PROJECT BACKGROUND

Previous Permits for the Site:

On November 14, 1994, Administrative Exception Case No. 9330-AE was granted with conditions by the Zoning Administrator to reduce the number of total parking spaces required in conjunction with the change of a commercial use in an existing building and as a need to upgrade existing parking facilities to comply with the American with Disabilities Act (ADA).

On June 5, 2009, Zoning Use Certificate No. PZUC-20090296 was issued for “Chipotle Mexican Restaurant”, a 4,061 square foot fast-food restaurant use.

On September 14, 2009, the Conditional Use Permit Case No. PCUP 2009-006, to allow the on-site sales, service and consumption of alcoholic beverages at a new fast-food restaurant was issued and will expire September 30, 2024.

On November 5, 2014, the Administrative Use Permit Case No. PAUP 1420729, to renew the on-site sales, service and consumption of alcoholic beverages at a new fast-food restaurant will expire November 5, 2024.

On October 13, 2023, the Business Registration Certificate BRC-000787-2023 was

issued and will expire October 13, 2024.

Related Concurrent Permit Application(s):

There are no other related concurrent permit applications.

Environmental Determination:

The project is exempt from CEQA review as a Class 1 “Existing Facilities” exemption, pursuant to State CEQA Guidelines Section 15301(e), because the discretionary permit request is to renew the on-site sales, service, and consumption of beer and wine at an existing fast-food restaurant within an existing commercial space and there is no additional floor area proposed.

General Plan:

Commercial – Community Services

Zone:

C2 – Community Commercial Zone

Description of Existing Property and Uses:

The project site is developed with a one-story 4,061 square foot commercial building located mid-block on the eastern side of North Glendale Avenue between East Wilson Avenue and East Broadway. “Chipotle Mexican Grill” has been operating at this location since 2009 with the on-site sales, service, and consumption of beer and wine. The existing fast-food restaurant (Chipotle Mexican Grill) occupies 3,405 square feet of the commercial building, with the remaining 656 square feet utilized as office space for the restaurant. There are 105 seats for patrons, 71 indoor seats, and 34 seats on the 527 square-foot outdoor patio adjacent to North Glendale Avenue. Parking for the existing fast-food restaurant is provided per a Covenant and Agreement for parking that was recorded on January 17, 1995, and Administrative Exception No. 9330-AE; there are 51 parking spaces provided on-site and in the adjacent lots for this use.

Neighboring Zones and uses:

Direction	Zone	Existing Land Use
North	C2-I	Commercial
South	C2-I	Commercial
East	R-1650	Multi-family Residential / Parking Lot
West	DSP/CC	Glendale City Hall/ Civic Center
Project Site	C2-I	Fast-food Restaurant

COMMENTS FROM OTHER CITY DEPARTMENTS:

No significant concerns were received from the various city divisions/departments. Conditions have been received from the Police Department to ensure that any potential negative impact will be appropriately mitigated. These conditions will be part of the decision letter if the Administrative Use Permit (AUP) is approved.

PROJECT ANALYSIS

The subject site, located in the C2 – Community Commercial Zone with a General Plan Land Use Element designation of Community Services Commercial, within the South Glendale Community Plan. The request for renewing the on-site sales, service, and consumption of beer and wine at the existing fast-food restaurant, Chipotle Mexican Grill, aligns with the area's commercial zoning designation and is consistent with the General Plan and South Glendale Community Plan objectives and various elements. These plans prioritize creating a vibrant area that fosters diversity and economic opportunities. The other elements of the General Plan, including Open Space, Recreation, Housing, and Noise Elements, will not be impacted due to the applicant's request. Glendale Avenue, identified as a Major Arterial Street in the Circulation Element, is fully developed and can handle existing traffic circulation. The proposed renewal is not expected to create adverse traffic impacts beyond the existing conditions because there are no changes or expansions of the use proposed and commercially zoned properties surround the site. There are 51 parking spaces provided for the existing fast-food restaurant on-site and in the adjacent lots for this use. The parking is provided in accordance with a Covenant and Agreement that was recorded on January 17, 1995, and Administrative Exception No. 9330-AE. Access to the parking is provided via driveway entrances along North Glendale Avenue and North Everett Street, as well as an existing alley that runs north to south and is accessed via Broadway to the south and Wilson Avenue to the north, and an alley between these streets.

Chipotle Mexican Grill, a fast-food restaurant with outdoor patio dining, has operated with on-site sales, service, and consumption of beer and wine since 2009 without reported issues. Per the ABC website, Chipotle Mexican Grill has maintained an "active" Type 41 liquor license (On-Sale Beer and Wine - Eating Place). The applicant's request will not be detrimental to the health, safety, and public welfare of the neighborhood in general. According to the Glendale Police Department, the subject is located in census tract 3020.03, which allows for 3 On-Sale establishments. There are currently 2 On-Sale licenses in this tract, with Chipotle Mexican Grill being one of the existing 2 licenses. Based on arrests and Part 1 crime statistics for census tract 3020.03 in 2021, there were 62 crimes, 63% above the city-wide average of 167. Within the last year, there have been four calls for police service at the location related to disturbing the peace, suspicious person, and burglary for which the Police department took a report. None of the calls were directly related to alcohol sales. Police department did not cite any concerns.

The surrounding area includes various public facilities, and the proposed renewal will not impede their operation or conflict with such land uses. Adequate parking is available on-site and in nearby public lots, and the renewal won't necessitate new city services or impact parking and traffic circulation.

In summary, the request for the renewal of on-site sales, service, and consumption of beer and wine at an existing fast-food restaurant, Chipotle Mexican Grill, is supportable, based on the facts surrounding this application and the findings. Conditions of approval are recommended to ensure that any potential negative impacts will be appropriately mitigated.

DRAFT FINDINGS

A. That the existing use will be consistent with the various elements and objectives of the general plan.

The renewal of on-site sales, service and consumption of beer and wine at an existing fast-food restaurant (Chipotle Mexican Grill) is appropriate in an area of the city zoned for commercial uses and will continue to provide an option for the dining public to enjoy alcoholic beverages with their meals. The subject site is located in the C2 – Community Commercial Zone with a General Plan Land Use Element designation of Community Services Commercial, within the South Glendale Community Plan. The on-site sales, service and consumption of beer and wine at an existing fast-food restaurant (Chipotle Mexican Grill) will be consistent with the various elements and objectives of the General Plan. An economic goal of these documents is to create a vibrant area that promotes diversity and economic opportunities that support a variety of businesses. Goods and services that are offered in this zone generally attract clientele from surrounding communities and the adjoining residential neighborhoods. The project site is already developed and the applicant's request is to allow the renewal of on-site sales, service and consumption of beer and wine at an existing fast-food restaurant that is surrounded by other complementary businesses, including retail and service uses. The other elements of the General Plan, including Open Space, Recreation, Housing, and Noise Elements, will not be impacted as a result of the applicant's request. This application does not include any added floor area or modifications to the existing building; therefore, there will be no increase in required parking for the use.

The Circulation Element identifies Glendale Avenue as a Major Arterial Street and is fully developed and can adequately handle the existing traffic circulation around the site. The project site is surrounded by commercially zoned properties, and the applicant's request for the renewal of on-site sales, service and consumption of beer and wine at an existing fast-food restaurant in conjunction with meals is not anticipated to create any negative traffic-related impacts on Glendale Avenue and surrounding uses over and above the existing conditions.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The existing fast-food restaurant, Chipotle Mexican Grill, features an outdoor dining area and has operated from this location since 2009 with the on-site sales, service and consumption of beer and wine in conjunction with meals. The applicant's request will not be detrimental to the health, safety, and public welfare of the neighborhood in general. According to the Glendale Police Department, the subject is located in census tract 3020.03, which allows for 3 On-Sale establishments. There are currently 2 On-Sale licenses in this tract, with Chipotle Mexican Grill being one of the existing 2 licenses. Based on arrests and Part 1 crime statistics for census tract 3020.03 in 2021, there were 62 crimes, 63% above the city-wide average of 167. Within the last year, there have been four calls for police service at the location related to disturbing the peace, suspicious person, and burglary for which the Police department took a report. –None of

the calls were directly related to alcohol sales. Police department did not cite any concerns. The Glendale Police Department did not cite any concerns with the applicant's request to continue the on-site sales, service and consumption of beer and wine at this location and suggested conditions of approval have been included to mitigate any potential negative impacts.

C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

The renewal of on-site sales, service, and consumption of beer and wine at an existing fast-food restaurant will not adversely conflict with adjacent uses or impede the normal development of surrounding property, as conditioned. The applicant's request is not anticipated to adversely conflict with surrounding properties as it will be ancillary to the primary use, a fast-food restaurant. The subject property is located near other complementary businesses, including retail and service uses. There were no concerns or comments submitted by the Neighborhood Services Division that would indicate that the existing fast-food restaurant would have a negative impact on the surrounding area, and it did not propose any conditions of approval. There are four public facilities within the immediate are of the subject site: Glendale Civic Center/City Hall at 613 E Broadway (0.1 miles to the west), Glendale Seventh Day Adventist Church and Pre-School at 610 East California Avenue (0.3 miles to the north), Zion Lutheran Church and Pre-School at 517 East California (0.3 miles to the north), and Glendale Spanish Seventh Day Adventist Church at 901 East Broadway (0.3 miles to the south). While these facilities and uses are within close proximity, the applicant's request has not and will not impede the operation of such uses since they are not directly adjacent to the restaurant. There are residential uses across the adjacent alley and in the area, however, no impacts are anticipated as the existing fast-food restaurant, Chipotle Mexican Grill, has operated at this location for 15 years without any major incident.

D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.

The applicant's request for the renewal of on-site sales, service and consumption of beer and wine at an existing fast-food restaurant will not result in inadequate public or private facilities. The project site is already developed and associated facilities are existing. The existing fast-food restaurant, Chipotle Mexican Grill, has been operating at this location since 2009. This application does not include any added floor area or modifications to the existing building; therefore, there will be no increase in required parking for this use. Parking for the existing fast-food restaurant is provided per a Covenant and Agreement for parking that was recorded on January 17, 1995, and Administrative Exception No. 9330-AE; there are 51 parking spaces provided on-site and in the adjacent lots for this use. The Circulation Element identifies North Glendale Avenue as a Major Arterial Street which is fully developed and can adequately handle the existing traffic circulation around the site. The applicant's request for the renewal of on-site sales, service and consumption of beer and wine at an existing fast-food restaurant with meals will not require any new city services, nor will it require any changes to the parking or traffic circulation.

REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION:

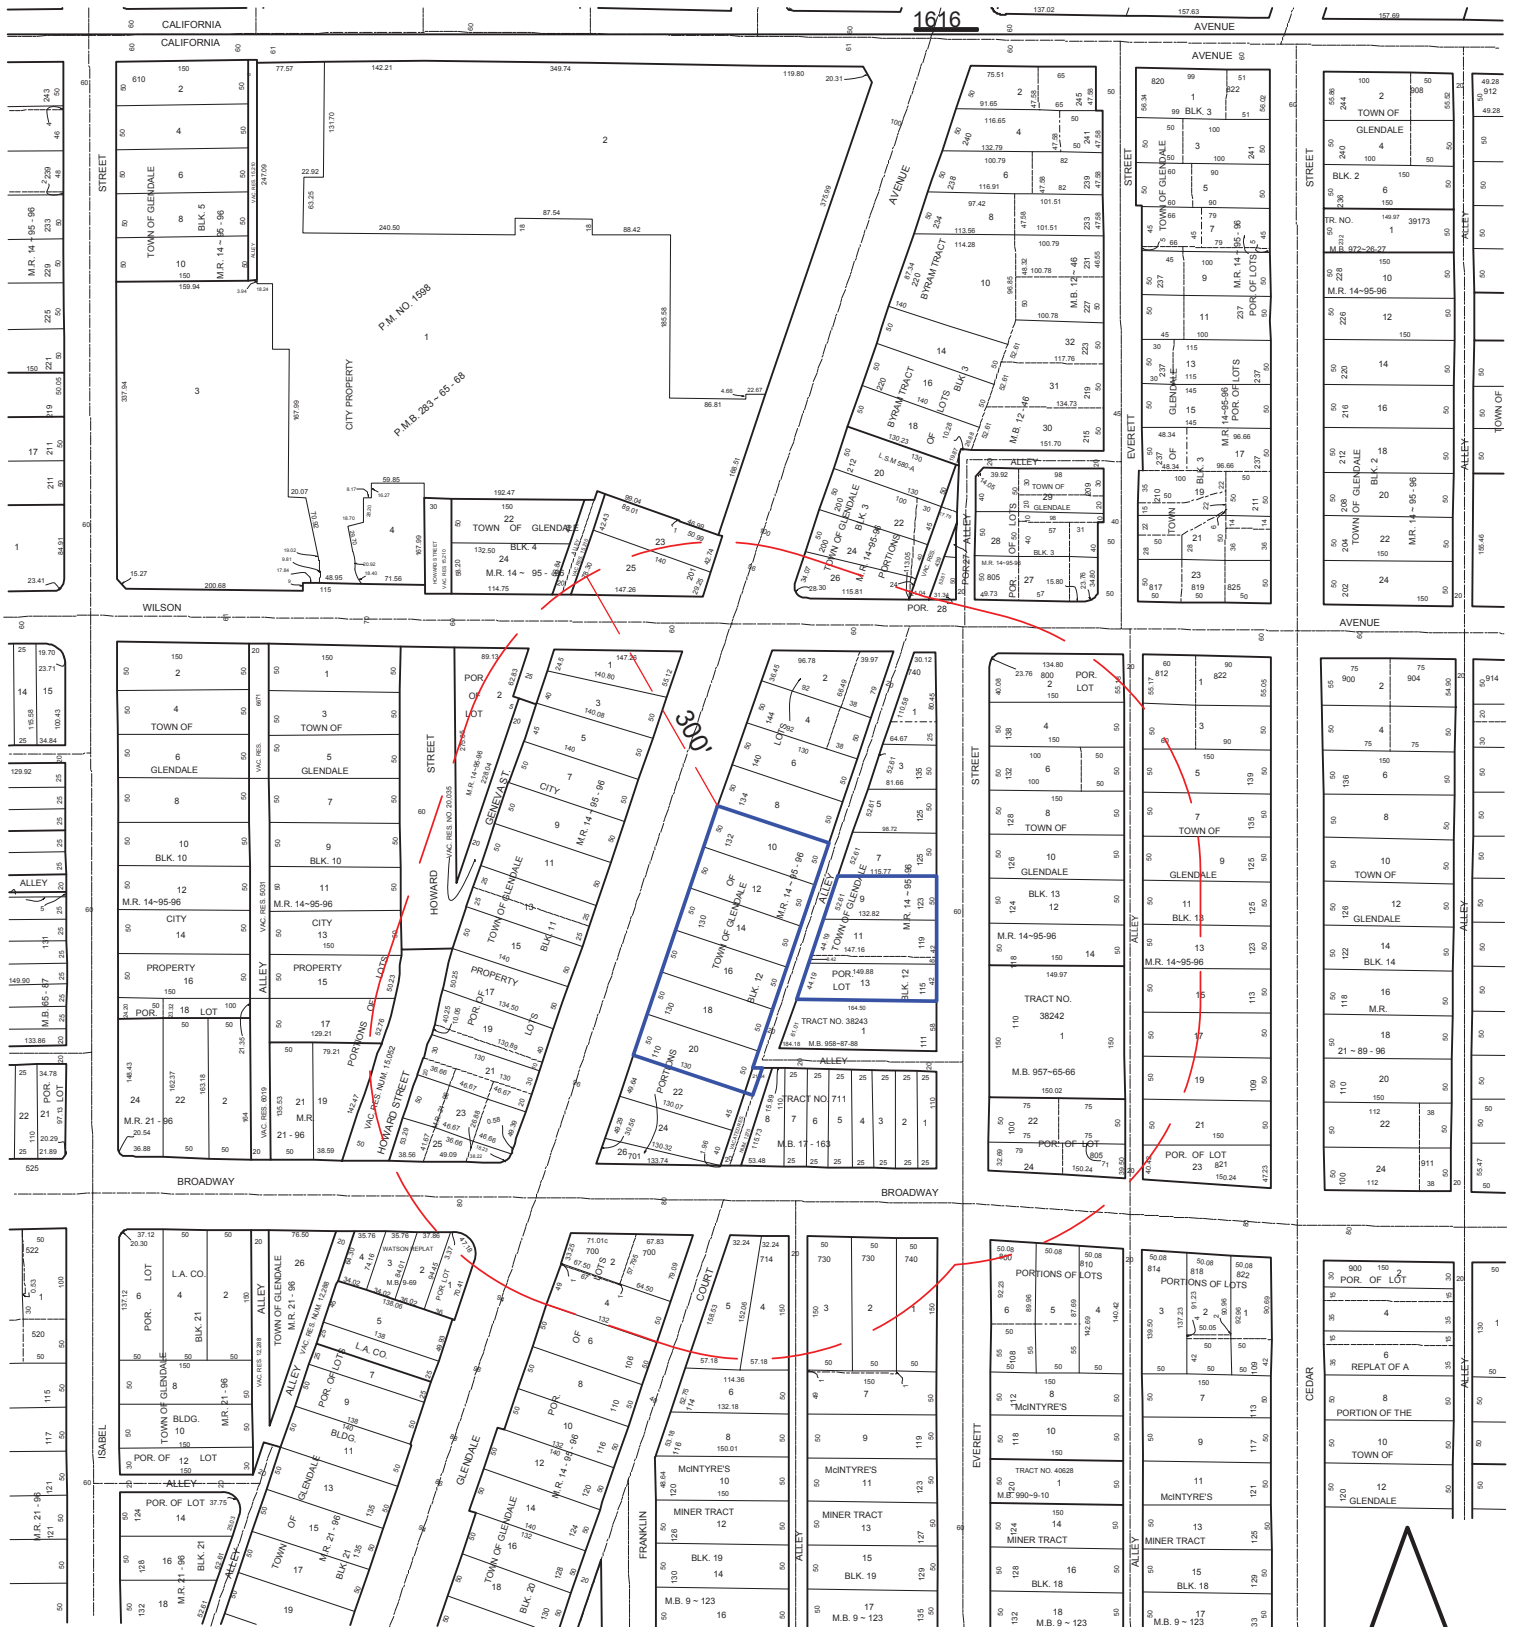

That all the criteria set forth in Section 30.49.030 (E) to be considered in making the findings in subsection A through D. above have all been met and thoroughly considered:

1. That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or where an existing or proposed off-site use is located in a Census Tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control (ABC), such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over concentration as described in Finding B above.
2. That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part I crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district because conditions of approval have been included in the approval of this application to ensure that any potential negative impacts will be appropriately mitigated, as described in Finding B above.
3. That the existing or proposed use does not or will not adversely impact any other uses within the surrounding area (church, public or private schools or college, day care facility, public park, library, hospital or residential use), as noted in Finding C above.
4. That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use as described in Finding D above.
5. That notwithstanding consideration in subsections 1 through 4 above, the continued operation of a fast-food restaurant with the on-site sales, service and consumption of alcoholic beverages does serve a public convenience for the area because it would provide beer and wine in conjunction with food service at the restaurant for local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.
