**RE: 343 NORTH CENTRAL AVENUE  
PARKING REDUCTION PERMIT CASE NO. PPRP1923609  
(Phoenicia Restaurant)**

(SEE: ADMINISTRATIVE USE PERMIT NO. PAUP1923610)

Dear Mr. Kalfayan:

On July 14, 2021, the Planning Hearing Officer conducted and closed a public hearing, pursuant to the provisions of the Glendale Municipal Code, Title 30, Section 30.50, Parking Reduction Permit for 59 parking spaces. The project proposes to construct a new 2,865 square-foot outdoor rooftop deck above an existing outdoor covered patio, located at **343 North Central Avenue**, in the “DSP-TD” – Downtown Specific Plan, Transitional District, and “R-1250-PS” – High Density Residential Parking Structure Overlay Zones, described as Portions of Lots 9 and 10, Glendale Home Tract Lots 11, 11A and a Portion of a Vacated Alley, Glendale Home Tract (Assessor Parcel No. 5637-005-044), in the City of Glendale, County of Los Angeles.

The existing restaurant provides 60 parking spaces off-site, 12 parking spaces on the adjacent lot addressed as 310 West Lexington Drive and 48 parking spaces across the street at 315-317 West Lexington Drive.

**APPLICANT'S PROPOSAL**

**Parking Reduction Permit**

(1) To expand the existing full-service restaurant by adding a new 2,865 square-foot outdoor rooftop deck without providing the required number of parking spaces on-site. The rooftop deck expansion requires 59 spaces. The existing restaurant provides 60 parking spaces off-site, 12 parking spaces on the adjacent lot addressed as 310 West Lexington Drive, and 48 parking spaces across the street at 315-317 West Lexington Drive.

### CODE REQUIRES

(1) Based on GMC 30.32.050, 2.7 parking spaces are required per 1,000 square feet of general office space and 5 parking spaces are required per 1,000 square feet of medical office space. The proposed building includes 2,622 square feet of general office space and 2,352 square feet of medical/dental office space and, therefore, would require 19 parking spaces.

### ENVIRONMENTAL DETERMINATION

The project is exempt from CEQA review as a Class 1 "Existing Facilities" exemption pursuant to State CEQA Guidelines Section 15301 because the project involves an addition to an existing structure, which results in less than 10,000 square feet and all exiting utilities are in place to serve the building and the project is not located in an environmentally sensitive area.

After considering the evidence presented with respect to this application, the plans submitted therewith, the Community Development Department has **APPROVED WITH CONDITIONS**, the Parking Reduction Permit, based on the following findings:

### **REQUIRED/MANDATED FINDINGS**

Pursuant to Chapter 30.50.040 (D) of the Glendale Municipal Code, for any request for parking reduction, the Director may require a parking demand study conducted by a licensed traffic engineer or other transportation professional satisfactory to the Director of Community Planning. A request for parking reduction permit may be granted only if the reviewing authority makes the following findings of fact:

**NOTE: The applicant's case is based on findings for sub-section D.**

**D. FOR ANY OTHER CIRCUMSTANCE WHERE THE APPLICANT WISHES TO REQUEST A PARKING REDUCTION, SUCH REDUCTION MAY BE GRANTED WHERE THE REVIEW AUTHORITY FINDS THAT:**

**1. The parking need for the land use is not as great as for similar land uses or the parking requirement for the land use established in the Zoning code is greater than what will be needed by the land use.**

The existing restaurant currently has two buildings on-site totaling 8,882 square feet. The applicant is proposing to expand the restaurant by constructing a new 2,865 square-foot outdoor rooftop deck above the existing outdoor covered patio. The new rooftop deck would require 15 new parking spaces. Currently, the restaurant provides for two off-site parking lots totaling 60 combined parking spaces which was previously approved in November 2014 through a Parking Use Permit. A 12-space off-site parking lot (owned and operated by the applicant) is located at 310 West Lexington directly west of the restaurant, and another parking lot with 48 spaces is directly across the street at 315-317 West Lexington. This parking lot is leased by the applicant.

The existing restaurant along with the new outdoor deck would require a total of 59 parking spaces. Because the restaurant has no on-site parking available, a Parking Reduction Permit is being requested. The project in itself provides for a total of 60 parking spaces on two off-site parking lots which results in a surplus of one parking space.

**2. The intent of the parking regulations, in compliance with all other applicable provisions of this chapter, is met.**

The minimum required parking for both the existing and new rooftop deck is being provided on two off-site parking lots that has previously been approved through a Parking Use Permit. The Parking Reduction Request is to update what was previously approved and to provide the minimum required parking spaces for the new rooftop deck. Even with the addition, the minimum parking required provides a surplus on two off-site parking lots.

**3. Sufficient parking would be provided to serve the use intended and potential future uses of the subject parcel.**

The parking required for the existing restaurant requires 44 parking spaces. In November 2014, a Parking Use Permit was approved for two off-site parking lots totaling 60 parking spaces. There is an excess of 16 parking spaces and with the new addition of the rooftop deck, 15 spaces are required. Overall, with the existing restaurant and new rooftop deck, the total parking spaces provided is 60 spaces with a surplus of one parking space.

## **CONDITIONS OF APPROVAL**

**APPROVAL** of the Parking Reduction Permit shall be subject to the following conditions:

1. That the development shall be in substantial accord with the plans submitted with the application except for any modifications as may be required to meet specific code standards or other conditions stipulated herein to the satisfaction of the Planning Hearing Officer.
2. That any expansion or modification of the facility or use which intensifies the existing business shall require a new Administrative Use Permit application. Expansion shall constitute adding floor area, increased hours of operation, changes to the use or operation, or any physical change as determined by the Planning Hearing Officer.
3. That all necessary licenses, approvals and permits as required from Federal, State, County or City authorities including the City Clerk shall be obtained and kept current at all times.

8. That an Acceptance Affidavit accepting the permit and all its conditions shall be signed, notarized recorded at the L.A. County Recorder, and submitted prior to the issuance of a Business Registration Certificate.
9. That all signs displayed shall conform to the requirements of the Glendale Municipal Code.
10. That the applicant shall monitor the area under its control, in an effort to prevent the loitering of persons about the premises.
11. That no outside storage shall be allowed on the site.
12. That the parking area shall be kept adequately illuminated for security purposes during all hours of darkness. Lighting fixtures shall be installed and maintained in the parking area in those areas where street lights do not effectively illuminate the premises.

15. That no speaker systems shall be installed in the parking area or the new deck above the existing outdoor covered patio.
