ababakhani@glendaleca.gov.

Sincerely,

PHILIP LANZAFAME
Director of Community Development

Glendale, CA 91208

City of Glendale
Community Development Department
Housing Division
141 North Glendale Avenue, Room 202
Glendale, CA 91206

Number of Dwelling Units Proposed:

Hamlet Zohrabians AIA (“Applicant”) has proposed the development of a new, density bonus rental housing project totaling twenty-two (22) residential dwelling units (the “Project”). The Project will provide a total of four (4) affordable units (15% of the total number of units of the base density of 21) to very low income households.

Maximum Number of Units Permitted per Glendale Municipal Code (“GMC”):

The Project is located in the C3-1 (Commercial Service) zone. The Project site (collectively APNs 5613-007-011 and 5613-007-012) has a lot area of 21,000 square feet. Multiple residential dwellings on C3 zoned properties with the ground floor level occupied with permitted commercial uses are subject to the provisions of sites zoned R-1250. Sites zoned R-1250 with more than 90 feet of frontage are permitted one (1) unit per 1,000 square feet, which permits a maximum density of 21 units per acre. By right, Applicant has a base density of twenty-one (21) units (21,000 divided by 1,000 = 21).

Number of Affordable Units Meeting Density Bonus Requirement:

Applicant is required to designate four (4) units as affordable to very low income households (15% of 21 base density units (3.15 rounded up to 4)). The affordable units were selected pursuant to the Density Bonus and Inclusionary Zoning Implementation Policies. The affordable units are detailed in Project floorplans attached hereto as Attachment 1, as well as immediately below:

Unit Number	Square Footage	Bedroom(s)	Bathroom(s)
203	768	1	1
205	1,113	3	2
211	1,032	3	2
306	940	2	2

Amount of Density Bonus Requested:

Pursuant to State Density Bonus Law (CA Government Code section 65915, *et seq.*), Applicant is entitled to a fifty percent (50%) density bonus by providing four (4) very low income units (15% of the base density of 21). With a fifty percent (50%) density bonus, the Project is permitted thirty-two (32) units ($21 \times 1.50 = 31.5$ (rounded up to 32)). Applicant is requesting a lesser density bonus of four point seven six percent (4.76%) however, for a total of twenty-two (22) units (one additional unit above the base density of 21). This request complies with State Density Bonus Law, as it is less than the maximum to which the Applicant is entitled.

Number and Description of Incentives and Concessions Requested:

Applicant has requested the following three (3) concessions pursuant to GMC 30.36.070A: to (1) not provide additional 1,499 square feet of open space as required by GMC 30.31.030 A.7; (2) exceed the maximum allowable lot coverage of 50% to 65.8%; and (3) reduce the common outdoor space by 1,865 square feet, where 4,400 square feet of common open space is required by GMC 30.11.050 C. Applicant is entitled to request three concessions under State Density

Bonus Law since the project will restrict at least fifteen percent (15%) of the base density units to very-low income households. (CA Government Code § 65915(d)(2)(C)

Amount of Parking Concessions Requested:

Applicant has also requested an automatic parking concession under California Government Code Section 65915(p), which provides that upon the request of an applicant, the City must allow the following vehicular parking ratios (inclusive of handicapped and guest parking), of a development providing at least fifteen percent (15%) of the base unit count to very low income households: one (1) on-site parking space per unit for zero to one bedroom units; and one and one-half (1.5) on-site parking spaces per unit for two to three bedroom units (collectively, the “Parking Concession”). The Project’s unit mix includes four (4) one-bedroom units, ten (10) two-bedroom units and eight (8) three-bedroom units. Based on the number of units and bedrooms provided, the Parking Concession requires a minimum of thirty-one (31) residential parking spaces. The Project exceeds the minimum requirement under the Parking Concession, and will provide forty-three (43) parking spaces total, designated for the residential units. Accordingly, the project meets and exceeds the parking requirements under the Density Bonus Law mandatory Parking Concession.

Child Care Space:

Not applicable.

Inclusionary Housing Requirement:

On May 7, 2019, the City adopted a Citywide Inclusionary Zoning Ordinance, Ordinance No. 5928, codified at GMC 30.35 (collectively, the “IZO”). The IZO became effective after a 30-day period on June 7, 2019. The IZO requires a housing development (a rental development project of eight (8) or more dwelling units proposed to be constructed in the City) to provide fifteen percent (15%) of the units as affordable to low income households. The Project is subject to the IZO.

The Project is required to provide four (4) affordable units to very low income households (15% of 21 base density units). Under the IZO (GMC 30.35.050(C)), “[t]o the extent required by state law, all affordable units required pursuant to the grant of a density bonus shall count toward the inclusionary unit requirement contained in this chapter. Very low income density bonus units shall be equivalent to low income inclusionary units.”

Therefore, the Project meets the IZO requirement through the requirement to provide four (4) affordable units to very low income households under Density Bonus (GMC 30.36). No additional affordable units are required under the IZO.

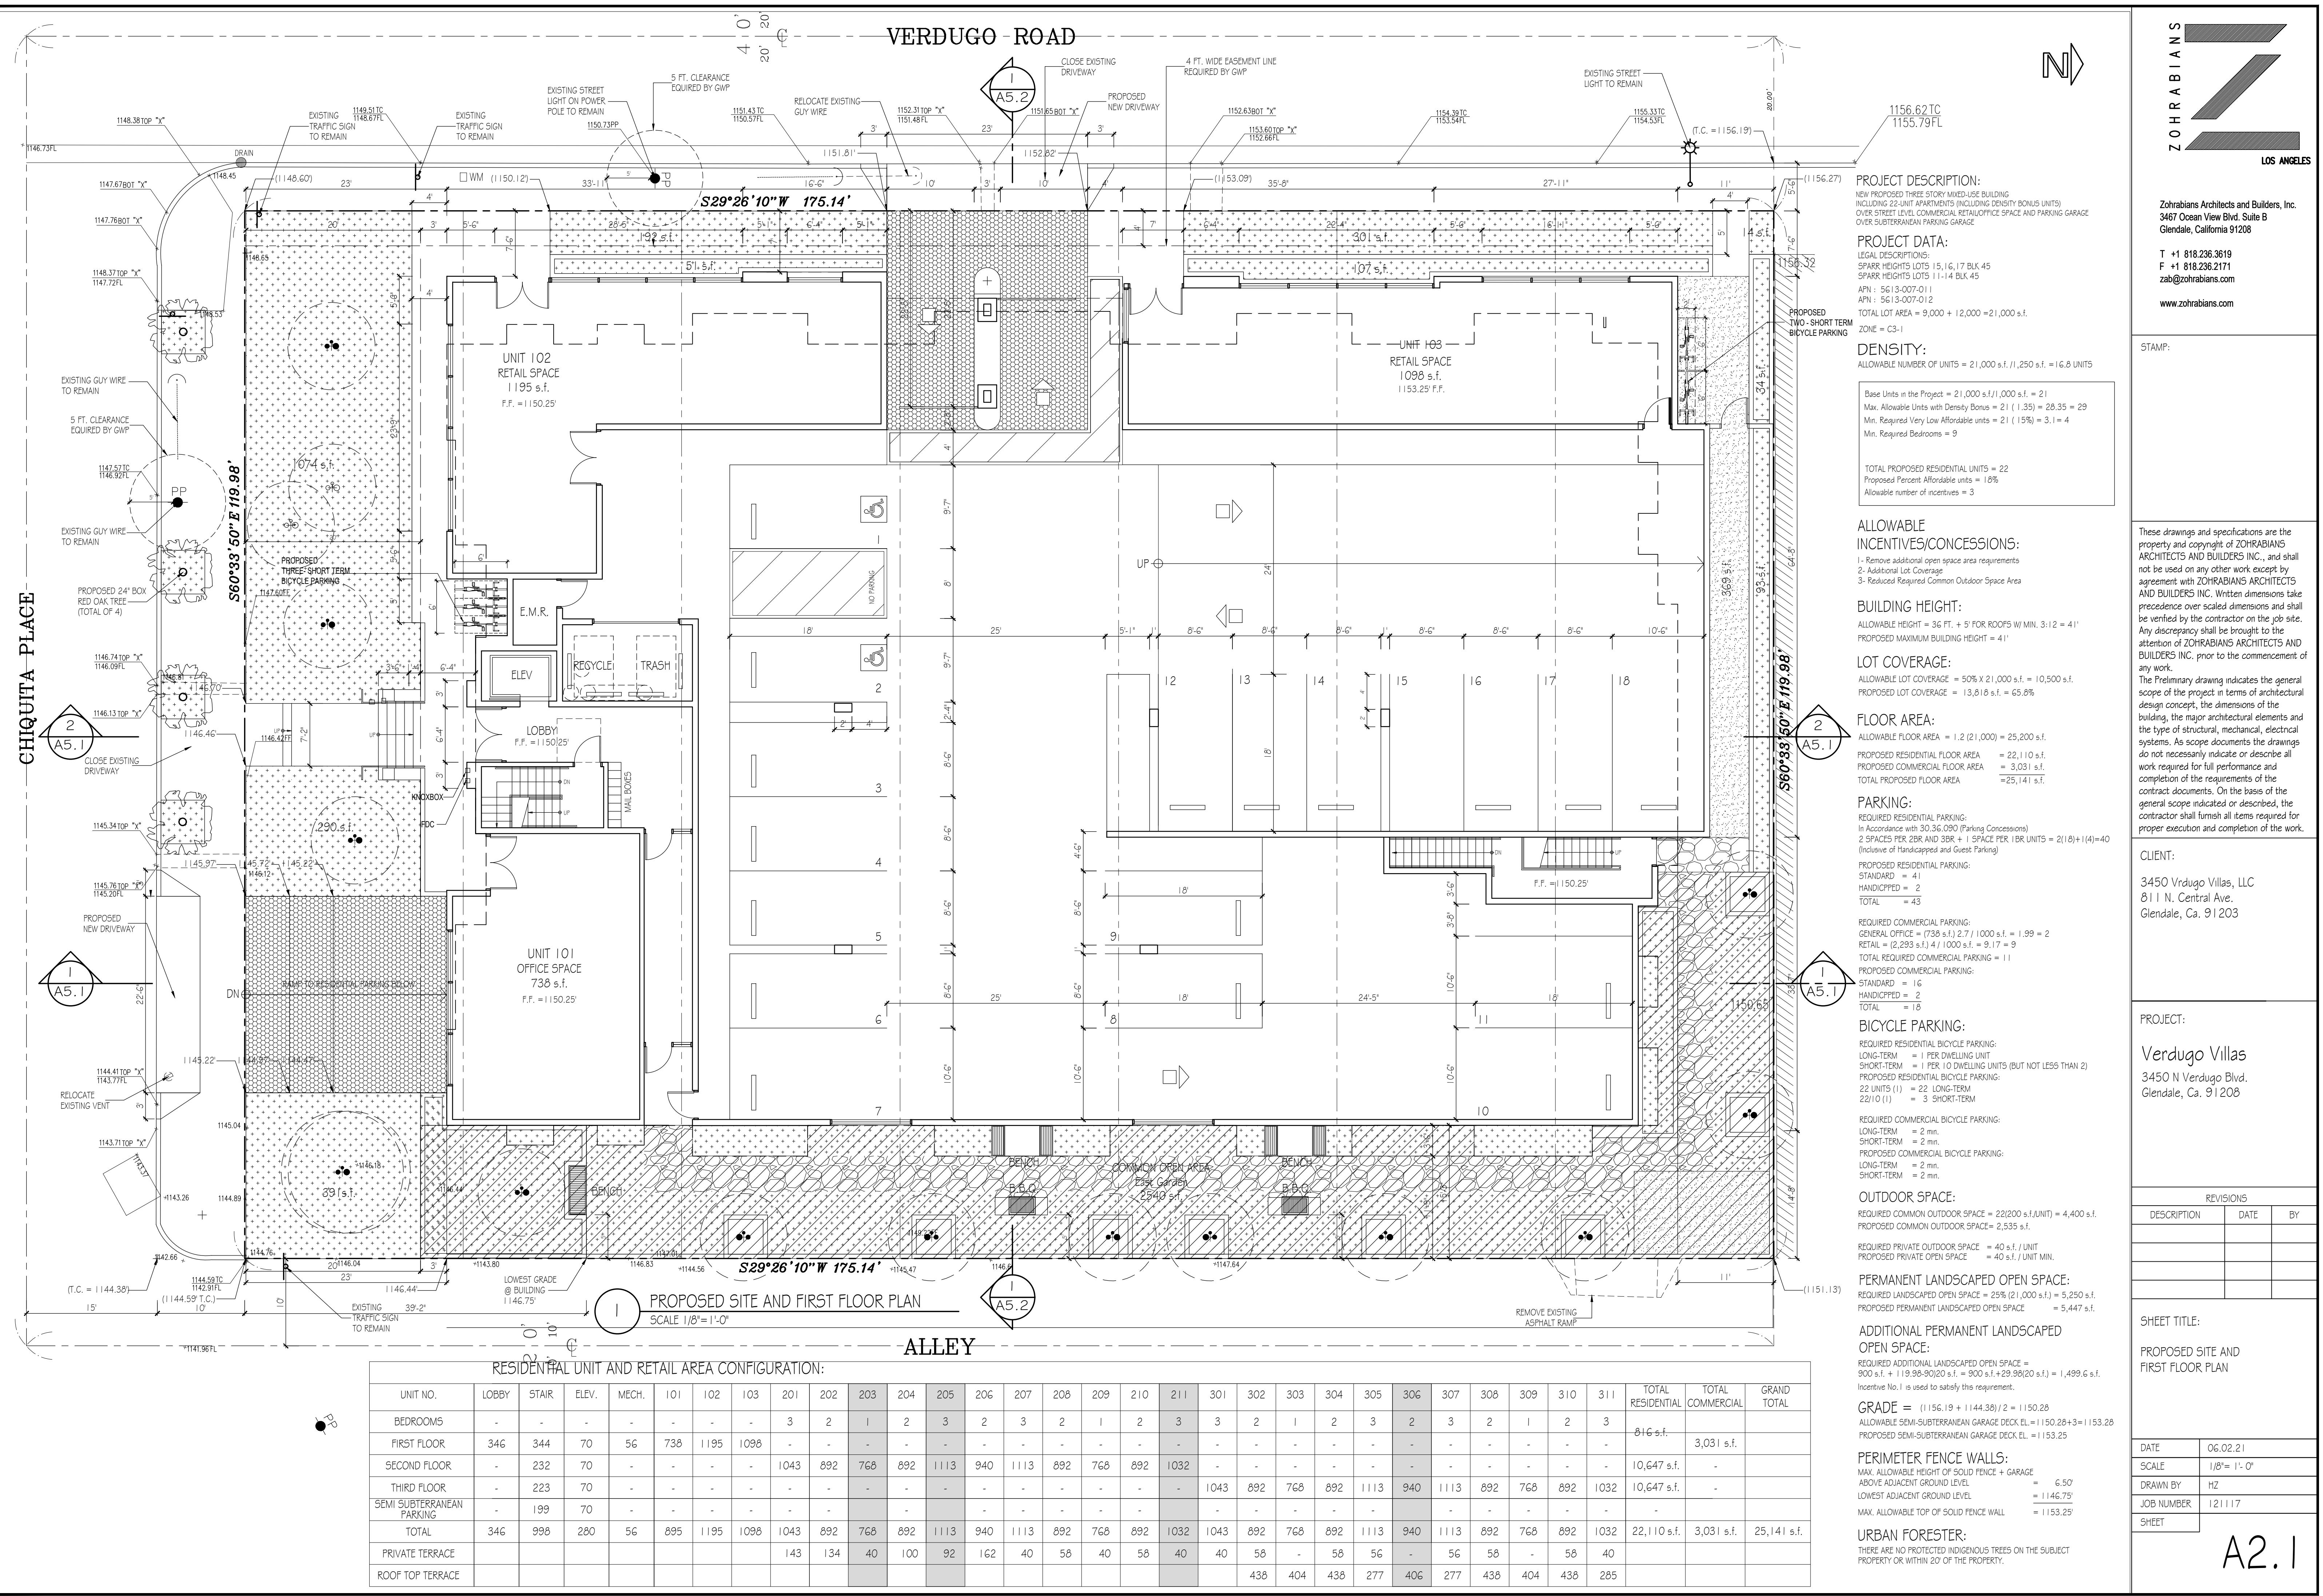

Affordable Housing Commercial Development Impact Fee:

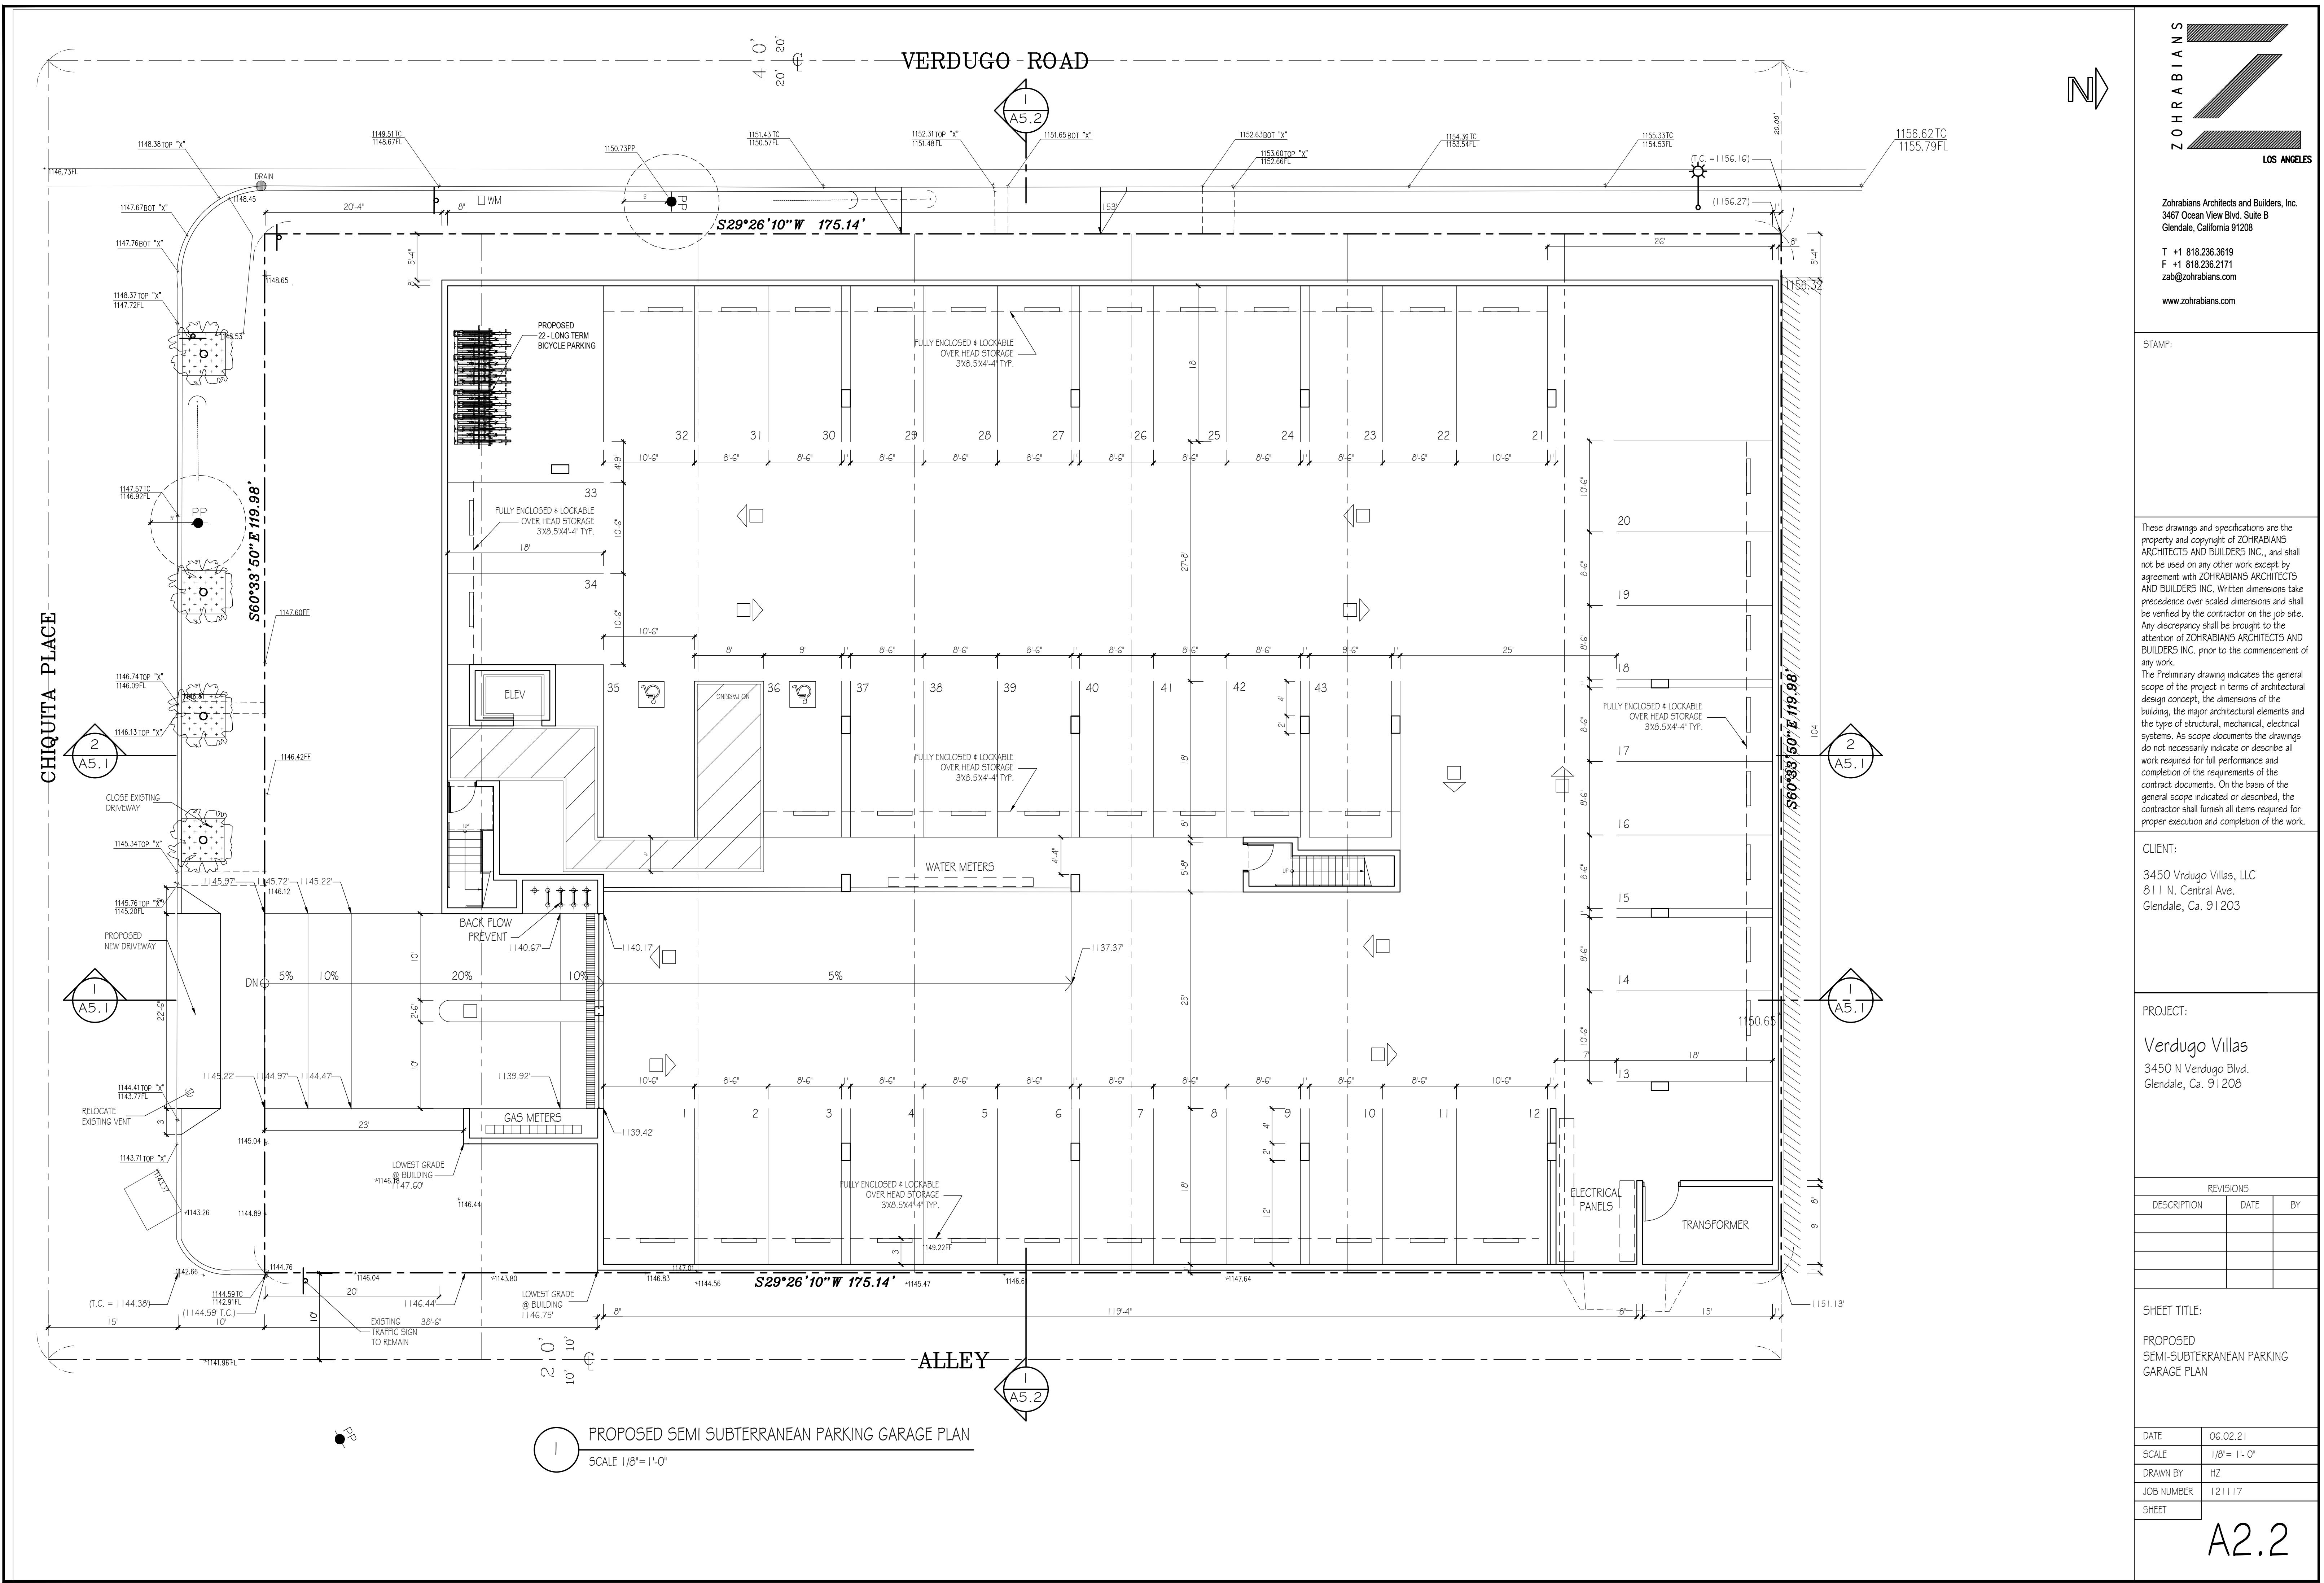

On May 7, 2019, the City adopted a Citywide Affordable Housing Commercial Development Impact Fee, Ordinance No. 5929, codified at GMC 4.11 (collectively, the “CDIF”). The CDIF became effective after a 60-day period on July 7, 2019.

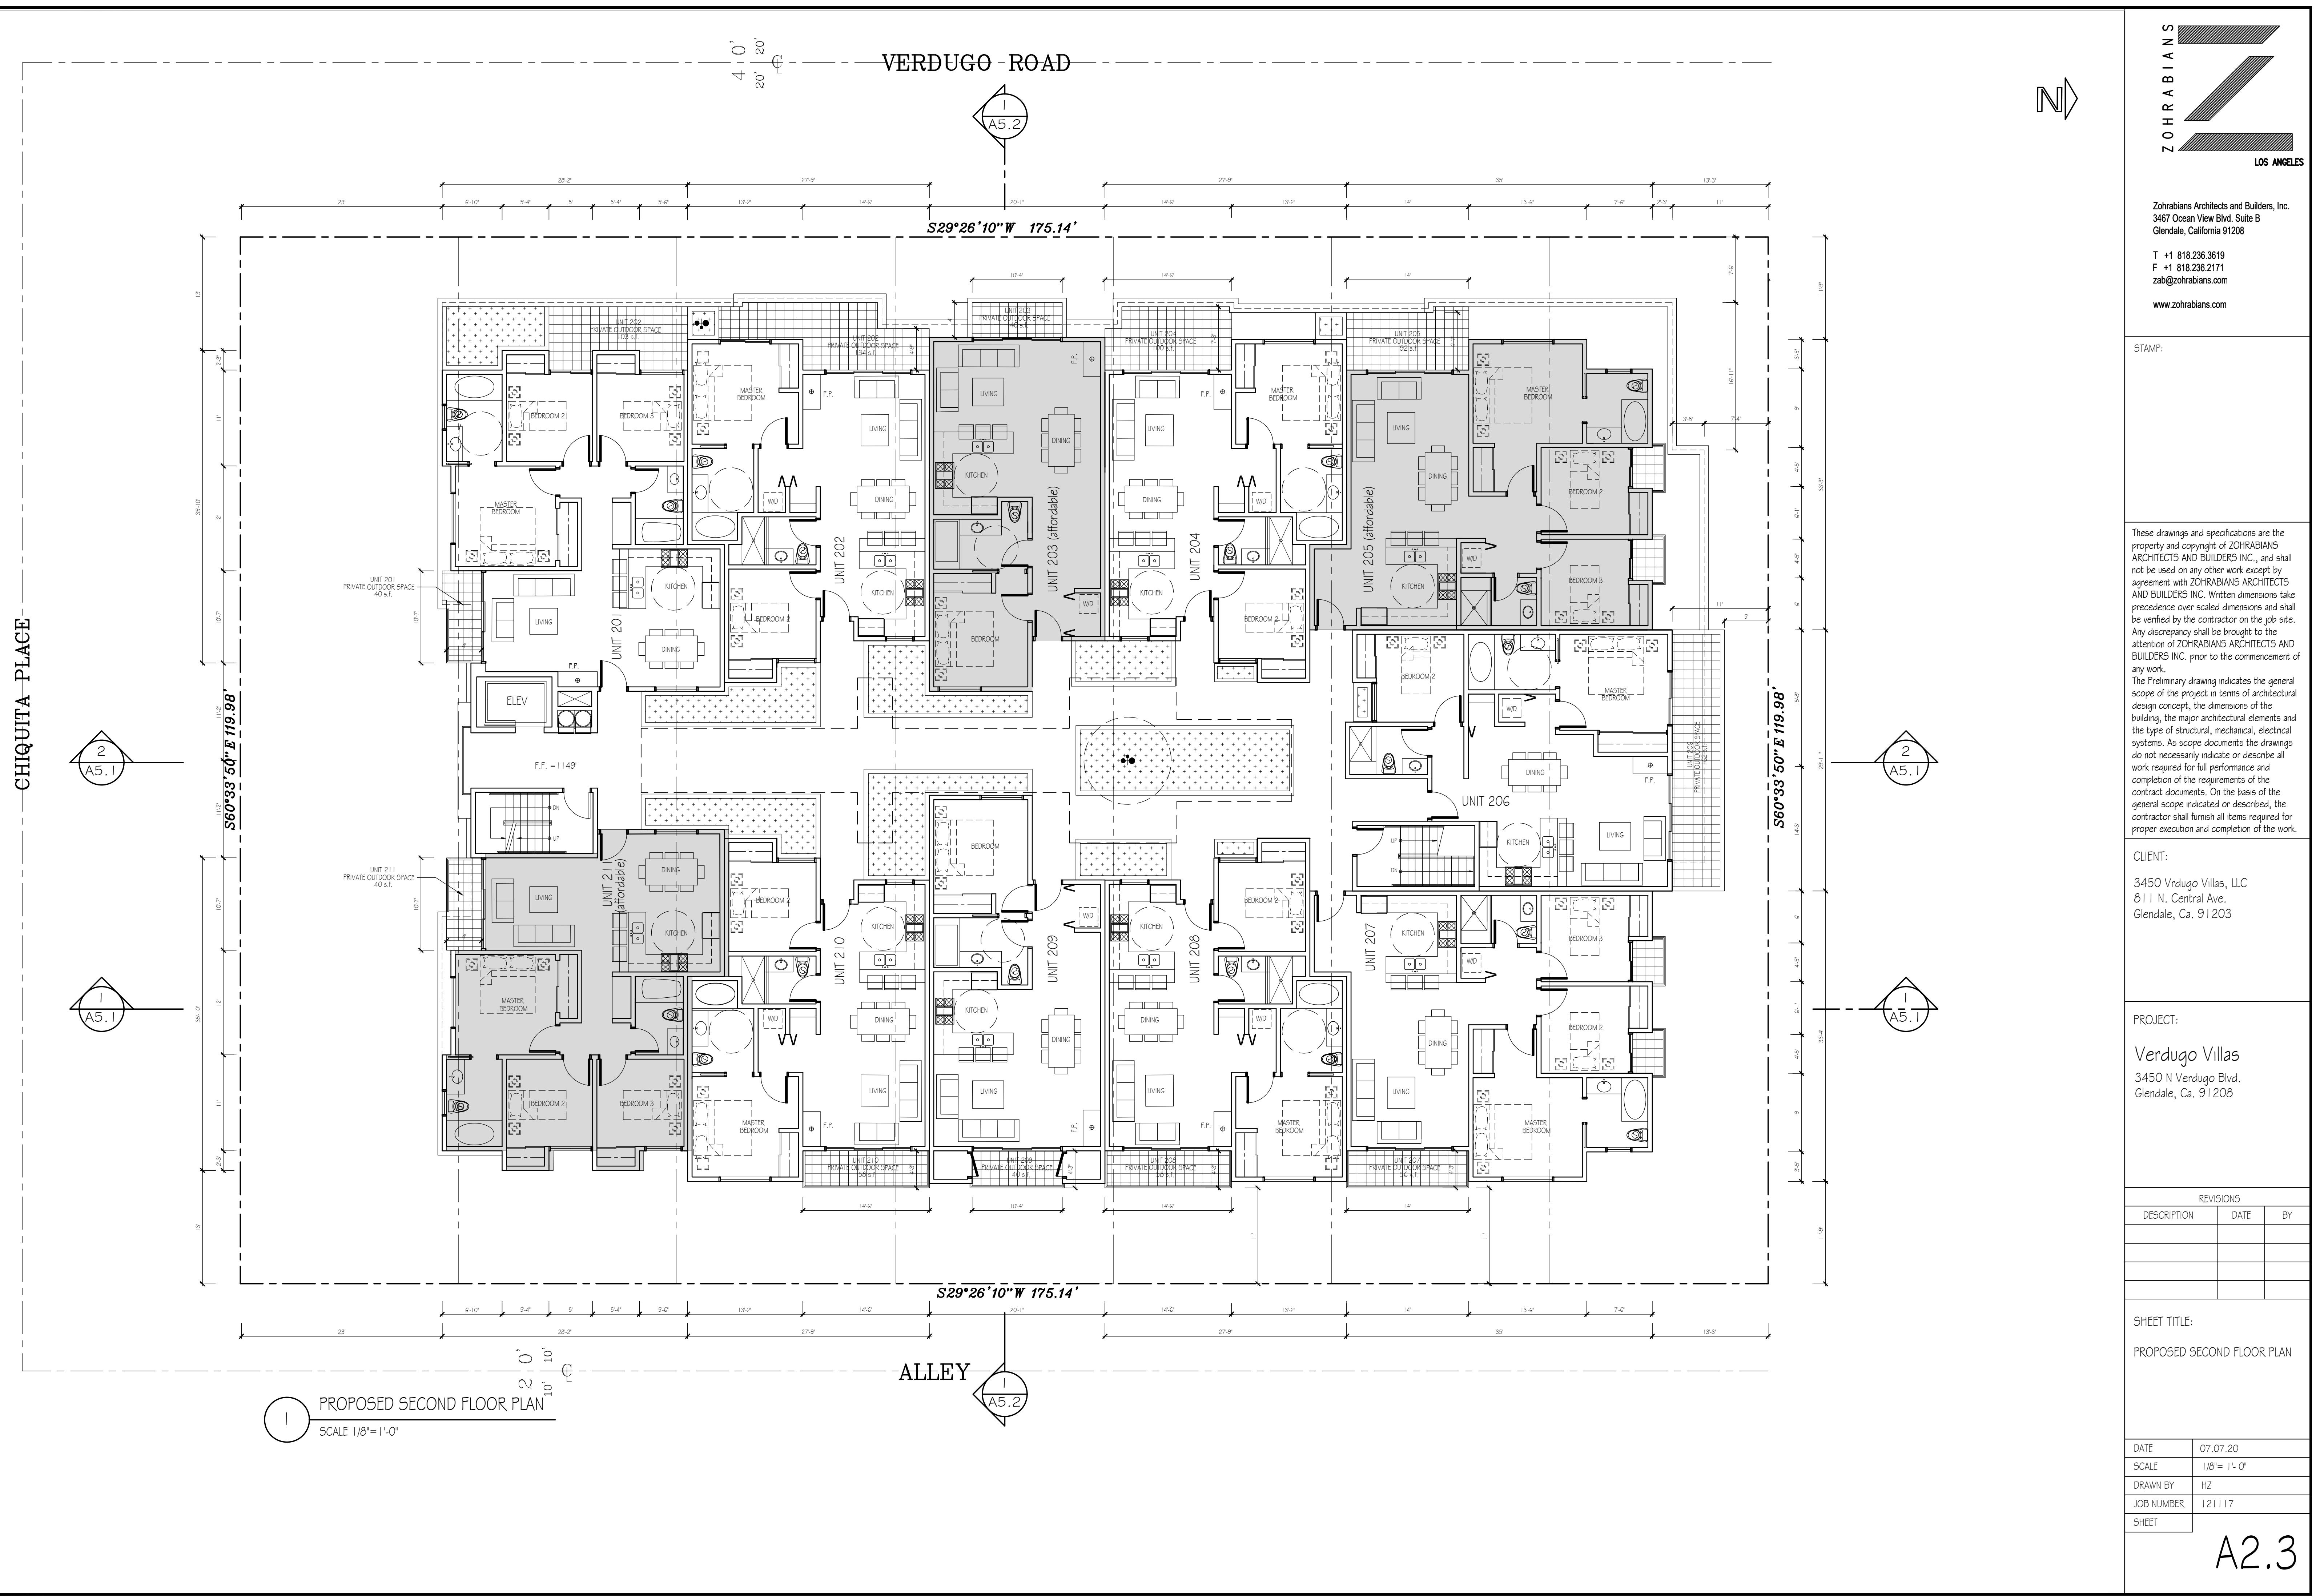

With the exception of hotels, auto dealerships, community land uses which serve the public, and the reconstruction of any building destroyed by fire, flood, earthquake or other act of nature (so long as the square footage does not exceed the square footage before the loss), the CDIF imposes a \$4 per square foot fee (per the FY 2020-2021 Citywide Fee Schedule) on all commercial development projects with a gross floor area exceeding 1,250 square feet. The Project is subject to the CDIF.

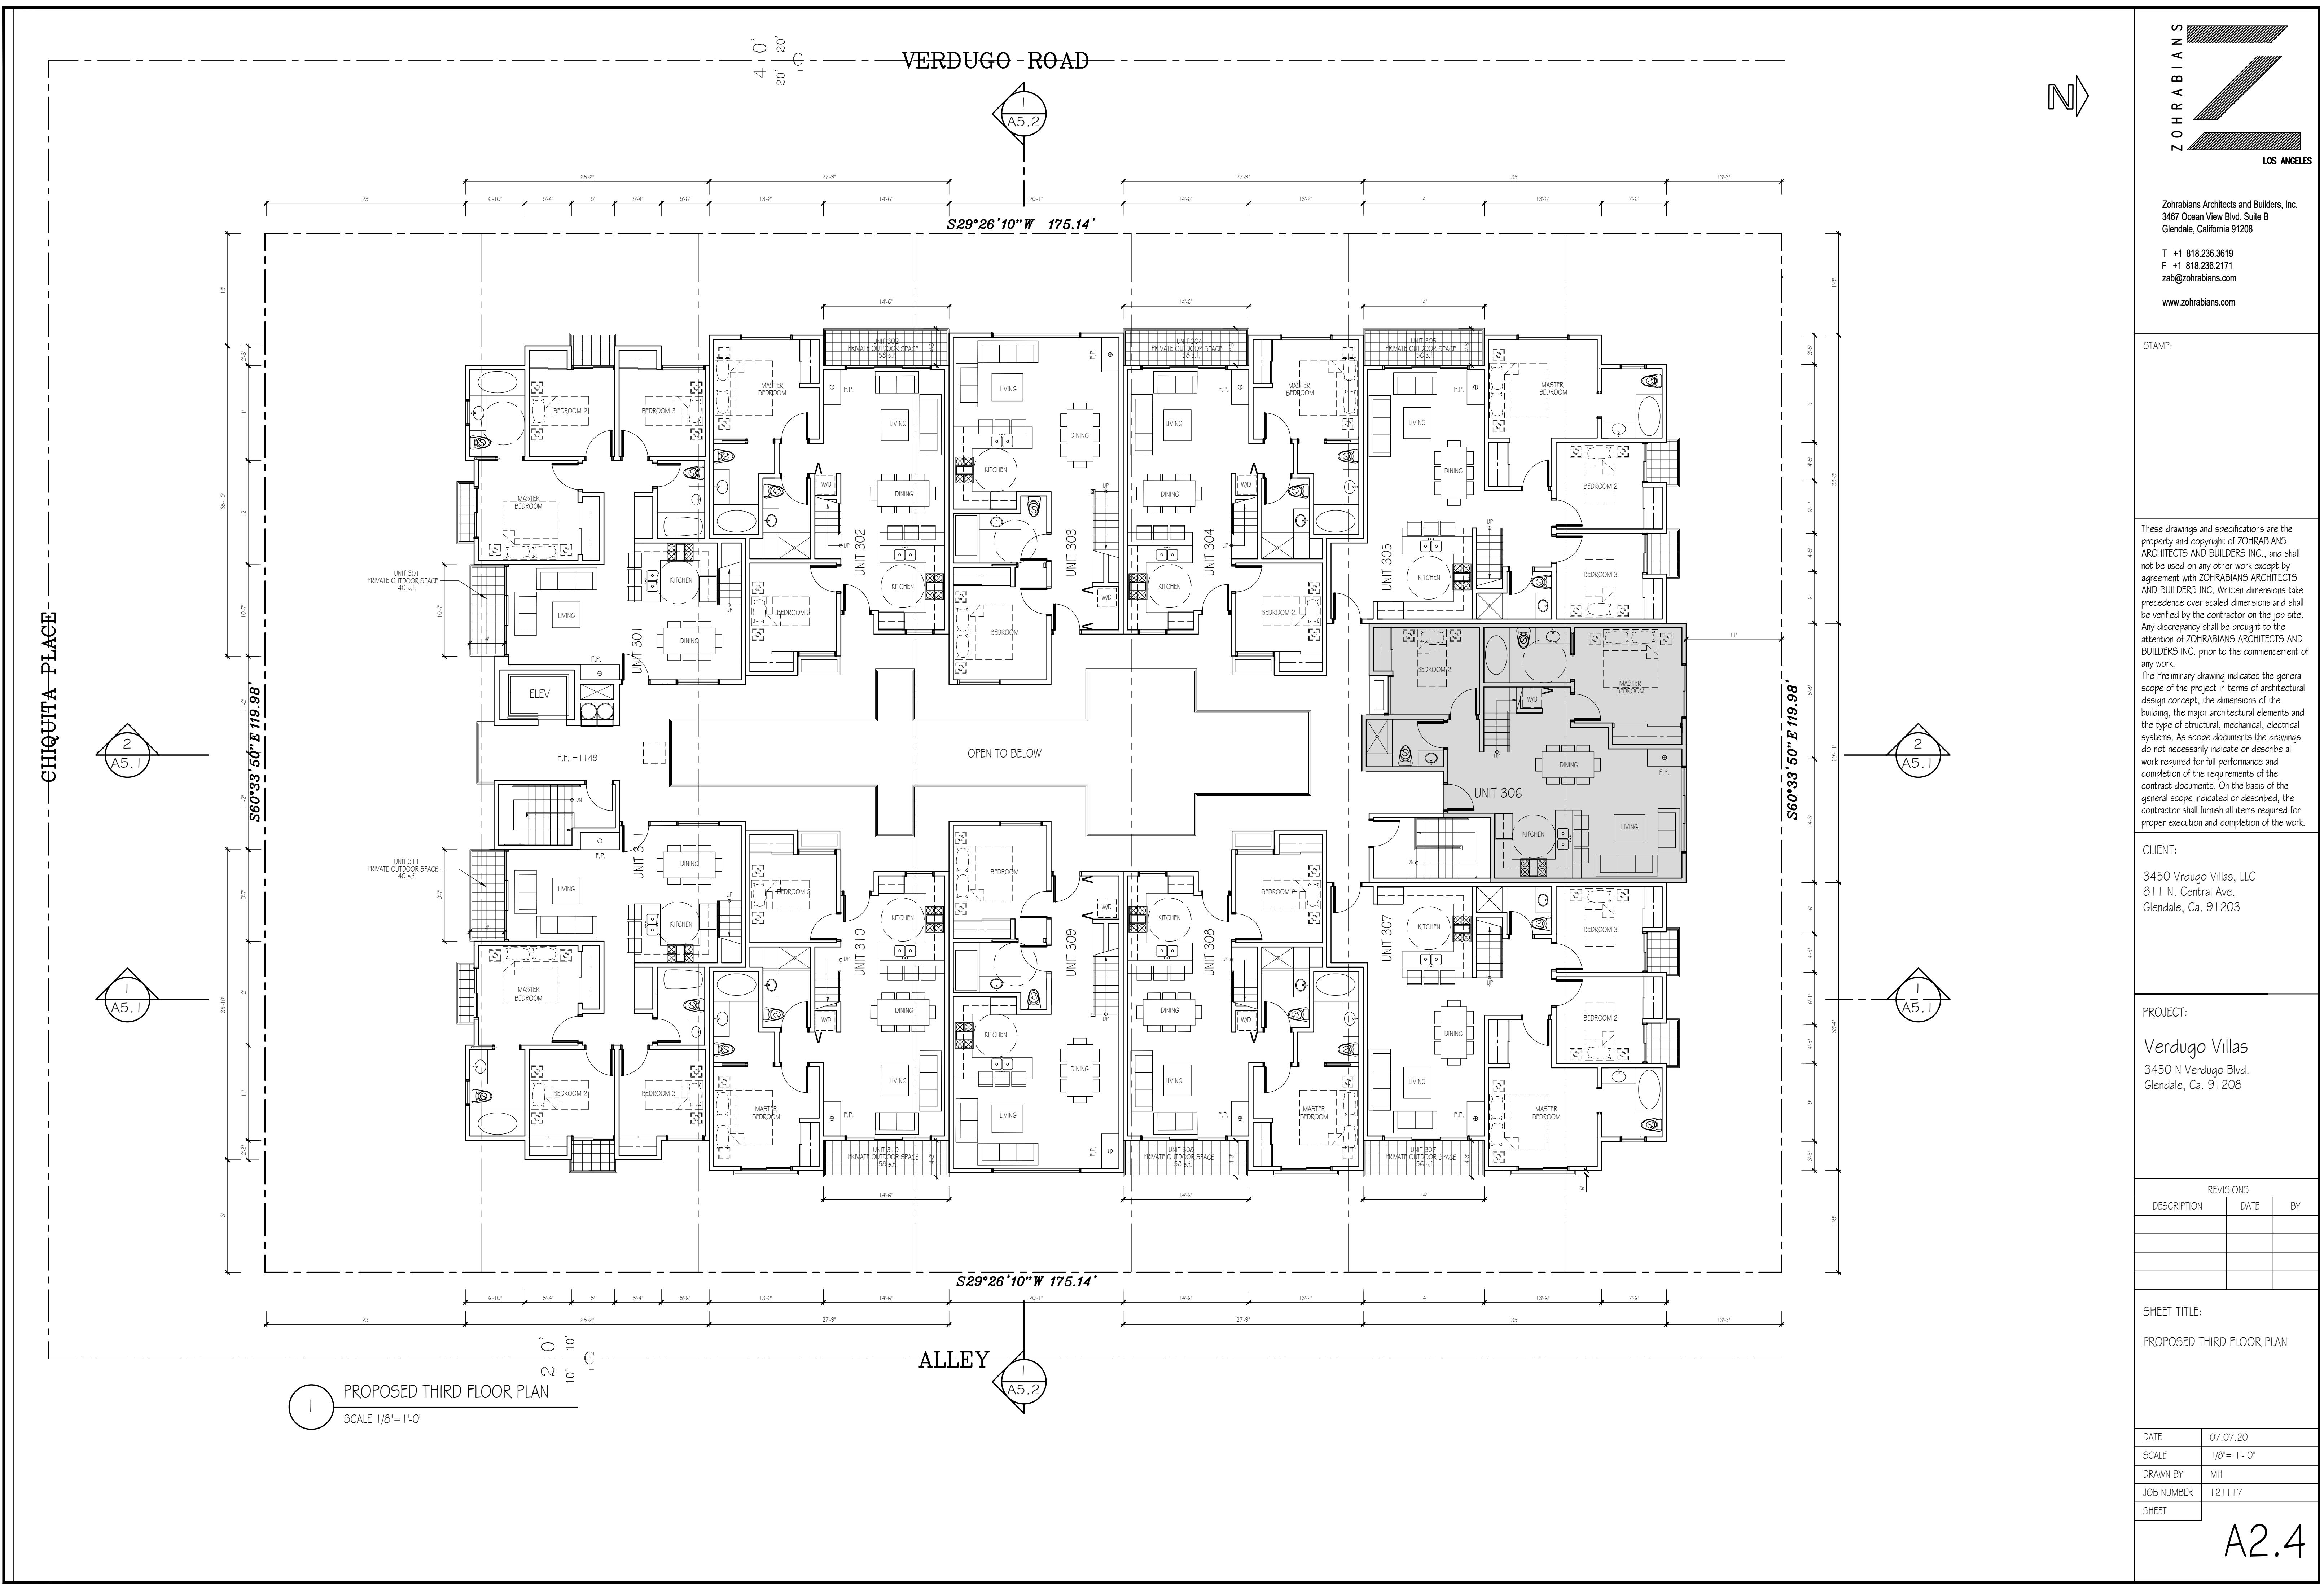

The Project involves the demolition of two (2) existing, one-story commercial buildings totaling 10,500 square feet with office, vehicle repair and storage use. 7,500 square feet of the existing commercial space is located on APN 5613-007-011 and 3,000 square feet is located on APN 5613-007-012.

The Project proposes 3,031 square feet of new, commercial office and retail space on the ground floor of the proposed development. The CDIF provides a demolition credit. Since the existing commercial square footages on the Project site (10,500 square feet) exceed the Project's newly proposed square footage of commercial office and retail space (3,031 square feet), the Project does not owe fees under the CDIF.

Class 32 Categorical Exemption Findings
3450 North Verdugo Road, Glendale, CA 91208

“Class 32 consists of Projects characterized as in-fill development meeting the conditions described in this section. (a) The Project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations. (b) The proposed development occurs within city limits on a Project site of no more than five acres substantially surrounded by urban uses. (c) The Project site has no value, as habitat for endangered, rare or threatened species. (d) Approval of the Project would not result in any significant effects relating to traffic, noise, air quality, or water quality. (e) The site can be adequately served by all required utilities and public services.” (14 Cal. Code Regs. § 15332)(“CEQA Guidelines”).

Project Description

The Project at 3450 North Verdugo Road is a 22-unit, 3-story mixed-use building with commercial uses (offices and retail) at the first floor and residential uses (22 units) at the second and third floor. The 3450 North Verdugo Road is located in the City of Glendale and identified as “Project” and comprises the “Project Site”.

The Project Site is zoned C3-I (Commercial Service-Height District I). The General Plan designation for the Project site is Community Services. The Project site is comprised of 21,000 square feet and is currently improved with two, one-story commercial buildings (built in 1923/1979) on seven adjoining lots, addressed at 3450 North Verdugo Road.

The Project site is bordered by the Glendale Freeway to the east, Broadview Drive Road to the north, Oceanview Boulevard to the west, and La Crescenta Avenue to the south. The Project Site is surrounded by existing urban uses, including commercial and residential buildings. Immediately to the east of the Project site is a community park (Montrose Community Park). The Project is immediately adjacent to commercial buildings to the north, south, and west (across Verdugo Road).

The proposed Project would demolish the existing two one-story commercial and service type buildings for construction of a new three-story, 41-foot in height Density Bonus and Inclusionary Housing, mixed-use building with commercial uses and 22 dwelling units, which four (4) of the units will be reserved for very-low income households. The proposed 25,141 square-foot building will include 3,031 square-foot office and retail uses at the first floor and 22,110 square-foot residential uses (four one-bedroom units, ten two-bedroom units, and eight three-bedroom units) at the second and third floor. A total of 61 parking spaces will be provided, which 43 parking spaces out of the 61 parking spaces will be located within a new one-level

subterranean parking garage, designated for the residential units with two handicap parking spaces. Eighteen (18) parking stalls for the commercial uses of the Project will be provided at the first floor. The Project is providing the required amount of parking per Glendale Municipal Code (GMC 30.32) and California Government Code Section 65915(p). The Project's pedestrians and vehicle accesses will be on Verdugo Road and Chiquita Place (side street).

The proposed Project provides at least 40 square feet of private open space for each residential unit and 2,535 square feet of common open space for residential uses.

a. The Project is consistent with the applicable general plan designation and all applicable general plan policies as well as with the applicable zoning designation and regulations.

The Land Use Element of the Glendale General Plan includes a goal to “Support the creation of higher density residential development and alternative forms of medium and high density housing in those areas best suited from the standpoint of accessibility, current development, community organization, transportation and circulation facilities and economic feasibility.” (Glendale General Plan Land Use Element, page 7.) The Project is consistent with and helps achieve this goal by redeveloping the underutilized Project site and existing structures and building new structures which will yield a total of 22 dwelling units in a mixed-use development with proximate access to public transportation to access neighborhood services on a daily basis. Moreover, the Project will advance the goals and policies of the General Plan, Housing Element (2014-2021), including, but not limited to, Chapter 2, 2.1.6 Goal 1 (“A City with a Wide Range of Housing Types to Meet the Needs of Current and Future Residents), Chapter 2, 2.1.9 Goal 4 (“A City with Housing Services that Address Groups with Special Housing Needs) and Policies 4.1 and 4.2 (“Encourage both the private and public sectors to produce or assist in the production of housing for special needs groups such as: the handicapped, the elderly, large families, single parent households, and formerly homeless.”) and (“Promote the development of extremely low, very low, low and moderate income housing by allowing developers density bonuses or other financial incentives for providing units for low and moderate income residents.

The proposed mixed use Project with 22 residential units will be consistent with the various elements and objectives of the General Plan. The Land Use Element of the General Plan designates the Project site as Community Services. The site is located in Area No. 3 (Montrose Business District) of Commercial Development Study Areas of Land Use Element. Area No.2 consists of the Montrose Shopping Park and commercial development along Verdugo Boulevard and Verdugo Road with an almost 50 percent dominant for commercial activities and retail services providing the second dominant use in the Area, serving the adjacent residential Areas.

Per North Glendale Community Plan, the site is located within Sparr Heights Business District, which is adjacent to Montecito Park residential district to the east and Sparr

Heights Residential District to the west. The district promotes its neighborhood serving commercial uses to create an increasingly vital and charming shopping district, while serving surrounding residential neighborhoods.

The Land Use Element is the most directly related to the approval of this use. All other elements of the General Plan will not be impacted as a result of the project. The project site has not been slated for open space or recreation, and will operate within compliance with the Noise Element thresholds. The Circulation Element identifies Verdugo Road as Major Arterial. These streets are characteristically the widest urban street and carry heaviest traffic volumes. They also distribute traffic to freeways, other arterials, collectors, activity, and business centers. Therefore, Verdugo Road is suitable for the proposed mixed-use Project. Additionally, the City's Traffic Engineer reviewed the Project and determined that no significant increase in traffic would occur as a result of the Project, as it would not generate a significant increase in the number of vehicle trips to and from the site.

The Project is consistent with its land use designation. Multiple residential dwellings on C3 zoned properties with the ground floor level occupied with permitted commercial uses are permitted use in this zone and subject to the provisions of sites zoned R-1250. In accordance with GMC 30.12.020. The Project also complies with all policies and all applicable zoning designations and regulations and no variances are required.

b. The proposed development occurs within city limits on a Project site of no more than five acres substantially surrounded by urban uses.

The Project Site is entirely within the City of Glendale. The site is approximately 21,000 square feet (0.48 acres), which is less than five acres in size. The Project Site is substantially surrounded by existing urban uses, including single and multifamily residential and commercial buildings. Immediately to the east of the Project site is a 14.5-acre community park (Montrose Community Park). The Project is immediately adjacent to a commercial building to north and there are commercial buildings to the west and south (across Verdugo Road and Chiquita Place). As the Public Resources Code (PRC) defines qualified urban use as "any residential, commercial, public institutional, transit or transportation passenger facility, or retail use, or any combination of those uses," the Project Site is substantially surrounded by urban uses. (PRC § 21072.)

c. The Project site has no value as habitat for endangered, rare or threatened species.

The Project Site is fully developed with two existing commercial buildings. The Project Site is not currently a habitat for endangered, rare, or threatened species, and no documentation exists which identifies the Project Site as such. There are no protected

trees on the Project Site. Therefore, the site does not contain or have value as a habitat for endangered, rare or threatened species.

d. Approval of the Project would not result in any significant effects relating to traffic, noise, air quality or water quality.

A short-term construction and long-term operational activities associated with the Project would not constitute a significant noise impact. The Project would not result in any significant impacts related to traffic, noise, air quality or water quality. The Project would be constructed to reduce interior noise to acceptable levels as required by the building code, and the Project is not anticipated to generate noise in excess of limits contained in the Noise Element. Construction associated with the Project will be required to comply with the City of Glendale Noise Ordinance (GMC Chapter 8.36), which prohibits construction activities between the hours of 7:00 PM on one day and 7:00 AM of the next day or from 7:00 PM on Saturday to 7:00 AM on Monday or from 7:00 PM preceding a holiday. Compliance with the City's noise ordinance would ensure that noise impacts will be less than significant.

An Air Quality and Greenhouse Gas study prepared by Urban Crossroads, dated August 3, 2021, and reviewed by City staff (attached hereto as Exhibit "A" and incorporated herein by this reference), found that the Project would comply with local regulatory measures, and that neither construction nor operation of the Project would result in significant air quality or greenhouse gas impacts.

Because the proposed infill development would redevelop land that is fully developed with urban uses, construction would not impact water flows or water quality. The Project would comply with the City's Low Impact Development (LID) Guidelines set forth in Chapter 13.43 of the GMC and with applicable state and federal regulations. Such LID standards are designed to minimize the impervious area footprint, prevent pollutants of concern from leaving the development site in stormwater as the result of storms, and minimize hydromodification impacts to natural drainage systems. (GMC § 13.43.040(A). Compliance with these regulations will ensure that the Project would not result in a significant impact to water quality. Existing utilities would provide water supplies and wastewater treatment services to the subject property.

Vehicle Miles Traveled

In 2018, the State of California amended the California Environmental Quality Act (CEQA) Guidelines Appendix G question for transportation impacts to delete reference to vehicle delay and level of service and instead refer to Section 15064.3, subdivision (b)(1) of the CEQA Guidelines asking if the Project will result in a substantial increase in VMT. Accordingly, the City of Glendale adopted VMT as the metric for assessing transportation impacts for land use Projects. To comply with the requirements of the California Environmental Quality Act (CEQA) and Senate Bill 743 (SB 743), development Projects in the City of Glendale must conduct vehicle miles traveled

(VMT) analysis to evaluate a Project's potential significant impacts. The City has prepared Transportation Analysis (TIA) Guidelines, to provide guidance on whether a Project can be screened out of a detailed VMT analysis, or if the applicant would need to perform a detailed VMT analysis. The guidelines include detailed guidance for conducting an SB 743-consistent transportation impact analysis of VMT as well as assessing significant impacts related to public transit, pedestrians, bicyclists, hazards/design features, and emergency access.

The Project is eligible to screen out of a detailed Vehicle Miles Traveled (VMT) analysis because according to Section 2.1.2.1 of the City's Transportation Analysis Guidelines, Projects that generate fewer than 145 daily vehicle trips can be presumed to cause a less-than-significant transportation impact and would not require a detailed VMT analysis; this should be based on the proposed Project's total uses without taking a credit for existing uses. As proposed, the Project is considered small Project, which is estimated to generate 93 net peak-hour trips and is screened out of VMT analysis. As such a detailed VMT analysis is not required and the Project would have a less-than-significant VMT impact

e. The site can be adequately served by all required utilities and public services.

There will not be a considerable increase in demand for services or utilities due to Project implementation. The Project would be located in an existing urban area with existing buildings that have been adequately served by existing public utilities and services. All new construction on site will be served by the same existing public utilities and services. These services include water, electricity, solid waste collection and sewer services provided by the City of Glendale. Accordingly, the Project will be adequately served by all required utilities and public services.

**Exceptions to Categorical Exemptions
(CEQA Guidelines Section 15300.2)**

Proposed Findings

- a. Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the Project is to be located -a Project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply in all instances, except where the Project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.**

Because the Project is relying on Class 32 exemption, this exception does not apply.

b. Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive Projects of the same type in the same place, over time is significant.

There is not a succession of known Projects of the same type located in the same place as the subject Project. Since this Project qualifies for a Class 32 Categorical Exemption and is subject to Regulatory Compliance Measures, no cumulative impacts are anticipated. Further, the proposed mixed-use building with 22 residential units do not exceed thresholds identified for impacts to the area (including noise, traffic, and air quality) and will not result in significant cumulative impacts.

c. Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

The Project proposes a mixed-used building in an area zoned and designated for such use. Other similarly situated sites could be developed in the same manner and there is nothing unusual about the Project Site. Adjacent and nearby lots are developed with commercial and residential buildings. The properties across Verdugo Road and Chiquita Place are developed with commercial buildings. No unusual circumstances are present or foreseeable.

d. Scenic Highways. A categorical exemption shall not be used for a Project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway.

The Project Site is located in an urban environment, and is bordered by Glendale Freeway to the east, Broadview Drive Road to the north, Oceanview Boulevard to the west, and La Crescenta Avenue and urban developments with local streets to the south. The Project Site is surrounded by existing urban uses, including commercial and residential buildings. According to information on the California Department of Transportation's State Scenic Highway Program, there are no state scenic highways in the vicinity of the Project Site.

e. Hazardous Waste Sites. A categorical exemption shall not be used for a Project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.

The Project Site is developed and is not within a designated hazardous site. The Project Site is not located on the California Department of Toxic Substances Control's Hazardous Waste and Substances Site List-Site Cleanup (Cortese List), nor is it listed on the EnvironStor database. Further, the Project Site is not on the following lists maintained by the State Water Board: Leaking Underground Storage Tank Sites, Solid Waste Disposal Sites, or Active Cease and Desist Orders and Cleanup and Abatement Orders. The Project Site is also not identified on the list of hazardous waste facilities

subject to corrective action pursuant to Section 25187.5 of the Health and Safety Code, identified by the Department of Toxic Substances Control.

f. Historical Resources. A categorical exemption shall not be used for a Project which may cause a substantial adverse change in the significance of a historical resource.

The Project Site at 3450 North Verdugo Road is not listed on the National Register of Historic Places, California Register of Historical Resources, or Glendale Register of Historic Resources, and has not been identified as a historic resource in any survey. The Project Site is therefore not a historic resource under CEQA.

1.3 User Entered Comments & Non-Default Data

3450 N Verdugo Road - South Coast AQMD Air District, Summer

Project Characteristics - New mixed use building (22-unit multi-family residential) and 3,301 SQ.FT commercial (office 738 sq.ft/retail, 2,293 sq.ft) for total of 25,141 SF

Land Use - 21,000 SF lot area (0.48 acre); 22 multi-family dwelling units, 738 SF office, 2,293 SF retail, 13,832 SF subterranean parking.

Construction Phase - Demo/site prep will occur over a month. Grading will occur over a 3 months. Construction 12 months. Paving 2 months

Grading - 8,180 cubic yards of export; 260 cubic yards of fill (7,660 CY of total export)

Demolition - 10,500 SF of demolition

Energy Use -

1.3 User Entered Comments & Non-Default Data

3450 N Verdugo Road - South Coast AQMD Air District, Winter

Project Characteristics - New mixed use building (22-unit multi-family residential) and 3,301 SQ.FT commercial (office 738 sq.ft/retail, 2,293 sq.ft) for total of 25,141 SF

Land Use - 21,000 SF lot area (0.48 acre); 22 multi-family dwelling units, 738 SF office, 2,293 SF retail, 13,832 SF subterranean parking.

Construction Phase - Demo/site prep will occur over a month. Grading will occur over a 3 months. Construction 12 months. Paving 2 months

Grading - 8,180 cubic yards of export; 260 cubic yards of fill (7,660 CY of total export)

Demolition - 10,500 SF of demolition

Energy Use -
