Glendale, California 91206

Address	Description	Type	Date Submitted	Case Planner
337 N CEDAR STREET	Tentative tract map application proposing a condominium conversion of an existing 4-unit apartment building and one detached single family residence on (total of five units) on a 10,840 SF lot zoned R-1650.	Tentative Map	September 1, 2023	Vilia Zemaitaitis VZemaitaitis@glendaleca.gov
354 W WILSON AVENUE	6-unit new condominium project. New building is under construction.	Tentative Map	September 5, 2023	Aileen Babakhani ABabakhani@glendaleca.gov
	<p>The owners, Kimberly Chavez and Jared Goodner, recently purchased the property at 1319 Loreto Drive in Glendale, CA in the Rossmoyne neighborhood. The purchased home on the property included a 266 square-foot sunroom on the second story, which does not follow the historic guidelines in the Rossmoyne district and unbeknownst to the owners was unpermitted. Unfortunately for the owners, they had intended to use this space for an additional bedroom for their family.</p> <p>Secondly, the addition of the sunroom made the area adjacent (main stair) and under it (kitchen) susceptible to water leaks and damage. In order to remedy these issues, the owners would like to propose replacing the sunroom with an addition on the second floor that would better incorporate itself into the design of the original home.</p> <p>The proposed project includes demolition of the existing sunroom and replaces it</p>			

1319 LORETO DRIVE

with a new bedroom and bathroom. The scope of work also includes adding a new roof above and an enclosure around the bedroom and bathroom. The design intends to tie together the new and old parts of the home and reestablish the character of the existing house, while abiding by the historic guidelines set by the City of Glendale for the Rossmoyne Historic District. Specifically, the project proposes to integrate the addition into the original home's massing and continue the clay-tile roof and stucco facade that match the original Spanish Colonial design. The project will not involve modification of the existing building footprint.

A variance is being requested for this project because the proposed addition triggers Glendale, California Municipal Code 30.32.05, which requires dwelling units with a gross floor area between 0-3,499sf to have two (2) off street covered parking spaces at the dimensions required in section 30.60.040.G. However, this dwelling unit at 3,028 square-foot cannot meet these requirements due to the original building siting of the property in 1930.

Section 30.60.040.G requires the two (2) off street covered parking spaces to be side-by-side with a minimum interior dimension of sixteen (16) feet wide by eighteen (18) feet deep with a minimum 16-foot wide garage door opening. The existing garage on the property from 1930 has an interior dimension of 19'-3" wide and 15'-1" deep with a garage door opening of 12'-7". The garage door width cannot be increased since it is up against a property line on one side (Sheet A900, plan north) and the existing house on the opposite side. The depth of the garage cannot meet the 18' interior depth without transgressing the property line (Sheet

	<p>A900, plan west). Increasing the depth of the garage in the opposite direction towards the driveway would require major re-work to the existing house and displacement of an electrical meter (see Sheet A900). Due to these restrictive conditions, we are asking for a variance that will give an exception to the parking requirements on this property. We believe this variance should be considered because Loreto Drive is a residential street with abundant street parking that does not require permits to park on the street. In addition, this project intends to increase the width of the driveway to nine (9) feet wide to meet Section 30.32.130.C (see Sheet A100).</p> <p>The owners want to make every effort to be a good neighbor and improve this property to better fit into the Rossmoyne Historic District.</p>			
1120 N PACIFIC AVENUE STE 6	An administrative use permit to allow the sale and service of beer, wine and distilled spirits for on-site consumption only; in conjunction with an 1,850 square foot restaurant; with seating for 50 inside only; with the hours of 11:00 am to 11:00 pm, 7 days a week.
