BICYCLE TRANSPORTATION PLAN

Creating a Safer, More Connected Glendale for All

The City of Glendale is working on an updated Bicycle Transportation Plan (BTP) to identify opportunities for people of all ages to bike more safely and efficiently for school, work, errands, and recreation.

More About the Bicycle Transportation Plan

The updated BTP will be a 20-year roadmap for creating a safe, enjoyable, all-ages, all-abilities bicycle network that connects local destinations within the city as well as to the region. The updated BTP will also address bicycle parking, programming and education, and new technologies (e.g., shared micromobility, e-bikes).

**We need your
feedback!**

Please take our brief survey and help create a plan that will benefit people of all ages who live, work and play in Glendale.
